Report Version 6

Hazardous Materials Initial Site Assessment (ISA)

July 30, 2020 District: Houston

CSJ 0912-72-607, Shepherd & Durham from IH 610 to IH 10

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

TxDOT Environmental Affairs Division
Effective Date: December 2019
510.02.DS
Version 6

Hazardous Materials Initial Site Assessment (ISA) Report

This ISA complies with the Federal Highway Administration's (FHWA's) policy dealing with hazardous materials discussed in FHWA's *Supplemental Hazardous Waste Guidance* (January 16, 1997) located at http://www.environment.fhwa.dot.gov/guidebook/vol1/doc7b.pdf.

FHWA's policy emphasizes three objectives: 1) identify and assess potentially contaminated sites early in project development, 2) coordinate early with federal/ state/ local agencies to assess the contamination and the cleanup needed; and 3) determine and implement measures early to avoid or minimize involvement with substantially contaminated properties.

In addition, completing the ISA will aid in identifying hazardous material issues early, avoiding construction delays, and reducing the department's liability associated with the purchase of contaminated right of way.

Maintain a copy of the completed ISA report with all applicable attachments in the project file.

For additional information, refer to TxDOT's online manual: *Hazardous Materials in Project Development:* http://onlinemanuals.txdot.gov/txdotmanuals/haz/index.htm and the Hazardous Materials Toolkit Site: http://www.txdot.gov/inside-txdot/division/environmental/compliance-toolkits/haz-mat.html

Abbreviations and Acronyms

CALF	Closed and Abandoned Landfill
CERCLIS	Comprehensive Environmental Response Compensation and Liability Information System
EA	Environmental Assessment
EIS	Environmental Impact Statement
ECOS	Environmental Compliance Oversight System
ERNS	Emergency Response Notification System
EPA	Environmental Protection Agency
ESA	Environmental Site Assessment
HAZMAT	Hazardous Materials
MS4	Municipal Separate Storm Sewer System
MSWLF	Municipal Solid Waste Landfill
NPL	National Priorities List
RCRA	Resource Conservation and Recovery Act
ROW	Right of Way
SEMS	Superfund Enterprise Management System
TCEQ	Texas Commission on Environmental Quality
TRRC	Texas Railroad Commission
US	United States
USGS	United States Geological Survey
VCP	Voluntary Cleanup Program

TxDOT Hazardous Materials Initial Site Assessment (ISA) Report

Project Information			
CSJ No:0912-72-607	City:Houston	Zip Code:77007, 77008	County:Harris
HWY:Shepherd Drive/Durham Drive	Limits:IH-610 to IH-10		

Section 1: Identify Previously Completed Environmental Site Assessments, Known Hazmat Conditions, Preliminary Project Design, and Right-of-Way Requirements	
Note: Obtain information/comments from design, right-of-way, and/or environmental staff. Attach maps and/or details as appropriate.	
☒ Yes ☐ No ☐ Unknown	Are there any previous environmental assessments, testing, or studies performed within the proposed project area related to contamination issues (to include Phase I ESAs)? If yes, explain here if there are any concerns to the proposed project:A Phase I ESA was performed for the project and approved by the City of Houston. The Draft Phase I ESA identified several Recognized Environmental Conditions (RECs) and Historic Recognized Environmental Conditions (HRECs). Based on City of Houston recommendations, the Final Phase I Environmental Assessment identified both the Shepherd and Durham project corridors as Potentially Petroleum Contaminated Areas (PPCA) and concluded that "conducting a subsurface assessment (Phase II ESA) for all identified REC sites may be cost prohibitive."
☒Yes ☐ No	Have the project schematics and/or plan-profile sheets (if available) been reviewed?* Look for substantial excavations (including utilities and storm sewer designs), new ROW and easements, and bridge demolitions or renovations.

* For consultants: this information shall be supplied by TxDOT.

Section 2: Demolition and Renovation Information Related to Asbestos and Lead-Containing-Paint	
☐Yes ☒No	Are there proposed bridges or building demolitions or renovations for this project?
Note: If "Yes" is selected, buildings or structures being acquired through the acquisition process are assessed and mitigated for asbestos, as needed, within the ROW process according to the TxDOT ROW Manual ROW Vol. 6 Miscellaneous -Chapter 1 Section 5. Bridge structures being demolished or renovated are assessed and mitigated for asbestos and lead-containing-paint, as needed, within the construction process according to Standard Specification Item 6.10 (and applicable Provisions), and the TxDOT guidance document: Guidance for Handling Asbestos in Construction Projects, dated January 26, 2007.	

Section 3: Project Screening	
Note: Section 3.1 is only applicable for Categorically Excluded (CE) projects. If you are uncertain of the project type, select "No" and continue to Section 3.2. **Section 3.1** Determine if the proposed project has a low potential to encounter contamination. Refer to the preliminary schematics for project limits and internet-based maps for surrounding land use.	
☐ Yes ☒ No or an EA or EIS Project	Are the limits of the proposed project within a historically undeveloped area and outside the boundaries of a designated MS4 permitted area? Historically undeveloped areas are locations where no commercial buildings are located within one-half (0.5) miles of the proposed project limits and the surrounding land use is historically agricultural, forest, or ranch lands.
If "Yes" is selected, the ISA is complete. The proposed project has a low potential to encounter contamination. Complete Sections 9 and 10 of this ISA and maintain a copy and all applicable attachments in the project file. If "No" is selected, proceed to Section 3.2 of this ISA.	
Section 3.2 **Note:** Determine if the project includes any of the activities listed below:	

☐ Yes ☒ No	**Project Excavations:** Will the work consist of substantial excavation operations. Substantial excavation includes, but is not necessarily limited to: • Underpass construction, • Storm sewer installations, and • Trenching or tunneling that would require temporary or permanent shoring.
☐ Yes ☒ No	**Dewatering of Groundwater:** Are there proposed de-watering operations. If yes, what is the estimated depth to groundwater?
☒ Yes ☐ No	**Encroachments:** Are there known or potential encroachments into the project area? Encroachments include soil and groundwater contamination, dump sites, tanks, and other issues in the ROW.
☒ Yes ☐ No	**ROW and Easements:** Are there any acquisitions of new ROW, easements, temporary construction easements planned for the project?

3.3 Complete the appropriate box below:

☒ If Section 3.2 contains any "Yes" answers, please proceed to Section 4.

☐ If Section 3.2 contains all "No" answers, proceed to Section 6, Site Survey. Please perform a site survey documenting the results in Section 6 and then mark the appropriate box below. If a Phase I ESA has been prepared for this project, you may use the applicable site survey information from the Phase I ESA.

☐ The site survey did not identify evidence of any environmental concerns listed in Section 6. The ISA is complete. Complete Sections 9 and 10 and maintain a copy of the ISA and all applicable attachments in the project file.

☐ The site survey identified evidence of environmental concerns listed in Section 6. Continue with Section 4.

Section 4: Current and Past Land Use Information

Note: Review and assess current and past land use (up to 50 years) in the project area. Document and attach sources that were reviewed. If one or more Phase I ESAs were prepared for this project, please use applicable information from the Phase I ESAs to help complete this section of the ISA.

☒Yes ☐ No ☐ Not Available	**4.1 Review Current and Past USGS 7.5 Minute Topographic Maps of the project area:** Look for oil & gas pipelines, tanks, landfills, or other industrial features. Describe any concerns:		
	List Topo Maps Reviewed:	Dates:	Comments:

☐ Not Applicable	Houston Heights 7.5-minute, 24000 Houston Heights 7.5-minute, 24000 Houston Heights 7.5-minute, 24000 Houston Heights 7.5-minute, 24000 Houston Heights 7.5-minute, 24000 Houston Heights 7.5-minute, 31680 Houston Heights 7.5-minute, 31680 Houston Heights 7.5-minute, 24000	2013 1995 1982 1967 1955 1946 1922 1915	2013 - The only structures of note are the Oriental Textile Mill and Eureka Yard. The textile mill, located at Lawrence and West 22nd Street (one block east of Shepherd), was one of the first industrial complexes in Houston. It is no longer active for manufacturing and has been historically landmarked. Eureka Yards, on Eureka Street west of TC Jester Boulevard (approximately 0.7 mile west of Durham), served the MKT rail line, but it is no longer active. The site is currently used for equipment storage. The tracks for the Houston and Belt Terminal Railroad, which run parallel to West 34th Street north of the project corridor, are visible. 1995 - Railroad tracks are shown running down Nicholson Street (approximately 0.25 mile east of Shepherd, connecting to the MKT line and Eureka Yard. There are two water tanks adjacent to the tracks at 20th Street. There are several oil wells near the intersection of Bevis Street and East 18th Street (approximately 0.6 mile west of Durham). 1982 - Tracks along Nicholson, water towers, oil wells, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown. 1967 - Tanks and/or wells appear to be present in the vicinity of Eureka Yard and the development between Shepherd, White Oak Bayou, and the Katy Freeway. Tracks along Nicholson, water towers, oil wells, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown. 1955 - IH 610 has not been developed. The overall street grid is generally the same as 1967, but the area west of White Oak Bayou to the north of the MKT tracks has not been as developed yet; West 11th appears to be the only major street in the area, with a couple of blocks developed to the north and south. Durham is not a continuous corridor from White Oak Bayou to where IH 610 is today. A ditch connecting to White Oak Bayou is visible just north of West 26th Avenue

			west of Shepherd. Oaks Water Tank is visible at the northern end of the alignment. Oil wells are visible in the undeveloped area west of White Oak Bayou (the Bevis/18th Street area in maps from subsequent years). Tracks along Nicholson, oil wells, water towers, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown. 1946 - The Houston Belt Terminal line is at the northern end of the project corridor. Roslyn Road is the major street at the northern end of the corridor. Other than the 11th Street Extension, the area west of White Oak Bayou is largely undeveloped. There is some development between Shepherd and White Oak Bayou from 16th to 25th. Durham is not a continuous corridor. The tracks along Nicholson, the MKT tracks, Houston Belt and Terminal tracks, and oil wells are shown. The location of Eureka Yards is labeled as Eureka Junction. 1922 - Variations in topography are evident in the largely undeveloped area between Shepherd and the MKT rail line. Durham is not a continuous corridor. The street grid does not extend all the way north to Roslyn Road. Rail lines visible. The tracks along Nicholson, the MKT tracks, Eureka Junction, and Houston Belt and Terminal tracks (labeled Valley) are shown. 1915 - largely similar to 1922
☒Yes ☐ No ☐ Not Available ☐ Not Applicable	**4.2 Review Current and Past Aerial Photographs of the project area:** Look for oil & gas pipelines, tanks, landfills, or other industrial features. Describe any concerns:		
	List All Aerial Photos Reviewed:	Photo Dates:	Comments:

	USDA-CIR USDA-CIR USDA-CIR USDA-CIR USGS-CIR TXDOT TXDOT ASCS USGS USGS ASCS ASCS	2014 2012 2010 2005 1996 1989 1978 1973 1966 1953 1944 1938	2014 - Location of Eureka Yard and adjacent tracks appears to be vacant/dirt. 1953 (south) - While the street grid is similar to subsequent years, development is much sparser, especially in the areas around White Oak Bayou and the MKT rail line. The development that is visible is almost all residential, with the exception of the industrial area east of Shepherd and south of the MKT line. Much of Durham is not present and it is not a continuous street. 1944 (south) - Some of the industrial development south of the MKT line is present
☐Yes ☒ No ☐ Not Available ☐ Not Applicable	**4.3 Review Current and Past Right-of-Way Maps/Files*:** Look for oil & gas pipelines, tanks, landfills, or other industrial features. Describe any concerns:		
	List Maps/ Files & Dates Reviewed:	Comments:	
☒Yes ☐ No ☐ Not Available ☐ Not Applicable	**4.4 Review Sanborn Fire Insurance Maps/Files:** Look for tanks, oil & gas pipelines, landfills, or other industrial features. Describe any concerns:Twenty high-risk historic sites (dry cleaners, service stations, industrial uses, etc.) were identified. Please see attached Phase I ESA for details.		
	List Maps/ Files & Dates Reviewed:	Comments:	
	1925 1955 1969	See attached Phase I for detailed information on sites, including maps.	
☐Yes ☒ No ☐ Not Available ☐ Not Applicable	**4.5 Review TxDOT As-Built Plans*:** Were any concerns identified during previous work within the project limits? If yes, explain: If known, what is the previous Project CSJ:		
☐Yes ☒ No ☐ Not Available ☐ Not Applicable	**4.6 Review TxDOT Geotechnical Soil Boring Logs*:** Were any concerns noted on the boring logs such as unusual odors, visible contamination, trash, waste or debris? If yes, explain:		
☐Yes ☒ No ☐ Not Available	**4.7 Review TxDOT Temporary Use ROW Agreements (permits issued by the district to entities to occupy a portion of the ROW)*:** Were any concerns such as monitor wells or treatment systems identified within the ROW? For consultants: this information shall be supplied by TxDOT. If yes, explain:		
☐Yes ☒ No ☐ Not Available	**4.8 Review Notifications of Contamination to TxDOT*** (These are typically letters from TCEQ or third parties explaining the presence of contamination on TxDOT ROW): Were any concerns regarding contamination of ROW from off-site sources? If yes, explain:		

* For consultants: this information shall be supplied by TxDOT. If no information is supplied by TxDOT, then select Not Available.

Section 5: Complete a Regulatory Records Review (Database Search)

Note: Use the comment field in Section 5.1 to provide a synopsis of the total number of sites identified within the search distances of the regulatory record reviewed. No comments are required when no sites were identified or the regulatory record was not reviewed.

Select the appropriate box below:

☒ A Database search was conducted through a contracted service. Indicate in Section 5.1, and if applicable, Section 5.2, the regulatory records searched. Maintain a complete copy of the database search findings (contractor's report deliverable) in the project file with the ISA.

☐ A Database search was conducted in-house. For in-house database searches, not all databases need to be reviewed, but at a minimum the databases listed in Section 5.1 marked in **bold with a star(*)** must be reviewed. Include database records that list potential issues in the project file with the ISA. It is not necessary to include records of negative findings.

Section 5.1 Standard Database Sources of Environmental Information from Government Agency Records

Findings	Regulatory Record
☐**Sites Identified** ☒**No Sites Identified**	**Federal Active NPL or Not NPL list (CERCLIS or SEMS sites)*** **https://cumulis.epa.gov/supercpad/CurSites/srchsites.cfm; and/or https://www.epa.gov/cleanups/cleanups-my-community** (1 mile minimum search distance from project limits)
Comments for Sites Identified:	
☒**Sites Identified** ☐**No Sites Identified**	**Federal Archived NPL or Not NPL list (CERCLIS or SEMS sites)*** **https://cumulis.epa.gov/supercpad/CurSites/srchsites.cfm** (0.5 mile minimum search distance from project limits)
Comments for Sites Identified: There is one SEMS Archive (no further interest under the Federal Superfund Program) site in the vicinity of the project corridor: the Drane Court Site at 922 Drane Court off 11th Street. This site is approximately 0.45 mile west of the project area across White Oak Bayou. Project work is not expected to be impacted by this site.	
☐Sites Identified ☒No Sites Identified ☐Not Reviewed	US EPA Brownfield Properties **https://www.epa.gov/cleanups/cleanups-my-community** (0.5 mile minimum search distance from project limits)
Comments for Sites Identified:	
☒Sites Identified ☐No Sites Identified ☐Not Reviewed	Federal RCRA Corrective Action (CORRACTS) list https://www.epa.gov/cleanups/cleanups-my-community, and/or http://www.epa.gov/enviro/ (1 mile minimum search distance from project limits)
Comments for Sites Identified: The Central Industrial Park at 521-720 West 6th Street is listed in the CORRACTS database as a handler (not generator) of hazardous waste. In 1995, it was deemed that a request for investigation was necessary. The status of the site has not been updated since that time. The site is approximately 0.4 mile east of the project corridor. Due to distance and the inactive status, project work is not expected to be impacted by this site.	
☐Sites Identified ☒No Sites Identified ☐Not Reviewed	Federal RCRA non-CORRACTS Treatment Storage Disposal (TSD) facilities list http://www.envcap.org/statetools/tsdf/ and/or http://www.epa.gov/enviro/ (0.5 mile minimum search distance from project limits)
Comments for Sites Identified:	
☒Sites Identified	Federal RCRA generators http://www.epa.gov/enviro/ (acquired property and adjoining properties)

☐No Sites Identified ☐Not Reviewed	

Comments for Sites Identified: Star Enterprises at 801 North Loop West is a Large Quantity Generator (LQG) located adjacent to the project corridor. The site generates ignitable waste and benzene. No violations are on record for the site. The Enforcement and Compliance History (ECHO) database confirms that there are no violations on record for the past 12 quarters. A leaking petroleum storage tank site is also listed at this address (Shell/Texaco); the site is discussed in more detail in that section.

There are four Conditionally Exempt Small Quantity Generators (CESQGs) in the vicinity of the project corridors:

- Garden Oaks Dry Cleaners, 3201 North Shepherd
- Dry Clean Super Center, 1223 West 11th Street
- Texaco Station, 1049 North Shepherd
- Texaco Station, 2015 Shepherd

The Garden Oaks Dry Cleaners is approximately 0.25 mile to the north of the project corridor across IH 610. A compliance investigation was conducted at the site in 1997, but no information on the investigation was available. There are no violations listed for the site. Based on site status and distance, project work is not expected to be impacted by this site.

The Dry Clean Super Center is adjacent to the project corridor. It generates typical chemicals associated with dry cleaning (tetrachloroethylene, trichloroethylene, spent halogenated solvents). This site received an informal written violation after an inspection in 2007, but no information on the violation was available; another inspection was conducted in 2009 and compliance was achieved. There are no violations for the past 12 quarters in ECHO. The TCEQ Central Registry was checked for any listings on the site; there are no records of spills, leaks, or releases. Due to the lack of any federal or state records identifying any type of release at the site, it is not expected that project work will be impacted by this site.

The Texaco at 1049 Shepherd is adjacent to the project corridor (it is now a Kroger gas station). It is listed for generating ignitable waste and benzene. There are no violations listed for the site, and ECHO confirms that there have been no violations for the last 12 quarters. Project work is not expected to be impacted by this site.

The Texaco at 2015 Shepherd is listed for ignitable waste and benzene, and has no violations listed (confirmed by ECHO). The site was redeveloped as a Cane's restaurant. It is 0.07 mile south of the southern end of the project area; project work is not expected to be impacted by this site.

There are 25 RCRA Non-Generator sites within 0.25 mile of the project corridor. None of the sites had any violations listed. Any releases of hazardous materials at these sites would be captured by another database category and are discussed in those sections of this document.

☐Sites Identified ☒No Sites Identified ☐Not Reviewed	Federal ERNS (or Responses) https://www.epa.gov/cleanups/cleanups-my-community (acquired property and adjoining properties)

Comments for Sites Identified:

☒**Sites Identified** ☐**No Sites Identified**	**TCEQ Industrial Hazardous Waste Corrective Action (IHWCA) sites only*** **http://www15.tceq.texas.gov/crpub/** (1 mile minimum search distance from project limits)

Comments for Sites Identified: There is one IHWCA site within 500 feet of the project corridor: ABC Auto Parts at 2120 Shepherd Drive (IHWCA T3083). This site is also listed as Johnstone Supply Warehouse (LPST 119249) and the 2120 Shepherd Site (VCP 2552) and is discussed in those sections of this document.

A Response Action Completion Report was submitted and approved by TCEQ in 2013 and the IHWCA file was closed. TCEQ Central Registry was unable to locate any documentation on this site. Because it was given a "T" designation (rather than a standard CA program ID) and the only document submitted to close out the site was a Response Action Completion Report, it is likely that the IHWCA incident at the site was a single event separate from

larger VCP actions and/or contamination was immediately remediated or below protective concentration limits. IHWCA T3083 was closed in 2013. The VCP site at this location was closed in 2017 and it is assumed that all contamination at this location was addressed prior to issuing the Certificate of Completion. Excavation in the area for project work is expected to be less than five feet. Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition. The site was redeveloped with new (2014) construction for Johnstone.	
☐**Sites Identified** ☒**No Sites Identified**	**TCEQ Superfund sites*** http://www15.tceq.texas.gov/crpub/ **and/or** https://www.tceq.texas.gov/remediation/superfund/sites/index.html (1 mile minimum search distance from project limits)
Comments for Sites Identified:	
☒**Sites Identified** ☐**No Sites Identified**	**Closed and abandoned municipal solid waste landfill sites*** http://www.tceq.texas.gov/permitting/waste_permits/msw_permits/msw-data (0.5 mile minimum search distance from project limits)
Comments for Sites Identified: There are two listings in the vicinity of the project corridor: • Seay Site, 7200 Randol Mill Road • 2200 Patterson Based on the map provided by the EDR database report, the Seay site is actually located at West 34th Street and Randall Street, approximately 0.3 mile north of the project area across IH 610. The site opened in 1974 and received a closure memo from the Texas Department of Health in 1977. Due to its distance and closed status, project work is not expected to be impacted by this site. The site at 2200 Patterson is approximately 0.3 mile south of the southern end of the project area. This landfill collected household waste and was closed in 1992. The site has been redeveloped with office space. Based on status and distance, project work is not expected to be impacted by this site.	
☒**Sites Identified** ☐**No Sites Identified**	**TCEQ leaking petroleum storage tank remediation lists (LPST)*** http://www15.tceq.texas.gov/crpub/ (0.5 mile minimum search distance from project limits)
Comments for Sites Identified: There are 19 LPST sites within 500 feet of the project corridor. All sites were closed and final concurrence issued by TCEQ at the time of the Phase I ESA, with the exception of: • Abel Motors (2002 North Shepherd Drive) - The assessment is incomplete, but no apparent receptors have been impacted. Soil is contaminated with benzene, ethylbenzene, total xylenes, and MTBE. At the time of the Phase I site visits, the previous structures on site were largely demolished and new construction was underway. Since the time of the Phase I, this site has been closed by TCEQ (January 2019). • Johnstone Supply Warehouse (2120 Shepherd Drive) - This site was also in the Corrective Action Program as ABC Auto Parts. Remediation actions in this program were closed out in 2013 (TCEQ Central Files was unable to find any documentation on this site). The site is also listed as VCP 2552, the 2120 Shepherd Site.The LPST site moved into the VCP for closure. It is discussed in that section of this document.The site is still occupied by Johnstone, but all the current structures were built in 2014. Excavation in this area is expected to be five feet or less. Since the Phase I ESA, this site has been closed by TCEQ (listed in the Central Registry as inactive since 2016).	
☒**Sites Identified** ☐**No Sites Identified**	**TCEQ registered petroleum storage tank lists (PST)*** http://www15.tceq.texas.gov/crpub/ (acquired property and adjoining properties)
Comments for Sites Identified: There are 54 underground storage tanks and four above-ground storage tanks registered within 0.25 mile of the project corridor. Any sites were releases have occurred are discussed in other sections of this document.	
☒**Sites Identified** ☐**No Sites Identified**	**TCEQ voluntary cleanup program (VCP) sites*** http://www15.tceq.texas.gov/crpub/ (0.5 mile minimum search distance from project limits)
Comments for Sites Identified: There is one VCP site within 500 feet of the project corridor: the 2120 Shepherd Site (VCP 2552). Soil and groundwater were contaminated with volatile organic compounds, heavy metals, pesticides, and total petroleum hydrocarbons. The site received a Certificate of Completion under residential land use standards in 2016 and is protective for construction workers. Excavation for project work in this area is expected to be less than	

five feet; therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition. The site was redeveloped with new (2014) construction for Johnstone.	
☐Sites Identified ☒No Sites Identified ☐Not Reviewed	TCEQ Innocent Owner/ Operator (IOP) sites http://www15.tceq.texas.gov/crpub/ (0.5 mile minimum search distance from project limits)

Comments for Sites Identified:	
Section 5.2 List below other pertinent records reviewed such as local records and/or additional state records	
Record Source and Comments:	
Record Source and Comments:	

Section 6: Complete a Project Site Survey

Note: Do not document site survey concerns that were previously identified by the regulatory list search, by the Current and Past Land Use review, or both. In Section 6.1, describe the location and size of the concern. Attach site maps and photographs, as appropriate. If a Phase I ESA has been prepared for this project, you may use the applicable site survey information from the Phase I ESA and updated current site conditions, as needed.

Possible Site Survey Concerns: The following items are to be used as a guide to help identify potential hazardous material issues during a site survey.

- underground storage tanks
- aboveground storage tanks
- injection wells, cisterns, sumps, dry wells
- floor drains, walls stained by substances other than water or emitting foul odors
- stockpiling, storage of material
- surface dumping of trash, garbage, refuse, rubbish, debris half exposed/buried, etc.
- stained, discolored, barren, exposed or foreign (fill) soil
- oil sheen or film on surface water, seeps, lagoons, ponds, or drainage basins
- changes in drainage patterns from possible fill areas
- Dead animals (fish, birds, etc.)
- vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground
- electrical and transformer equipment storage or evidence of release
- groundwater monitoring wells and groundwater treatment systems
- vats, 55-gallon drums (labeled/unlabeled), canisters, barrels, bottles, etc.
- evidence of liquid spills
- damaged or discarded automotive or industrial batteries
- dead, damaged, or stressed vegetation
- pits, ponds, or lagoons associated with waste treatment or waste disposal
- security fencing, protected areas, placards, warning signs

Site Survey Date(s): January 13 and January 20, 2018

6.1 Describe Concerns Observed During the Site Survey. **Do not** include concerns previously identified during the regulatory list search, the current and past land use review or both. Indicate if the concern is associated with existing

ROW, proposed ROW, adjacent property, or easements. Provide address location (or relative location) and any additional information about the evidence identified; include photographs as an attachment to the ISA.

Comments or Concerns Identified: Abel Motors (2002 North Shepherd Drive) - This was an active LPST site at the time of the Phase I ESA. During the field visit, the site was undergoing demolition and new construction. Some standing water was noted in puddles due to the uneven surface at the site related to construction work. Utilities and a possible monitoring well casing were also evident not flush with the ground surface due to digging related to construction. Please note that since the Phase I was completed, the site has been closed by TCEQ (January 2019).

Section 7: Interviews

Section 7.1 Were interviews conducted? ☒Yes ☐No

Possible interviewees include local residents, TxDOT staff, fire department personnel, city or county department of health/environmental staff, city or county planning staff, TCEQ staff, TRRC staff, and current and former property owners or operators.

If one or more Phase I ESAs were prepared for this project, please use applicable interview information from the Phase I ESAs to help complete this section of the ISA.

Section 7.2 Interview Summary: Complete this section if interviews were conducted. Add additional rows as needed. Attach record of communications to the ISA.

Name:	Title:	Date:
Ms. Lisa Contreras, Advance America 2802 North Shepherd Drive Former Phillips 66 LPST site	Assistant Manager	January 20, 2018
Describe any potential concerns: None		
Name: Name not given AT&T 2802 North Shepherd Drive Former Phillips 66 LPST site	Title: Manager	Date: January 20, 2018
Describe any potential concerns: None		
Name: Jesus R. (full name not given) Fiesta Mart 2807 North Shepherd Drive LPST site	Title:	Date: January 20, 2018
Describe any potential concerns: None See attached Phase I ESA for additional interviews		

Section 8: Hazardous Material Concerns

On the list below, indicate if a concern is resolved or unresolved. “Unresolved” indicates additional investigation or research is required. “Resolved” indicates the concern has been resolved during the preparation of this ISA. If a concern is “Unresolved” or “Resolved”, include a statement explaining the planned next steps to resolve the issue. If no concerns were identified, select “No Issue”.

For additional information regarding scheduling considerations, internal/external coordination and recommended practices for resolving hazmat issues please refer to TxDOT’s *Environmental Tool Kit* web site.

Contact TxDOT ENV Hazardous Material Management (HMM) for additional assistance.

8.1 Identify Type of Hazardous Material Concerns	
Resolution	**Type of Concern**
☐**Unresolved** ☐**Resolved** ☒**No Issue**	**Current or Past Land Use Concerns:** These concerns are associated with hazardous material issues identified in Section 4 that were not discovered during the database search in Section 5.1 or during the Site Survey in Section 6.1. Note: *For ECOS IIR development, the Available Contaminated Media would be "Other".*
Explain Unresolved or Resolved Issues:There were past industrial uses in the corridor but most have now ceased operations. Any current issues area addressed in the appropriate section of this document.	
☐**Unresolved** ☒**Resolved** ☐**No Issue**	**Site Visit Concerns:** These concerns are associated with hazardous material issues discovered following the completion of Section 6 that were not previously discovered during the database search in Section 5.1 or during the current and past land use review in Section 4. Note: *For ECOS IIR development, the Available Contaminated Media would be "Other".*
Explain Unresolved or Resolved Issues:There was concern over construction and excavation at an active LPST site, but that site was closed by TCEQ in the time between the Phase I being completed and this ISA.	
☐**Unresolved** ☐**Resolved** ☒**No Issue** ☐**N/A**	**Interview Concerns:** These concerns are associated with any hazardous material issues discovered during an interview listed in Section 7, that were not previously discovered during the database search in Section 5.1, during the current and past land use review in Section 4, or during the Site Survey in Section 6.1. Note: *For ECOS IIR development, the Available Contaminated Media would be "Other".*
Explain Unresolved or Resolved Issues:No issues.	

☐**Unresolved** ☐**Resolved** ☒**No Issue**	**Petroleum Storage Tanks (PSTs) Concerns discovered during the database search:** PSTs are underground or aboveground storage tanks used to store fuel or other petroleum substances. Typically, these are found at gasoline and diesel refueling facilities. Select below all that apply.	
	☐Yes ☒No	ROW acquisition or partial acquisition of a parcel with one or more PSTs.
	☐Yes ☒No	Other- Describe:
Explain Unresolved or Resolved Issues:		
☐**Unresolved** ☒**Resolved** ☐**No Issue**	**Leaking Petroleum Storage Tanks (LPSTs) Concerns discovered during the database search:** LPSTs are PSTs that have caused or are suspected to have caused a release of fuel or other petroleum substances to the environment.	
	☐Yes ☒No	Additional Research is needed or uncertain of impacts from one or more LPSTs. Request assistance from ENV.
	☒Yes ☐No	ROW acquisition or partial acquisition of a parcel with one or more LPSTs.
	☒Yes ☐No	One or more LPSTs are located within 0.25 miles of the project.
	☐Yes ☒No	Other- Describe:
Explain Unresolved or Resolved Issues:Two LPST sites were in active remediation at the time of the Phase I ESA. Since that report was completed, those two sites have been closed.		
☐**Unresolved** ☐**Resolved** ☒**No Issue**	**Oil and Gas Activity Concerns**: TxDOT is concerned with the acquisition of oil and gas wells (and ancillary equipment) such as process, piping, production equipment, pipelines, etc. Select below all that apply.	
	☐Yes ☒No	Additional Research needed or uncertain of impacts. Request assistance from ENV.
	☒Yes ☐No	Database search identified TRRC VCP Site within 0.5 miles of project.
	☐Yes ☒No	Oil/ Gas Wells within future ROW.
	☐Yes ☒No	Spills or other Contamination Issues associated with ancillary equipment or pipelines.
	☐Yes ☒No	Other- Describe:
Explain Unresolved or Resolved Issues:No issue.		
☐**Unresolved** ☒**Resolved** ☐**No Issue**	**Non-LPST Source Contamination Concerns discovered during the database search**: These are sites or locations that have a potential for soil and groundwater contamination and are not associated with LPST sites. Select below all that apply.	
	☐Yes ☒No	Additional Research is needed or uncertain of impacts from a Non-LPST site. Request assistance from ENV.
	☐Yes ☒No	Database search identified SEMS Active NPL or Not NPL site(s) within 1 mile of the project. This may be identified on a database search as a CERCLIS or NPL site.
	☒Yes ☐No	Database search identified SEMS Archived NPL or Not NPL site(s) within 0.5 miles of the project. This may be identified on a database search as a CERCLIS NFRAP.
	☒Yes ☐No	Database search identified RCRA Corrective Action(s) site within 1 mile of project.
	☐Yes ☒No	Database search identified RCRA TSD facilities within 0.5 miles of project.
	☒Yes ☐No	Database search identified TCEQ IHW Corrective Action sites within 1 mile of project.
	☐Yes ☒No	Database search identified TCEQ Superfund sites within 1 mile of project.
	☒Yes ☐No	Database search identified TCEQ VCP sites within 0.5 miles of project.
	☐Yes ☒No	Database search identified TCEQ IOP sites within 0.5 miles of project.
	☐Yes ☒No	Other- Describe:

Explain Unresolved or Resolved Issues:See attached Phase I ESA for discussion of RECs, CRECs, and HRECs.		
☐**Unresolved** ☒**Resolved** ☐**No Issue**	**Landfills/Waste Pits/Dump Site Concerns:** These concerns are associated with any known or suspected (based on visual observations) landfills, dump sites, or waste pits. These concerns may appear on a database search as CALF or MSWLF site. Additionally, the local Council of Governments (COG) maintains a list of closed and open landfills in your project area. Select below all that apply.	
	☐Yes ☒No	Additional research is needed or uncertain of impacts. Request assistance from ENV.
	☒Yes ☐No	Database search identified active/closed/abandoned CALF or MSWLF landfill sites within .5 miles of the project.
	☐Yes ☒No	Other- Describe:
Explain Unresolved or Resolved Issues:Two inactive landfills were identified; based on current status and distance from project site, the issue is considered resolved.		

8.3 Did the ISA identify any Unresolved Hazardous Material concerns?

☒ No, unresolved hazardous materials concerns were identified and/or all potential concerns were resolved within the ISA. No further hazardous materials action is required. The ISA is complete for this project. Any unanticipated hazardous materials impacts encountered during the project construction phase shall be addressed in accordance with regulatory requirements and TxDOT standard specifications. Complete Sections 9 and 10 and maintain a copy of the ISA and all applicable attachments in the project file.

☐ Yes, the ISA identified one or more unresolved hazardous materials concerns requiring additional investigations or assessments. An Issues, Identification, and Resolution (IIR) form shalll be completed in ECOS to track the additional investigations and assessments. Complete Sections 9 and 10 and maintain a copy of the ISA and all applicable attachments in the project file.

Section 9: Reference Materials Utilized (Identify any referenced materials and attach them to the ISA or in the project file.			
Referenced Materials Used	☒ Project Map	☒ USGS Topo Maps	☒ Aerial Photographs
	☐ ROW Maps/Files	☒ Sanborn Fire Insurance Maps	☐ Temporary Use Agreements

Appendix A

The following table shows the revision history for this guidance document.

Revision History	
Effective Date	**Reason for and Description of the Change**
December 2019	Version 6 Updated NEPA assignment disclaimer language to reflect first renewed NEPA assignment MOU date of December 9, 2019.
April 2017	Version 5 The cover page has additional fields related to specific project information. This is added to personalize the ISA to a project. Section 2 was modified to acknowledge that asbestos or lead-in-paint issues might exist on our construction projects, but the identification and resolution to these issues are outside of the ISA process and are handled programmatically by TxDOT (usually in CST or the ROW processes). Section 3 was modified by adding an additional screening option. You are now able to screen out of performing a full ISA if your project meets the parameters described. Section 6 was reformatted to remove the numerous selections related to the Possible Site Survey Concerns. Additionally, redundant questions were removed to make the section easier to use. Under the new format, the preparer is required to insert the survey dates and a description of what was identified during the survey. Minor changes were made to terminology throughout the ISA, this was performed to clarify and streamline the process. Section 8.1 has been modified to provide resolution to potential hazardous materials issues that can be resolved easily during the ISA process. Additionally, a comment field was added to provide direction related to issues requiring further action to resolve. This will streamline the process in reducing the amount of IIR entries requires in ECOS and will reduce the time required to review a project.
June 2016	Version 4 Modifications to Section 5: Web links and database names were modified based on changes made by regulatory agency websites.
October 2014	Version 3

	Modifications to Section 2: Clarified this section to better define what are asbestos and lead-in-paint concerns. Changes were made due to numerous comments from the end-user. An additional note was added to this section. This note directs end-users to ENV-HMM for further assistance related to lead-in-paint issues. Modifications to Section 3: The question concerning Project Excavations in Section 3.1 was modified to match the definition used in Scoping Procedure for Categorically Excluded TxDOT Projects for Hazardous Materials found in the NEPA and Project Development Toolkit. Modifications to Section 5: Web links were modified based on changes made by regulatory agency websites. Modifications to 8.2: Clarified the “Yes” answer in 8.2 to remove the need for additional assessments for all identified hazardous materials concerns. The question was modified due to comments by the end-user.
August 2014	Version 2 Removed introductory note describing ISA threshold criteria. Note was removed because the ISA threshold criteria are located in other TxDOT guidance.
April 2014	Version 1 Released

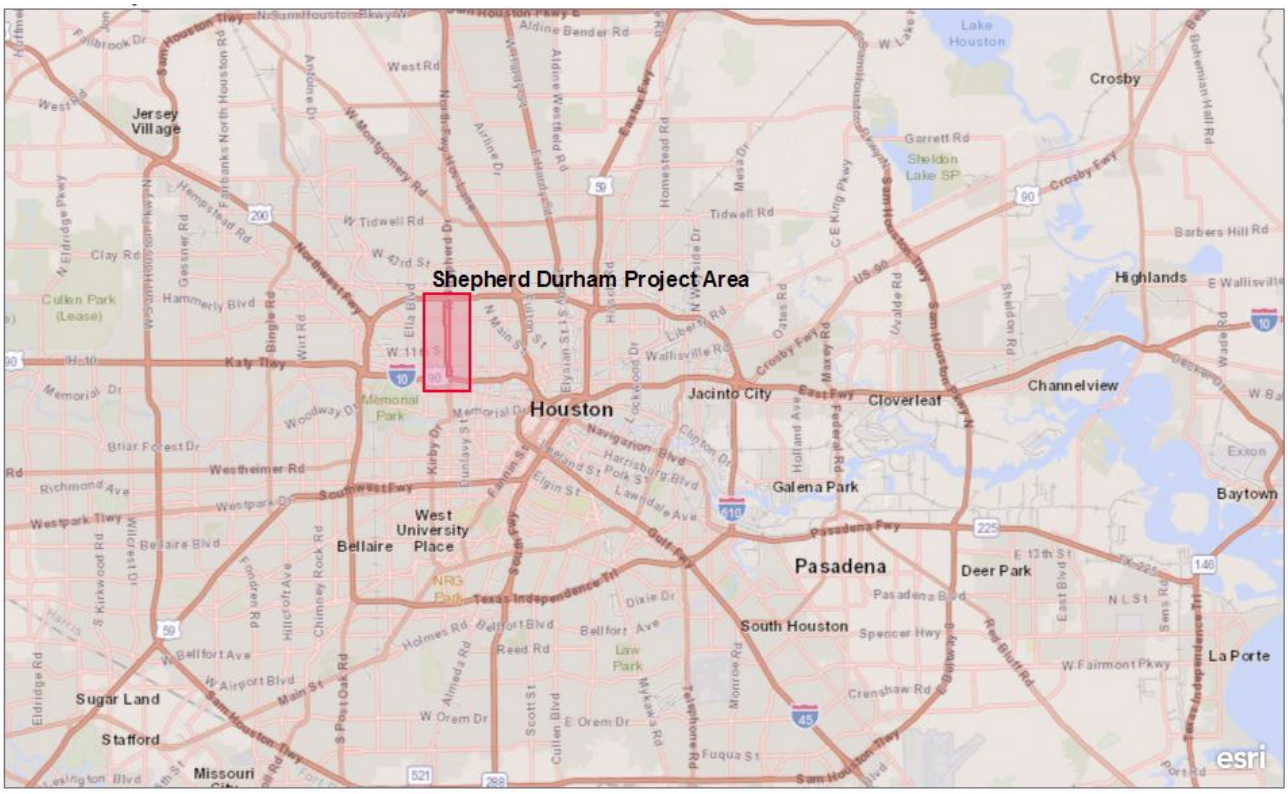
EXECUTIVE SUMMARY

Jones and Carter, on behalf of the Memorial Heights Redevelopment Authority/Tax Increment Reinvestment Zone #5 (the Users of this report), engaged The Goodman Corporation (TGC) to conduct a Phase I Environmental Site Assessment (ESA) for the corridor of Shepherd Drive and Durham Drive from IH 610 (eastbound frontage road) to Larkin Street in Houston, Texas. The project is in an urban area inside the IH 610 Loop in Houston. Land use in the area is a mix of residential, commercial, and industrial. There is both single- and multi-family housing, as well as several schools and churches. The majority of the corridor is composed of car dealerships, auto repair shops, and commercial strip-style development. The Heights Hike and Bike Trail and White Oak Bayou are at the southern end of the project limits. A vicinity map and photo of typical conditions for the project area are shown in the figures below.



City of Houston, Esri, HERE, Garmin, NGA, USGS, NPS

Figure 1 Vicinity Map (Arc GIS Online, 2018)

Figure 2 Typical Corridor Conditions, North Shepherd and West 17th Street (Google Earth, 2018)

The project will include total roadway reconstruction, new sidewalks/sidewalk reconstruction, the introduction of bicycle facilities, the reconstruction of signalization, and the reconstruction of storm water, water, and sanitary sewer utilities. Typical excavation for utilities along the entire corridor is expected to be five to 12 feet. South of White Oak Bayou, excavation will not exceed five feet. Excavation is anticipated to be up to 20 feet in the areas around 15th and 17th Streets. New right-of-way may be acquired ("corner clips" at 11th and 20th Streets), but all work will take place in areas that have already been disturbed for previous urban development.

This document was prepared in accordance with 40 CFR Part 312 *Standards and Practices for All Appropriate Inquiries (AAI), the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E1527-13), and City of Houston Department of Public Works & Engineering *Geotechnical and Environmental Requirements Design Manual* guidance (Chapter 11). The purpose of this Phase I ESA was to identify, to the extent feasible, Recognized Environmental Conditions (RECs) in the project corridor.

SITE RECONAISSANCE

Ms. Julie Arbeau of TGC visited the site corridor on January 13, 2018 and January 20, 2018.

HISTORICAL SUMMARY

The "property" is approximately 2.4 miles of Shepherd and Durham Drives from IH 610 to Larkin Street. Both roadways have four lanes of traffic. Shepherd features northbound lanes and Durham features southbound lanes. There is typically one block of development separating Durham on the west from Shepherd on the east with the exception of the blocks between 16th and 13th where there is a two-block separation. The project alignment crosses White Oak Bayou at the southern end and is within 2,000 feet of Turkey Gulley, a tributary of the White Oak Bayou, to the west.

The oldest topo map examined for this report was from 1915. Shepherd Drive had already been developed at that time. Durham was present in 1915 but did not become the continuous corridor from White Oak Bayou to IH 610 that it is today until the late 1960s.

There is a great variety of development along the corridor, but it is largely commercial abutting Shepherd and Durham, with residential development further to the east and west. Eureka Yards, on Eureka Street west of TC Jester Boulevard (approximately 0.7 mile west of Durham), served the MKT rail line since at least 1915, but it is no longer active. Tracks for the Houston and Belt Terminal Railroad, which run parallel to West 34th Street north of the project corridor, were active in at least 1915, but are no longer in use. Tracks were also located along Nicholson Street as early as 1915 but are no longer in use. Until the 1950s, much of the area to the north and west of White Oak Bayou was undeveloped. IH 610 was not constructed until the 1960s. There are many gas stations, car dealerships, mechanics, and dry cleaners in the area both historically and currently.

KNOWN OR SUSPECT RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM standard considers a site a Recognized Environmental Condition (REC) if there is "the presence or likely presence of any hazardous substances or petroleum products in, on, or at the property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment." Two RECs were identified in relation to the project:

- White Oak Bayou Municipal Settings Designation, North Shepherd Drive and White Oak Bayou (City of Houston #2013-059-FCD)
- Abel Motors, 2002 North Shepherd Drive [Leaking Petroleum Storage Tank (LPST) 119947]

Sites that have been issued Voluntary Cleanup Program (VCP) Certificates of Completion (COCs) without institutional or engineering controls, sites that have been issued Innocent Owner/Operator Program (IOP) Innocent Owner/Operator Certificates (IOCs), and sites that have been given the designation "Closed" by the LPST program are listed in this report as Historic Recognized Environmental Conditions (HREC), defined by the ASTM standard as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls." HRECs in the project corridor are:

- 2120 Shepherd Drive
- Shell/Texaco, 801 North Loop
- Fiesta Mart, 2807 North Shepherd Drive

- North Shepherd Phillips 66, 2802 North Shepherd Drive
- Old Service Station, 2707 North Shepherd Drive
- McQuillan Surveying, 2018 North Shepherd Drive
- Win Auto Sale, 1815 North Durham Drive
- Houston Alternator, 1835 North Shepherd Drive
- Former Guerrero Car Wash, 1603 North Durham Drive
- Former Used Car Lot, 1604 North Shepherd Drive
- FV, 1433 North Shepherd Drive
- Former Tommie Vaughn Motors Ford, 1145 North Shepherd Drive
- Valero Corner Store 2474, 1421 West 11th Street
- Shepherd ET, 1049 North Shepherd Drive
- Exxon RS 67233, 1048 North Shepherd Drive
- Tommie Vaughn Motors Ford, 914 North Shepherd Drive
- Dons Texaco Inc., 2015 Shepherd Drive
- RAS 6 3889, 4710 Katy Freeway

Sites where "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority…with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls" are listed as Controlled Recognized Environmental Conditions (CRECs). No CRECs were identified in the project area.

Additional City of Houston Requirements for HRECs

The City of Houston (COH) requires further investigation of HRECs: "a historical site (gasoline, filling, and service stations, and dry cleaners) not currently listed in the database shall be considered for ESA II provided it is located adjacent to the alignment/parcel."[1]

There are over 200 historic high-risk sites within 500 feet of the project corridor. Because of the large number of historic sites and the lack of any reported evidence of actual releases, intersections/blocks with high concentrations of sites were identified as HREC areas. These areas, based on available City Directories, Sanborn Maps, historic aerial photos and topographic maps, and EDR historic auto station and dry cleaner listings, are:

- North Shepherd at West 28th
- North Shepherd between West 27th and West 26th/midblock
- North Shepherd between West 25th and West 24th/midblock
- North Shepherd and West 23rd
- North Shepherd between West 21st and West 20th/midblock and Abel Motors
- North Durham between West 21st and West 20th/midblock
- North Shepherd and West 19th
- North Shepherd and West 18th
- North Shepherd and West 17th
- North Durham and West 17th
- North Shepherd between West 17th and West 16th/midblock
- North Durham and West 16th

[1] *City of Houston Department of Public Works & Engineering Geotechnical and Environmental Requirements Design Manual*, Chapter 11.

- North Shepherd between West 16th and West 15th/midblock
- North Shepherd and West 15th
- North Durham and West 15th
- North Shepherd between West 15th and West 14th/midblock
- North Shepherd between West 14th and West 13th/midblock
- North Shepherd and West 11th
- North Shepherd and West 10th
- North Shepherd and Larkin

RECs and HRECs are shown in Table 1 and Figures 3 through 7 below.

RECs and HRECs				
MAP #	**SITE**	**DISTANCE FROM PROJECT CORRIDOR**	**IDENTIFICATION NUMBER**	**STATUS**
1	White Oak Bayou MSD REC	Adjacent	City of Houston #2013-059-FCD	This MSD has been approved by the City of Houston and is pending with TCEQ. The western boundary of the MSD is North Shepherd Drive. Surface soils have been impacted by arsenic, barium, cadmium, lead, mercury and silver, and shallow groundwater has been impacted by antimony, arsenic, barium, cadmium, chromium, and lead. Concentrations of metals in surface soil did not exceed TCEQ's direct exposure Total Soil Combined Protective Concentration Limits (PCL) at any sampling locations. The highest concentrations of contaminants in groundwater have been identified in monitoring wells mid-site and 500 or more feet from Shepherd Drive; this is the presumed source area. The dominant direction of groundwater flow is away from the project area. Excavation for utility work in this area is expected to be less than five feet. This MSD is considered a Recognized Environmental Condition but is not anticipated to be impacted by project work.
2	Abel Motors 2002 North Shepherd Drive REC	65.78 feet	LPST 119947	At the time of the field visit, the site was undergoing demolition and new construction. Ghost tanks were reported at this site in December 2015. The assessment is incomplete, but no apparent receptors have been impacted. Soil is contaminated with benzene, ethylbenzene, total xylenes, and MTBE. The site is still active in the LPST remediation program and is a REC.
3	2120 Shepherd Drive HREC	163.31 feet	VCP 2552 LPST 119249 IHWCA T3083	The site was redeveloped with new (2014) construction for Johnstone. Soil and groundwater were contaminated with VOCs, heavy metals, pesticides, and TPH. The site received a Certificate of Completion under residential land use standards in 2016 and is protective for construction workers. Excavation in this area is expected to be less than five feet. Project work is not anticipated to be impacted by this site and it is considered an HREC.

4	Shell Texaco 801 North Loop HREC	174.46 feet	LPST 117756 LPST 98541	TCEQ determined during remediation work in 2010 that concentrations of contaminants in soil and groundwater at the site are protective of construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
5	Fiesta Mart 2807 North Shepherd Drive HREC	63.82 feet	LPST 109139	TCEQ determined that concentrations of contaminants are protective of construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
6	North Shepherd Phillips 66 2802 North Shepherd Drive HREC	Adjacent	LPST 091026	The site has been redeveloped as a strip mall with a fast food restaurant and commercial/retail businesses. TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
7	Old Service Station 2707 North Shepherd Drive HREC	Adjacent	LPST 106628	The site has been redeveloped with a Sunrise Dental office. Final concurrence was issued and the remediation actions were closed out in 1996; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
8	McQuillan Surveying 2018 North Shepherd Drive HREC	61.30 feet	LPST 111825	The site is currently vacant and for lease. TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
9	Win Auto Sale 1815 North Durham Drive HREC	61.09 feet	LPST 114439	At the time of the field visit, the business was closed and the building was undergoing demolition. TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
10	Houston Alternator 1835 North Shepherd Drive HREC	74.04 feet	LPST 119652	The site is now a strip mall with restaurants. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.

11	Former Guerrero Car Wash 1603 North Durham Drive HREC	Adjacent	LPST 120006	The site is now Balls Out Burgers. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
12	Former Used Car Lot 1604 North Shepherd Drive HREC	Adjacent	LPST 119056	The site is now Eagle Hand Wash and Car Detail. Final concurrence was issued and the remediation actions were closed out in 2013; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
13	FV 1433 North Shepherd Drive HREC	Adjacent	LPST 100344	The site is now the Heights Bier Garten. Final concurrence was issued by TCEQ and the remediation actions were closed out in 1992; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
14	Former Tommie Vaughn Motors Ford 1145 North Shepherd Drive HREC	240.12 feet	LPST 95686	The site is still a Ford dealership. TCEQ determined that concentrations of contaminants were below Plan A Category I target levels; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
15	Valero Corner Store 2474 1421 West 11th Street HREC	204.81 feet	LPST 118887	The site is now Title Max. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
16	Shepherd ET 1049 North Shepherd Drive HREC	Adjacent	LPST 107211 LPST 112625	The site is now a Kroger gas station. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
17	Exxon RS 67233 1048 North Shepherd Drive HREC	Adjacent	LPST 108256	This site is now a Mattress Firm Super Center. The vertical extent of contamination was defined; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 1996; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.

18	Tommie Vaughn Motors Ford 914 North Shepherd Drive HREC	Adjacent	LPST 114431	TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
19	Dons Texaco Inc. 2015 Shepherd Drive HREC	319.26 feet	LPST 115032	The site has been redeveloped with a Cane's restaurant. TCEQ determined that maximum soil concentrations do not exceed health-based target levels and groundwater concentrations do not exceed construction worker target levels. Excavation in this area is expected to be less than five feet. Project work is not anticipated to be impacted by this site and it is considered an HREC.
20	RAS 6 3889 4710 Katy Freeway HREC	415.24 feet	LPST 93326	The site was redeveloped in 2012 and is now the Texas Orthopedic and Spinal Institute. Groundwater was impacted at the site, but off-site migration was unlikely. Final concurrence was issued and the site was closed out in 1992. TCEQ Central Files was unable to find any documentation on this site, but their online tracking indicates that monitoring took place at the site prior to its closure in 1992. Due to evidence of monitoring prior to closure, the amount of time since site closure, the site's current use as office space, and excavation in the area of less than five feet, project work is not anticipated to be impacted by this site and it is considered an HREC.
21	North Shepherd at West 28th COH HREC Area	Adjacent		Adjacent to Fiesta Mart (#5) and Phillips 66 (#6)

INTRODUCTION

Jones and Carter, on behalf of the Memorial Heights Redevelopment Authority/Tax Increment Reinvestment Zone #5 (the Users of this report), engaged The Goodman Corporation (TGC) to conduct a Phase I Environmental Site Assessment (ESA) for the corridor of Shepherd Drive and Durham Drive from IH 610 (eastbound frontage road) to Larkin Street in Houston, Texas. The project is in an urban area inside the IH 610 Loop in Houston. Land use in the area is a mix of residential, commercial, and industrial. There is both single- and multi-family housing, as well as several schools and churches. Much of the corridor is composed of car dealerships, auto repair shops, and commercial strip-style development. The Heights Hike and Bike Trail and White Oak Bayou are at the southern end of the project limits. A vicinity map and photo of typical conditions for the project area are provided in the Executive Summary.

The project will include total roadway reconstruction, new sidewalks/sidewalk reconstruction, the introduction of bicycle facilities, the reconstruction of signalization, and the reconstruction of storm water, water, and sanitary sewer utilities. Typical excavation for utilities along the entire corridor is expected to be five to 12 feet. South of White Oak Bayou, excavation will be less than five feet. Excavation is anticipated to be up to 20 feet in the areas around 15th and 17th Streets. New right-of-way may be acquired ("corner clips" at 11th and 20th Streets), but all work will take place in areas that have already been disturbed for previous urban development.

This document was prepared in accordance with 40 CFR Part 312 *Standards and Practices for All Appropriate Inquiries* (AAI)*, the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E1527-13), and City of Houston Department of Public Works & Engineering *Geotechnical and Environmental Requirements Design Manual* guidance (Chapter 11). The purpose of this Phase I ESA was to identify, to the extent feasible, Recognized Environmental Conditions (RECs) in the project corridor.

PURPOSE

The purpose of this Phase I ESA is to identify, to the extent feasible, Recognized Environmental Conditions (RECs) in the corridor, as defined by ASTM E1527-13:

> "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions."

The assessment included driving the corridor and walking the exterior of sites with confirmed contamination and those thought to be high risk (dry cleaners, gas stations), research of state and federal records, and the request of property owners in the corridor to complete site questionnaires.

SCOPE OF SERVICES

The scope for this ESA was created in accordance with AAI, ASTM Standard Practice, and City of Houston guidance. These methodologies are accepted as representing good commercial and customary practice for conducting an ESA for the purpose of identifying recognized environmental conditions. The scope included the following elements:

- Evaluation of project corridor by experienced environmental professionals
- Review of state and federal environmental databases for project work area
- Review of reasonably available historical topographic maps, historical aerial photographs, Federal Emergency Management Agency (FEMA) floodplain maps, and other publicly available resource documents
- Contacting existing landowners, city officials, and/or other individuals who may have knowledge of current and historical activities on the subject property
- Identification of the presence or likely presence of RECs

Because the project does not involve demolition/renovation of buildings/structures, does not include undeveloped property, and is not an area of known oil and gas production,[2] the City of Houston requirements for additional analysis in these areas was not performed.

The southern end of the alignment crosses White Oak Bayou, but no construction activities area planned in this area. Only restriping would occur on the bridges crossing the bayou.

ASSUMPTIONS, LIMITATIONS, AND EXPECTATIONS

This report provides an overview of potential current and historic environmental concerns but is limited by the information that was accessible at the time of the assessment. It is possible that unreported or illegal disposal of waste may have occurred but has not been identified. The conclusions and recommendations provided in this report are based on the information that was available at the time the report was conducted, and only includes a file review.

TGC has provided this Phase I ESA in accordance with generally accepted industry practices, including AAI, ASTM E1527-13, and City of Houston guidelines, and it contains all limitations inherent within these methodologies. The data in this report is used without extraordinary verification. No expressed or implied representation or warranty is included or intended in this report, other than that services were performed within the limitations prescribed within the project scope. In no event shall TGC be liable to anyone for special, incidental, consequential, or exemplary damages. The conclusions in this report are based largely on information provided by outside parties, and there is a possibility that unexpected environmental conditions may be encountered. Due to the nature of the project, TGC did not inspect the interior of structures along the project corridor. Findings of this report cannot be applied to those areas or other areas that were not accessible for direct observation by TGC.

It should not be concluded or assumed that an inquiry does not adhere to AAI if it did not identify recognized environmental conditions in connection with a property. Environmental Site Assessments are evaluated based on the reasonableness of judgments made at the time and under the circumstances in which they were made.

An ESA is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs at a property while recognizing reasonable limits of time, cost, and efficiency; an ESA is not an exhaustive assessment.

This report is not to be construed as legal advice. It provides an assessment of environmental conditions in the project corridor based on current regulations, available data reported to state and federal agencies,

[2] A well report was requested from EDR and reviewed (see Appendix B). Approximately 20 oil and gas wells were identified to the east of the project area near White Oak Bayou. Only one well was identified in the project area at the southern end of the corridor. Wells at this site are no longer is use and were plugged and abandoned in 2001 and 2007. Wells are also discussed in the On Site Observations section of this report.

and TGC's scope of work. Evaluation of regulatory compliance by property owners and Phase II sampling were not part of this scope.

SPECIAL TERMS AND CONDITIONS

TGC accepts no responsibility for conditions at properties in the project corridor, whether those conditions are identified in this ESA or not, as TGC did not cause or contribute to said conditions.

TGC utilized standard accepted sources of data for completing this report (private companies providing database reports, agency web sites, personal interviews, etc.). TGC cannot confirm the accuracy, reliability, quality, or completeness of this information. TGC's ability to provide an assessment of the corridor is dependent on factors including: property access, condition of properties (e.g., ability to see conditions may be blocked by vegetation, fences, detritus, construction equipment, etc.), quality of data from outside sources, and knowledge of individuals interviewed. Please note that if new information regarding conditions in the corridor or additional environmental concerns are identified after submission of this report, subsequent evaluation may be required.

USER RELIANCE

This ESA is for the use of Jones and Carter and the Memorial Heights Redevelopment Authority/Tax Increment Reinvestment Zone #5 (Users). With permission from the client (Jones and Carter on behalf of the Memorial Heights Redevelopment Authority), this report may be issued to another party under the same limitations of the existing scope, which was created in accordance with AAI, ASTM Standard Practice, and City of Houston guidance. TGC assumes no responsibility for the interpretation of the information presented in this document or for actions taken or not taken as a result. In general, a Phase I ESA is considered valid for 180 days.[3]

SITE VICINITY AND DESCRIPTION

The project is in an urban area inside the IH 610 Loop in Houston. Land use in the area is a mix of residential, commercial, and industrial. There is both single- and multi-family housing, as well as several schools and churches. Much of the corridor is car dealerships or repair shops and commercial strip-style development. The corridor crosses the Heights Hike and Bike Trail and White Oak Bayou at the southern end.

CURRENT USE OF PROPERTY AND SURROUNDING PROPERTY

The proposed improvements would be constructed within the existing right-of-way. Some "corner clips" may be acquired for the project, but no privately-owned structures or properties will be impacted. Shepherd and Durham are both highly urbanized and developed, with residential, commercial, and industrial uses. Development immediately surrounding the project corridor is commercial; beyond that, it is more residential in nature. Figure 8 below depicts land use in the project area.

[3] The ASTM standard was created primarily for real estate transactions and property acquisitions. The standard states that a Phase I which meets or exceeds the ASTM and was completed less than 180 days prior to the date of acquisition of the subject property is presumed to be valid. Between 180 days and one year, the Phase I needs to be updated fairly comprehensively. Beyond one year, and the Phase I is no longer presumed to be valid. For the purposes of complying with standards of agencies such as the City of Houston, Federal Transit Administration and Texas Department of Transportation, there is generally more leeway on the timeline for which a Phase I ESA is considered valid.

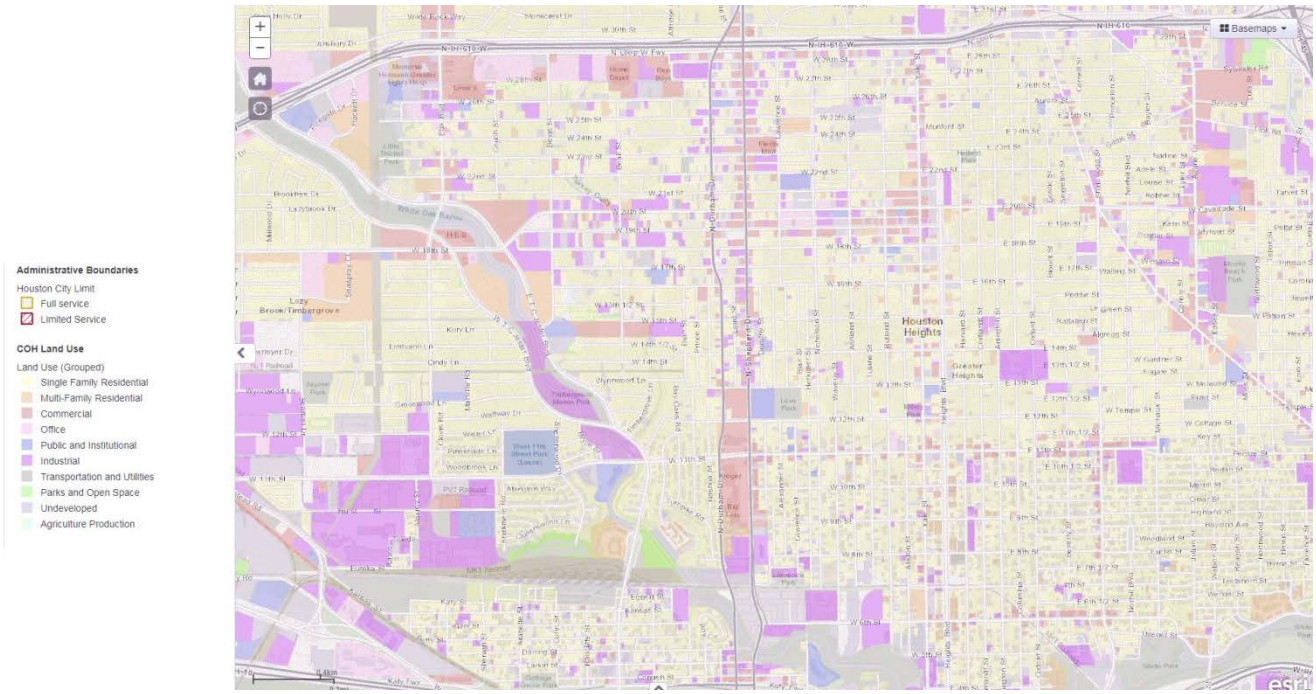

Figure 8 Land Use (Houston Map Viewer, http://mycity.houstontx.gov/houstonmapviewer/. Accessed December 19, 2017.)

STRUCTURES, ROADS, AND OTHER IMPROVEMENTS

The project area is the Shepherd and Durham Drives right-of-way and back-of-curb environment. The corridor is improved from Larkin Street to the eastbound frontage road of IH 610 with car dealerships, auto repair shops, METRO bus stops, residences, and additional commercial development.

USER PROVIDED INFORMATION

The All Appropriate Inquiries User Questionnaire was completed by Ms. Sherry Weesner, P.E., Memorial Heights Redevelopment Authority Administrator, on January 18, 2018. Ms. Weessner was not aware of any specific environmental issues in the project corridor. A copy of the questionnaire is included in Appendix A.[4]

TITLE RECORDS

Chain-of-title and other ownership records were not provided.

ENVIRONMENTAL LIENS OR ACTIVITY USE LIMITATIONS

The User was not aware of any environmental cleanup or liens connected to project corridor properties.

SPECIALIZED KNOWLEDGE

The User did not have any specialized knowledge of properties in the project corridor.

[4] All appendix materials are provided in a separate document.

COMMONLY KNOWN AND REASONABLY ASCERTAINABLE INFORMATION

The User did not provide any commonly known and reasonably ascertainable information.

VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

The User was not aware of any property valuation reductions due to environmental issues in the corridor.

OWNER, PROPERTY MANAGER, AND OCCUPANT INFORMATION

The jurisdiction of the project is within the City of Houston and Harris County. Shepherd and Durham are Texas Department of Transportation (TxDOT) “other principal arteries.”

REASON FOR PERFORMING A PHASE I

It is TGC’s understanding that the Phase I is being performed as part of the environmental due diligence for roadway, sidewalk, and utility improvements that will be constructed in the Shepherd and Durham corridor.

PHYSICAL SETTING

The project corridor is the right-of-way and back-of-curb environment on Shepherd and Durham Drives from IH 610 (frontage road) to Larkin Street in Houston, Texas. Land use in the area is a mix of residential, commercial, and industrial. There is both single- and multi-family housing, as well as several schools and churches. Much of the corridor is car dealerships or repair shops and commercial strip-style development. The Heights Hike and Bike Trail and White Oak Bayou are at the southern end.

SOIL

All soils in the project area are classified as Urban Land. Figure 9 and Table 2 below provide additional detailed information on soil.

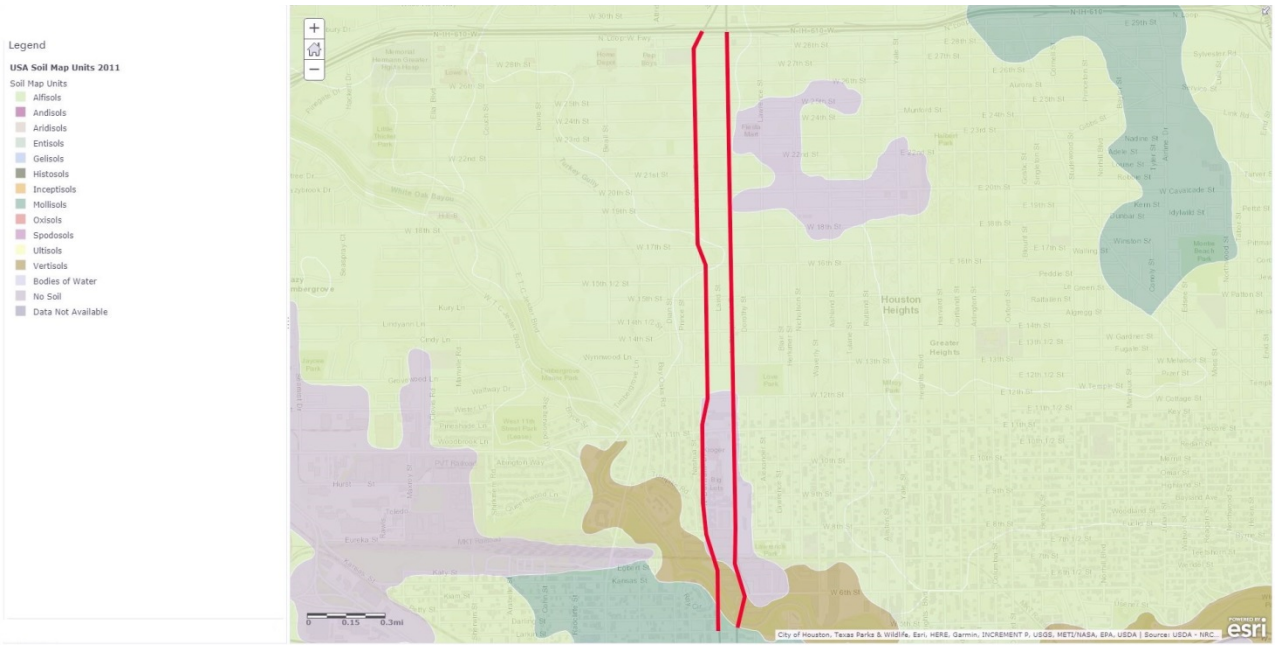

Figure 9 Soil [USA Soil Map Units, 2011. Arc GIS Online (accessed December 13, 2017).]

Soil

SOIL TYPE	DESCRIPTION
Clodine-Urban Land Complex	The Clodine series consists of very deep, somewhat poorly drained, moderately permeable soils. These nearly level soils formed in loamy sediments of the Lissie Formation of Pleistocene age. The surface layer of the Clodine soil is friable, dark gray loam about 12 inches thick. It is neutral in the upper part and moderately alkaline in the lower part. The layer below that is friable, moderately alkaline, gray loam about 17 inches thick. The next layer is friable, moderately alkaline, light brownish gray loam that has irregular, pitted calcium carbonate concretions. Urban land consists of soils that have been altered or covered by buildings and other urban structures making classification impractical. Included are areas of Clodine soils that have been altered by cutting, filling, and grading for development. Fill material commonly covers the Clodine soils. Not prime farmland.
Urban Land	Urban land consists of soils that have been altered or covered by buildings and other urban structures making classification impractical. Not prime farmland.
Vamont-Urban Land Complex	This mapping unit is in broad, nearly level areas and in long and narrow, gently sloping areas leading to the low terraces and flood plains of major streams and drainageways. Slopes are mainly zero to four percent, but in some areas they are as much as five percent for short distances along drainageways. These components are so intricately mixed that it is not feasible to separate them at the scale used in mapping. The surface layer of the Vamont soil is firm, medium acid, very dark grayish brown clay about eight inches thick. The layer below that is about 16 inches thick and consists of firm, strongly acid clay that is prominently mottled with yellowish brown and gray. Below this, to a depth of 70 inches, is a layer of very firm, strongly to medium acid, grayish brown clay that has a few yellowish brown and brownish yellow mottles. The next layer, to a depth of 94

	inches, is very firm, slightly acid, gray clay. Urban land consists of soils that have been altered or covered by buildings and other structures. Also in this mapping unit are remnants of Vamont soils that have been altered by cutting, filling, and grading during urban development. Areas filled to provide better drainage are common. This mapping unit can have a high shrink-swell potential because the soils contain a large amount of clay. Not prime farmland.
Bernard-Urban Land Complex	This is a nearly level complex in broad metropolitan areas and rural areas where the population is increasing. The slope is zero to one percent but averages 0.5 percent. The areas in this unit are so intricately mixed that it is not practical to separate them at the mapping scale. The surface layer of the Bernard soil is friable, neutral, very dark gray clay loam about six inches thick. The layer below that is about 48 inches thick and consists of firm, neutral, very dark gray clay in the upper part and very firm, moderately alkaline, dark gray clay in the lower part. The next layer is firm, moderately alkaline, gray clay that has distinct yellowish-brown mottles and a few calcium carbonate concretions. Urban land consists of soils that have been altered or covered by buildings and other urban structures, making classification impractical. Open spaces within developed areas are commonly covered by four to 18 inches of clayey fill material. Such areas generally are adjacent to major thoroughfares, recessed streets, and larger commercial buildings. In general, this mapping unit has high shrink- swell potential. Shrinking and swelling have caused driveways, patios, brick walls and ceilings to crack, sidewalks and streets to buckle, and fences to shift. Corrosivity to uncoated steel pipes is high. Landscaping is difficult, particularly in areas that have been compacted by machinery. Where exposed, the soils are sticky when wet. The soils are not suitable for use as septic tank filter fields. Not prime farmland.

Table 2[5]

GEOLOGY

The U.S. Geological Survey (USGS) Texas Geology Map Viewer indicates that the project area is part of the Beaumont Formation, which has a primary rock type of sand and formed during the Quaternary, Holocene, and Pleistocene (see Figure 10). This formation has the following characteristics[6]:

- Dominantly clay and mud of low permeability
- High water-holding capacity
- High compressibility
- High to very high shrink-swell potential
- Poor drainage
- Level to depressed relief
- Low shear strength
- High plasticity

Geologic units include interdistributary muds, abandoned channel-fill muds, and overbank fluvial muds.

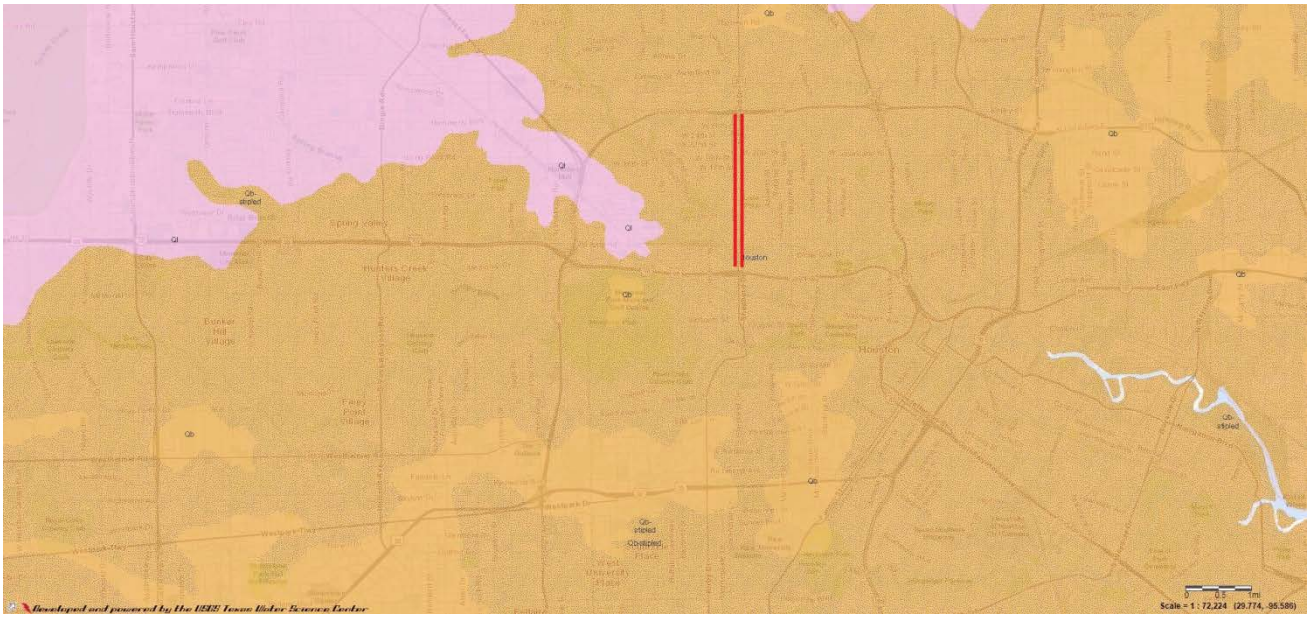

Figure 10 Geology [USGS Texas Geology Map Viewer, https://txpub.usgs.gov/DSS/texasgeology/ (accessed December 13, 2017).]

HYDROGEOLOGY

Based on data from the Texas Water Development Board, the site corridor is located over the Gulf Coast Aquifer (see Figure 11):

> The Gulf Coast Aquifer is a major aquifer paralleling the Gulf of Mexico coastline from the Louisiana border to the border of Mexico. It consists of several aquifers, including the Jasper, Evangeline, and Chicot aquifers, which are composed of discontinuous sand, silt, clay, and gravel beds. The maximum total sand thickness of the Gulf Coast Aquifer ranges from 700 feet in the south to 1,300 feet in the north. Freshwater saturated thickness averages about 1,000 feet.
>
> Water quality varies with depth and locality: it is generally good in the central and northeastern parts of the aquifer, where the water contains less than 500 milligrams per liter of total dissolved solids, but declines to the south, where it typically contains 1,000 to more than 10,000 milligrams per liter of total dissolved solids and where the Gulf Coast Aquifer productivity of the aquifer decreases. High levels of radionuclides, thought mainly to be naturally occurring, are found in some wells in Harris County in the outcrop and in South Texas.
>
> The aquifer is used for municipal, industrial, and irrigation purposes. In Harris, Galveston, Fort Bend, Jasper, and Wharton counties, water level declines of as much as 350 feet have led to land subsidence.

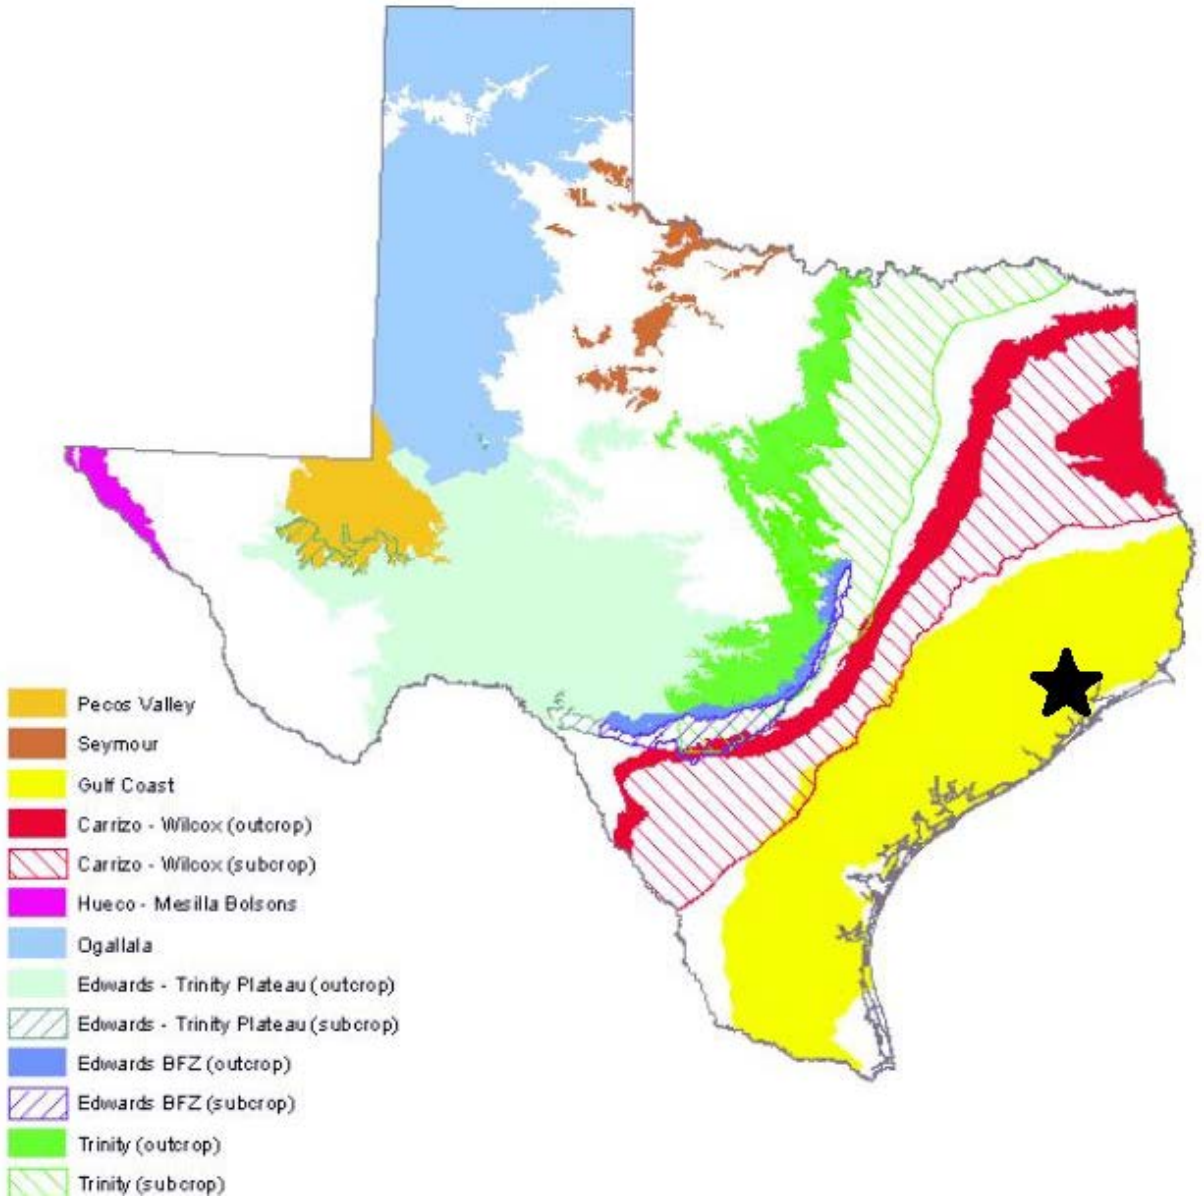

Figure 11 Hydrogeology [Texas Water Development Board, Major Aquifers, http://www.twdb.texas.gov/groundwater/aquifer/major.asp (accessed December 13, 2017).]

HYDROLOGY

The southern end of the project corridor crosses White Oak Bayou. This segment of White Oak Bayou (1017) is classified as a freshwater stream and is impaired.[7]

[7] Texas Commission on Environmental Quality *Surface Water Quality (Segments) Viewer*. http://tceq.maps.arcgis.com (accessed December 14, 2017).

The project area is in the Buffalo-San Jacinto Watershed. This watershed is classified as impaired.[8]

The project area is outside of the coastal zone.

The majority of the project corridor is outside of any floodplain areas. The southern end of the project corridor (south of 7th Street) crosses the floodway, the 500-year floodplain, and the 100-year floodplain (see Figure 12).

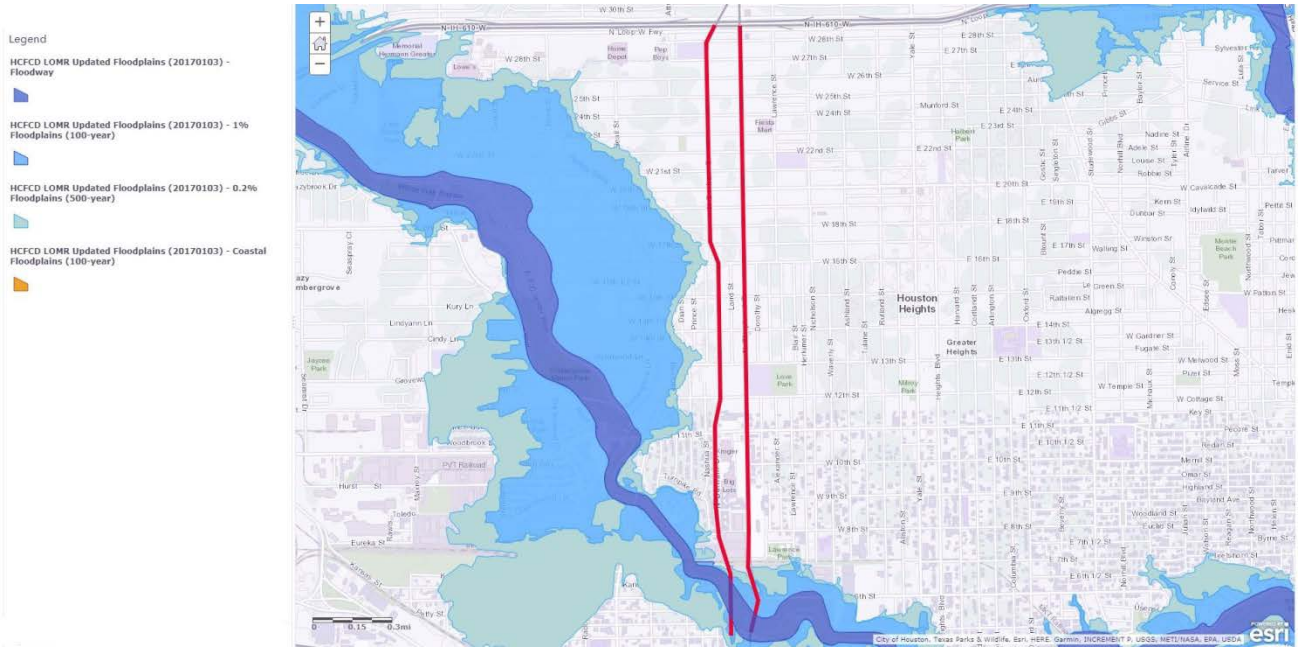

Figure 12 Hydrology [Harris County Flood Control District Letter of Map Revision Updated Floodplains, Arc GIS Online (accessed December 13, 2017).]

The only wetland in the project vicinity is approximately 0.6 mile to the west of Durham Drive between T.C. Jester Boulevard and Bevis Street (see Figure 13). The wetland is classified as "Other."

[8] Environmental Protection Agency *Surf Your Watershed*, https://cfpub.epa.gov/surf/huc.cfm?huc_code=12040104 (accessed December 14, 2017).

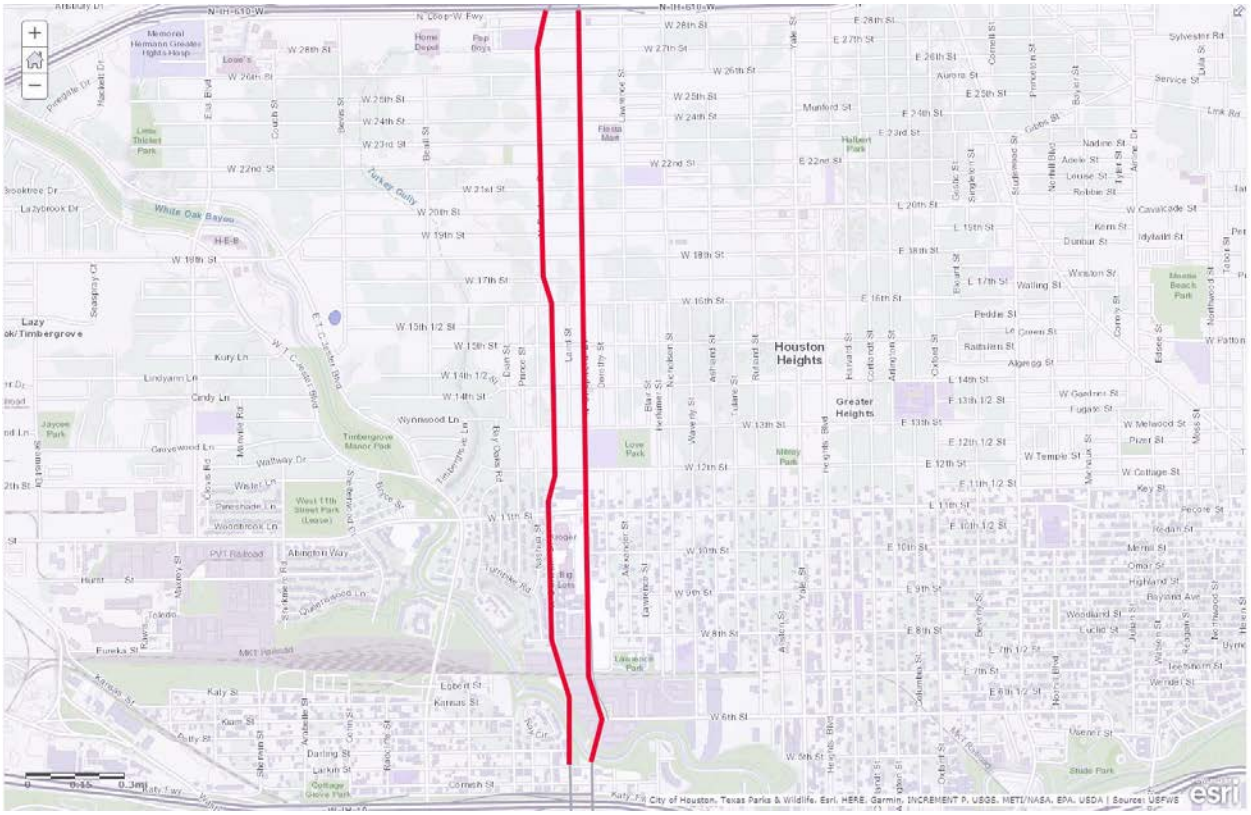

Figure 13 Wetlands [USA Wetlands, Arc GIS Online (accessed December 14, 2017.)]

TOPOGRAPHY

The project corridor is relatively flat. There is more variation in topography on the southern end around White Oak Bayou (see Figure 14).

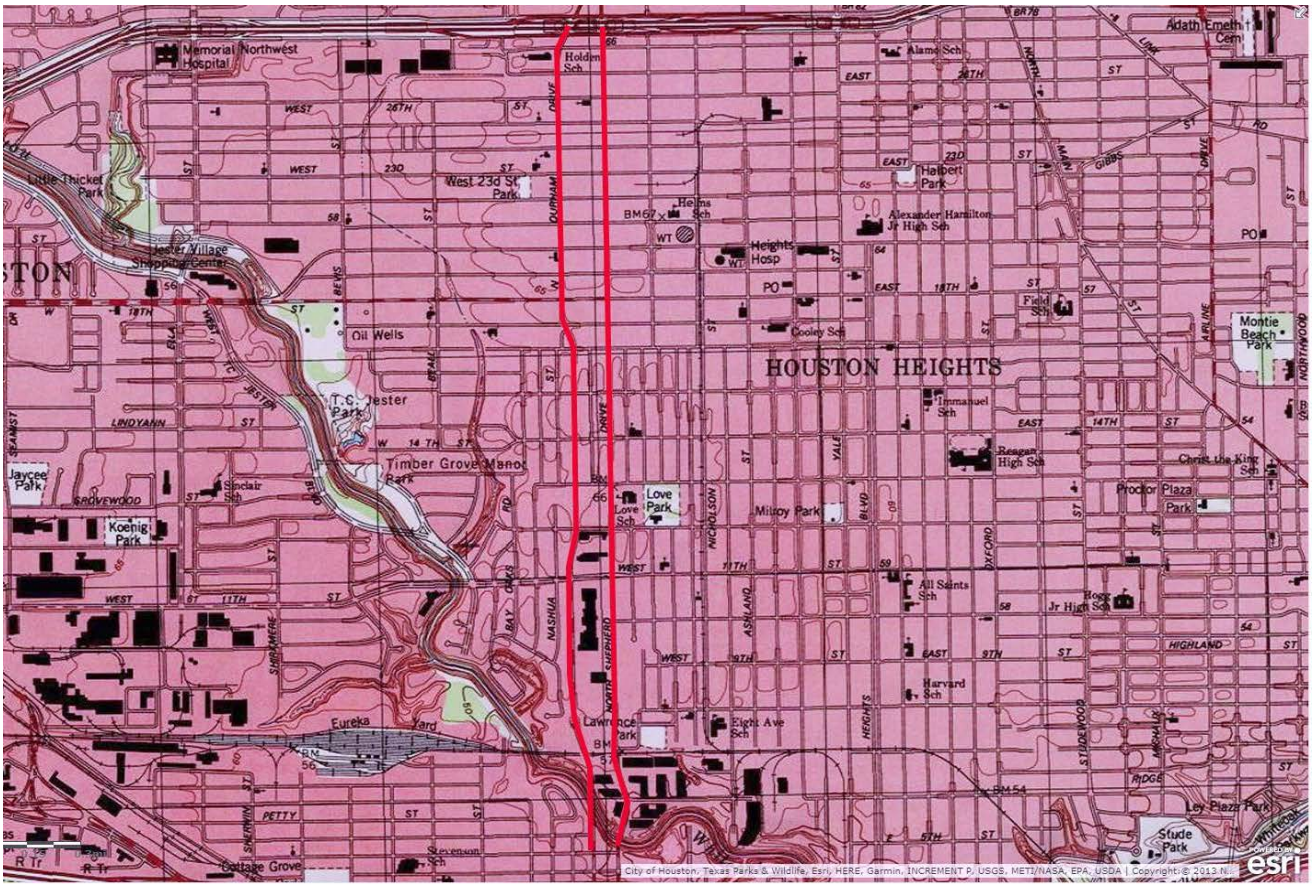

Figure 14 Topography [USA Topo Maps, Arc GIS Online (accessed December 13, 2017).]

RECORDS REVIEW

A search of standard federal, state, and tribal environmental databases was conducted on December 18, 2017 through EDR. The databases were reviewed for properties reporting environmental conditions located within a minimum search distance prescribed by the ASTM Standard E 1527-13.

A total of 456 records were reported within the standard radii of the project corridor. A summary of these sites is provided in Table 3. Appendix B contains the database search results.

Categories where sites were reported are discussed in this section. Categories where no sites were identified within the standard search radius are identified in the table below, but not included in the detailed site discussion that follows.

Table 3 Summary of Federal, State, and Tribal Agency Database Records (EDR, December 18, 2017.)

REGULATORY AGENCY DATABASE RECORDS

Superfund Enterprise Management System (SEMS) Archive
This list tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the Environmental Protection Agency (EPA) in 2015. The EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that the EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

There is one SEMS Archive site in the vicinity of the project corridor: the Drane Court Site at 922 Drane Court off 11th Street. This site is approximately 0.45 mile west of the project area across White Oak Bayou. Project work is not expected to be impacted by this site.

Corrective Action Report (CORRACTS)
These sites are registered hazardous waste generators or handlers that are governed by the Resource Conservation and Recovery Act (RCRA) and have conducted or are currently conducting corrective action/remediation activities.

The Central Industrial Park at 521-720 West 6th Street is listed in the CORRACTS database as a handler (not generator) of hazardous waste. In 1995, it was deemed that a request for investigation was necessary. The status of the site has not been updated since that time.

The site is approximately 0.4 mile east of the project corridor. Due to distance and the inactive status, project work is not expected to be impacted by this site.

RCRA Large Quantity Generator (LQG)
The EPA regulates all hazardous waste generators subject to RCRA. Entities are classified by the quantity of waste generated: a small quantity generator (SQG) produces between 100 kilograms and 1,000 kilograms of waste per month; a large quantity generator (LQG) produces over 1,000 kilograms of waste per month; a conditionally exempt SQG (CESQG) produces less than 100 kilograms of waste per month.

Star Enterprises at 801 North Loop West is a LQG located adjacent to the project corridor. The site generates ignitable waste and benzene. No violations are on record for the site. The Enforcement and Compliance History (ECHO) database confirms that there are no violations on record for the past 12 quarters.[9] A leaking petroleum storage tank site is also listed at this address (Shell/Texaco); the site is discussed in more detail in that section of this report.

RCRA Conditionally Exempt Small Quantity Generator (CESQG)
CESQGs generate less than 100 kilograms of hazardous waste or less than one kilogram of acutely hazardous waste per month. There are four CESQGs in the vicinity of the project corridors:

- Garden Oaks Dry Cleaners, 3201 North Shepherd
- Dry Clean Super Center, 1223 West 11th Street
- Texaco Station, 1049 North Shepherd
- Texaco Station, 2015 Shepherd

The Garden Oaks Dry Cleaners is approximately 0.25 mile to the north of the project corridor across IH 610. A compliance investigation was conducted at the site in 1997, but no information on the investigation was available. There are no violations listed for the site. Based on site status and distance, project work is not expected to be impacted by this site.

The Dry Clean Super Center is adjacent to the project corridor. It generates typical chemicals associated with dry cleaning (tetrachloroethylene, trichloroethylene, spent halogenated solvents). This site received an informal written violation after an inspection in 2007, but no information on the violation was available; another inspection was conducted in 2009 and compliance was achieved. There are no violations for the past 12 quarters in ECHO.[10] The Texas Commission on Environmental Quality (TCEQ) Central Registry was checked for any listings on the site; there are no records of spills, leaks, or releases.[11]

[9] https://echo.epa.gov/detailed-facility-report?fid=110005023349
[10] https://echo.epa.gov/detailed-facility-report?fid=110005184656
[11] http://www15.tceq.texas.gov/crpub/index.cfm?fuseaction=regent.showSingleRN&re_id=226283852002295

Due to the lack of any federal or state records identifying any type of release at the site, it is not expected that project work will be impacted by this site.

The Texaco at 1049 Shepherd is adjacent to the project corridor (it is now a Kroger gas station). It is listed for generating ignitable waste and benzene. There are no violations listed for the site, and ECHO confirms that there have been no violations for the last 12 quarters.[12] Project work is not expected to be impacted by this site.

The Texaco at 2015 Shepherd is listed for ignitable waste and benzene, and has no violations listed (confirmed by ECHO).[13] The site was redeveloped as a Cane's restaurant. It is 0.07 mile south of the southern end of the project area; project work is not expected to be impacted by this site.

Resource Conservation and Recovery Act (RCRA) Non-Generator/No Longer Regulated
These sites may have previously been regulated under RCRA, but no longer generate hazardous waste and/or are no longer regulated. There are 25 RCRA Non-Generator sites within 0.25 mile of the project corridor. None of the sites had any violations listed. Any releases of hazardous materials at these sites would be captured by another database category and are discussed in those sections of this report.

Integrated Compliance Information System (ICIS)
The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program. It integrates information into a single data system that supports both management and programmatic requirements of the Enforcement and Compliance programs.

Tommie Vaughn Motors at 1145 North Shepherd (adjacent to the project corridor) is listed in this database. The site is not currently a RCRA Generator, but was historically a SQG of ignitable waste, cadmium, chromium, benzene, chlorobenzene, 1,4-dichlorobenzene, tetrachloroethylene, and non-halogenated solvents. The site is listed in the ICIS database for a formal administrative enforcement action in 2004. The site entered the EPA's Spill Prevention, Control, and Countermeasure Expedited Settlement Program for a Clean Water Act Class Penalty. The site is discussed in more detail in the Leaking Petroleum Storage Tank section of this document.

Facility Index System/Facility Registry System (FINDS)
The Facility Index System (FINDS) contains both facility information and "pointers" to other sources that contain more detail. The FINDS database is a way to access information about a site in one location. There are 39 FINDS sites in the vicinity of the project area. Any releases of hazardous materials at these sites would be captured by another database category and are discussed in those sections of this report.

Enforcement and Compliance History Information (ECHO)
The Enforcement and Compliance History Information (ECHO) database provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide. Like FINDS, it is a database for tracking violations. Any releases of hazardous materials at these sites would be captured by another database category and are discussed in those sections of this report.

[12] https://echo.epa.gov/detailed-facility-report?fid=110005023358
[13] https://echo.epa.gov/detailed-facility-report?fid=110005023376

Solid Waste Facilities/Landfill Sites
These sites include recycling facilities, open dumps, and illegal dump sites. There are two sites listed in the vicinity of the project corridor:

- Green Arrow Transfer, 603 West 17th Street
- Egbert Transfer Station, 5200 Egbert Street

Green Arrow Transfer began processing municipal solid waste in 2003. The 17th Street address listed in the database is in the middle of a residential neighborhood (0.1 mile to the east of the project corridor). A complaint filed against Green Arrow in 2004 references an address of 3812 Oates Road, an industrial area in the eastern part of Houston. It is likely that 17th Street is a mailing address and not the physical location of the facility; that, as well as the distance from the project corridor makes it unlikely that this site will impact project work.

The Egbert Transfer Station is approximately 0.2 mile west across White Oak Bayou from the closest point of the project corridor. Based on distance, project work is not expected to be impacted by this site.

Closed and Abandoned Landfills (CLI)
This database includes closed and abandoned landfills (permitted as well as unauthorized). There are two listings in the vicinity of the project corridor:

- Seay Site, 7200 Randol Mill Road
- 2200 Patterson

Based on the map provided by EDR, the Seay site is actually located at West 34th Street and Randall Street, approximately 0.3 mile north of the project area across IH 610. The site opened in 1974 and received a closure memo from the Texas Department of Health in 1977. Due to its distance and closed status, project work is not expected to be impacted by this site.

The site at 2200 Patterson is approximately 0.3 mile south of the southern end of the project area. This landfill collected household waste and was closed in 1992.[14] The site has been redeveloped with office space (see Figure 15). Based on status and distance, project work is not expected to be impacted by this site.

[14] Houston-Galveston Area Council Closed Landfill Inventory, http://arcgis02.h-gac.com/Reference/CLI/Reports/U234.pdf.

Figure 15 2200 Patterson

Leaking Petroleum Storage Tanks (LPST)

This database contains information from TCEQ on leaking storage tanks, equipment failures, compliance, and releases in the state. There are 19 LPST sites within 500 feet of the project corridor (see Table 4 and Figures 16 through 19).

LPST Sites				
MAP #	**SITE**	**DISTANCE FROM PROJECT CORRIDOR**	**ID NUMBER**	**STATUS**
1	Shell Texaco 801 North Loop	174.46 feet	LPST 117756 LPST 98541	

There are three active 10,000-gallon double-walled non-corrodible underground storage tanks for gasoline at the site.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out (the Shell site in 2010, the Texaco site in 2004). TCEQ determined during remediation work in 2010 that concentrations of contaminants in soil and groundwater at the site are protective of construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

Plugged wells were visible at the site.

An Agreed Order with financial penalties was issued to TPG 215 05 in 2013 by TCEQ for a failure to verify the proper operation of Stage II equipment, vapor space manifolding, and dynamic back pressure. No new releases have been documented since the site closure.

2 Fiesta Mart 63.82 feet LPST 109139

2807 North
Shepherd Drive

One 4,000-gallon and two 8,000-gallon gasoline tanks were installed in 1972 and removed in 1995. Remediation activities took place from 1995 to 2007.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out when the site's wells were plugged in 2009. TCEQ determined that concentrations of contaminants are protective of construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

3	North Shepherd Phillips 66 2802 North Shepherd Drive	Adjacent	LPST 091026

All tanks have been removed from this site:

- 12,000-gallon gasoline tank installed in 1987 and removed in 2003
- Two 10,000-gallon gasoline tanks installed in 1987 and removed in 2003
- Two 6,000-gallon gasoline tanks installed in 1977 and removed in 1987
- 5,000-gallon gasoline tank installed in 1962 and removed in 1987
- 3,000-gallon gasoline tank installed in 1962 and removed in 1987
- 550-gallon used oil tank installed in 1987 and removed in 1996

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2001. TCEQ determined that the soil and groundwater pathways were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

The site is now a strip mall with a fast food restaurant and commercial/retail businesses.

4	Old Service Station 2707 North Shepherd Drive	Adjacent	LPST 106628

Three tanks of unknown size and contents were Installed 1987 and removed 1993. Soil was over-excavated at the site. Groundwater was impacted but there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 1996 (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

The site is now a Sunrise Dental office.

5	McQuillan Surveying 2018 North Shepherd Drive	61.30 feet	LPST 111825

Several tanks were permanently filled in place at this site. They were all installed in 1987 and filled in 1996. Contents are unknown, but there were two 5,000-gallon tanks, one 4,000-gallon tank, and one 560-gallon tank.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2005. TCEQ determined that the soil and groundwater pathways were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

The remnants of an old monitoring well were present near the corner of the building (see below). The site is currently vacant and for lease.

6	Abel Motors 2002 North Shepherd Drive	65.78 feet	LPST 119947

Ghost tanks were reported at this site in December 2015. The assessment is incomplete, but no apparent receptors have been impacted. Soil is contaminated with benzene, ethylbenzene, total xylenes, and MTBE. The site is still active in the LPST remediation program and is considered a Recognized Environmental Condition.

At the time of the field visit, the site was undergoing demolition and new construction. Some standing water was noted in puddles due to the uneven surface at the site related to construction work. Utilities and a possible monitoring well casing were also evident not flush with the ground surface due to digging related to construction (see below.)

7	Win Auto Sale 1815 North Durham Drive	61.09 feet	LPST 114439

Several tanks with unknown contents have been closed out at this site:

- Two 10,000-gallon tanks installed in 1970 and removed in 2016
- One 8,000-gallon tank installed in 1981 and removed in 2016
- One 8,000-gallon tank installed in 1980 and filled in place in 2016
- One 6,000-gallon tank installed in 1980 and removed in 2016

There was also one 1,000-gallon tank for used oil installed in 1976 and removed in 1999.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2008. TCEQ determined that the soil and groundwater pathways were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition.

At the time of the field visit, the business was closed and the building was undergoing demolition. The parking lot has been dug up and is currently dirt. Standing water was noted in a ditch on site (see below).

8	Houston Alternator 1835 North Shepherd Drive	74.04 feet	LPST 119652

Two 6,000-gallon tanks with unknown substances were installed in 1977 and permanently filled in place 1978.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in June 2017. TCEQ determined that conditions were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now a strip mall with restaurants. The remains of a plugged monitoring well were observed.

9	Former Guerrero Car Wash 1603 North Durham Drive	Adjacent	LPST 120006	

TCEQ's Central Registry lists four tanks of unknown contents at the site as being both installed and removed in 2016 (one 6,000-gallon, two 4,000-gallon, and one 500-gallon).

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2016 and monitoring wells have been plugged. TCEQ determined that conditions were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now Balls Out Burgers.

10	Former Used Car Lot 1604 North Shepherd Drive	Adjacent	LPST 119056

Groundwater was impacted by releases at the site (gasoline) from 1960s era ghost tanks; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2013 (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now Eagle Hand Wash and Car Detail.

11	FV 1433 North Shepherd Drive	Adjacent	LPST 100344

A 4,000-gallon tank for gasoline was installed at the site in 1981 and removed 1986.

Only soil was contaminated at the site. Soil was excavated, tested, and approved to be returned to the tank cavity as backfill by TCEQ. Final concurrence was issued and the remediation actions were closed out in 1992 (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now the Heights Bier Garten.

12	Former Tommie Vaughn Motors Ford 1145 North Shepherd Drive	240.12 feet	LPST 95686

Two 2,000-gallon steel tanks (one for gasoline and one for used oil) were installed at the site in 1959 and removed in 1990.

The vertical extent of contamination was defined, and it was determined that groundwater was not impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2003. TCEQ determined that concentrations of contaminants were below Plan A Category I target levels (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is still a Ford dealership.

13	Valero Corner Store 2474 1421 West 11th Street	204.81 feet	LPST 118887

Three 10,000-gallon tanks were installed at the site in 1978 and removed in 2012. They are listed as “empty.”

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2013. TCEQ determined that conditions were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now Title Max.

14	Shepherd ET 1049 North Shepherd Drive	Adjacent	LPST 107211 LPST 112625

Several tanks that were once present at the site have been removed:

- One 10,000-gallon tank for gasoline Installed in 1999 and removed in 2008
- One 6,000-gallon tank for gasoline installed in 1999 and removed in 2008
- Two 4,000-gallon tanks for gasoline installed in 1987 and removed in 1999
- One 560-gallon tank for diesel installed in 1999 and removed in 2006

Only soil contamination is present at this site. There was formerly a vapor impact at the site associated with the presence of non-aqueous phase liquids (NAPL) in close proximity to sub-surface utilities or other natural or man-made conduit, creating the potential for accumulation of explosive vapors or vapors that could cause acute effects in a building of other structure. This issue has been resolved.

Final concurrence was issued and all remediation actions were closed out in 1993 and 2005. TCEQ determined that conditions were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

The site is now a Kroger gas station.

15	Exxon RS 67233 1048 North Shepherd Drive	Adjacent	LPST 108256

Three 10,000-gallon tanks for gasoline and one 1,000-gallon tank for used oil were installed at the site in 1984 and removed in 2001.

The vertical extent of contamination was defined; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 1996. Monitoring wells were plugged on the site in 2004 (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

This site is now a Mattress Firm Super Center.

16	Tommie Vaughn Motors Ford 914 North Shepherd Drive	Adjacent	LPST 114431

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2003. TCEQ determined that conditions were protective for construction workers (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

Registration is still active for a 2,000-gallon tank for gasoline that was installed in 1979 and removed from the ground in 1999.

17	Dons Texaco Inc. 2015 Shepherd Drive	319.26 feet	LPST 115032

There are inactive registrations for four tanks installed in 1987 and removed in 2001: two 10,000-gallon tanks and one 4,000-gallon tank for gasoline and one 500-gallon tank for used oil.

Groundwater was impacted by releases at the site; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 2011. TCEQ determined that maximum soil concentrations do not exceed health-based target levels and groundwater concentrations do not exceed construction worker target levels (see Appendix C). Therefore, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

Excavation in this area is expected to be five feet or less.

The site has been redeveloped with a Cane's restaurant.

18	Johnstone Supply Warehouse 2120 Shepherd Drive	163.31 feet	LPST 119249

This site was also in the Corrective Action Program as ABC Auto Parts. Remediation actions in this program were closed out in 2013 (TCEQ Central Files was unable to find any documentation on this site). The site is also listed as VCP 2552, the 2120 Shepherd Site.

The LPST site moved into the VCP for closure (see Appendix C). It is discussed in that section of this document.

The site is still occupied by Johnstone, but all the current structures were built in 2014.

Excavation in this area is expected to be five feet or less.

19	RAS 6 3889 4710 Katy Freeway	415.24 feet	LPST 93326

Several tanks were instated in 1969 and removed in 1991 at the site:

- Two 8,000-gallon tanks for gas
- One 6,000-gallon tank for gas
- One 550-gallon tank for used oil

Groundwater was impacted at the site, but off-site migration was determined to be unlikely. Final concurrence was issued and the site was closed out in 1992. TCEQ Central Files was unable to find any documentation on this site, but their online tracking indicates that monitoring took place at the site prior to its closure in 1992. Due to evidence of monitoring prior to closure, the amount of time since site closure, and the site's current use as office space, project work is not anticipated to be impacted by this site and it is considered a Historic Recognized Environmental Condition.

Excavation in this area is expected to be five feet or less.

The site was redeveloped in 2012 and is now the Texas Orthopedic and Spinal Institute.

Table 4 (EDR Report, December 18, 2017)

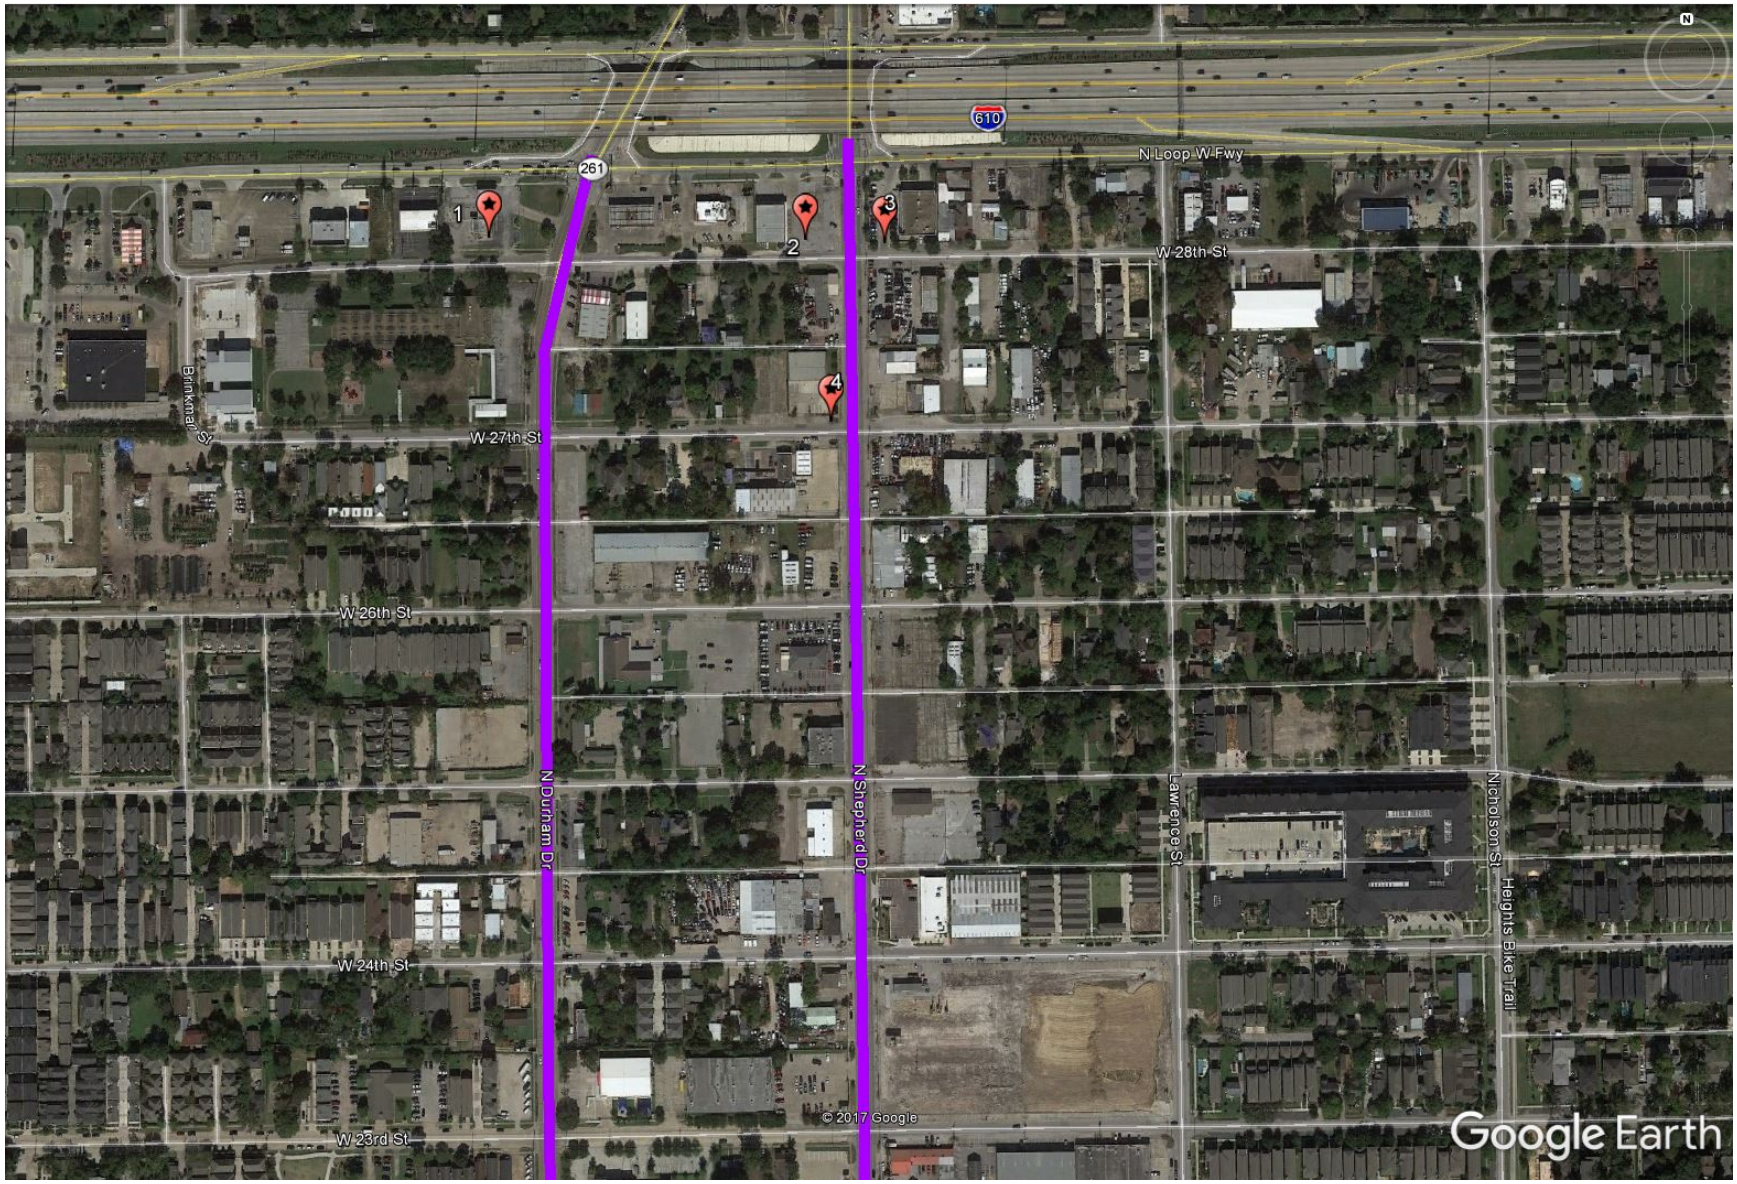

Figure 16 LPST Sites #1-4

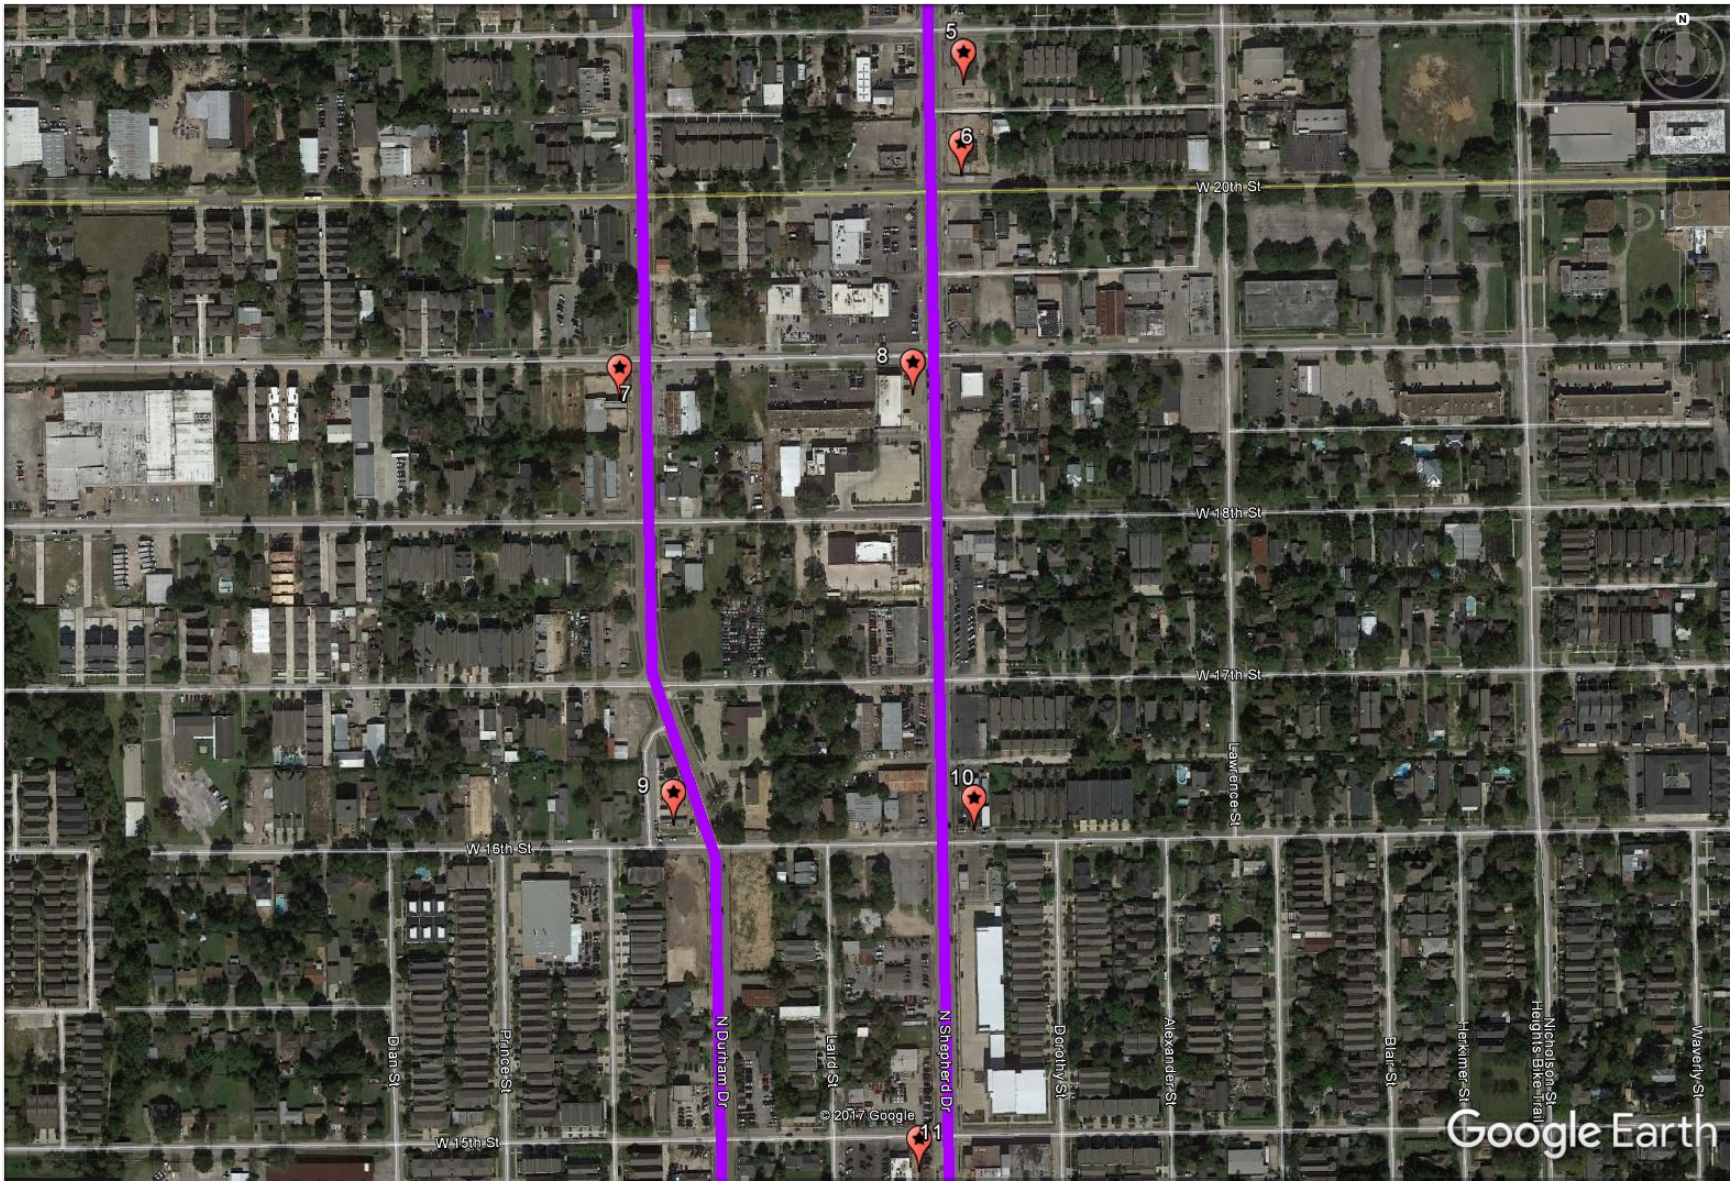

Figure 17 LPST Sites #5-11

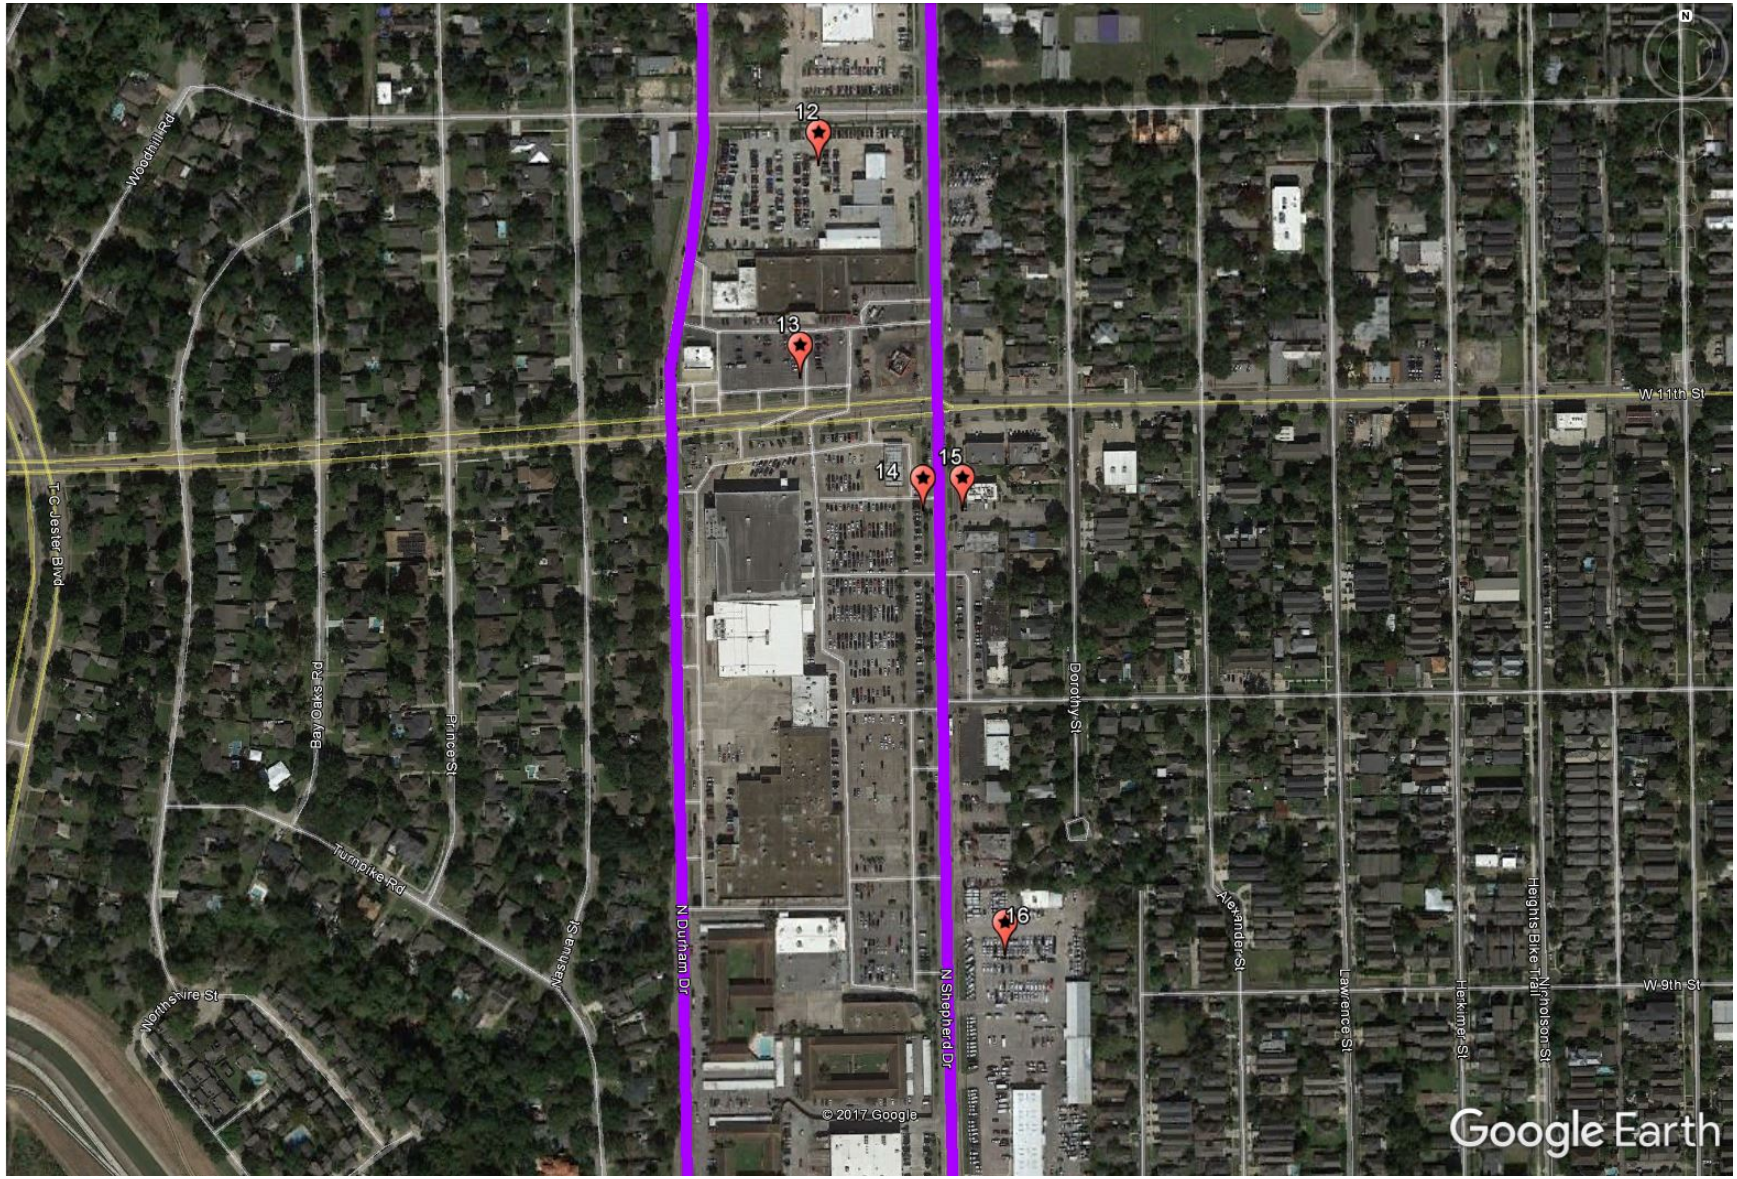

Figure 18 LPST Sites #12-16

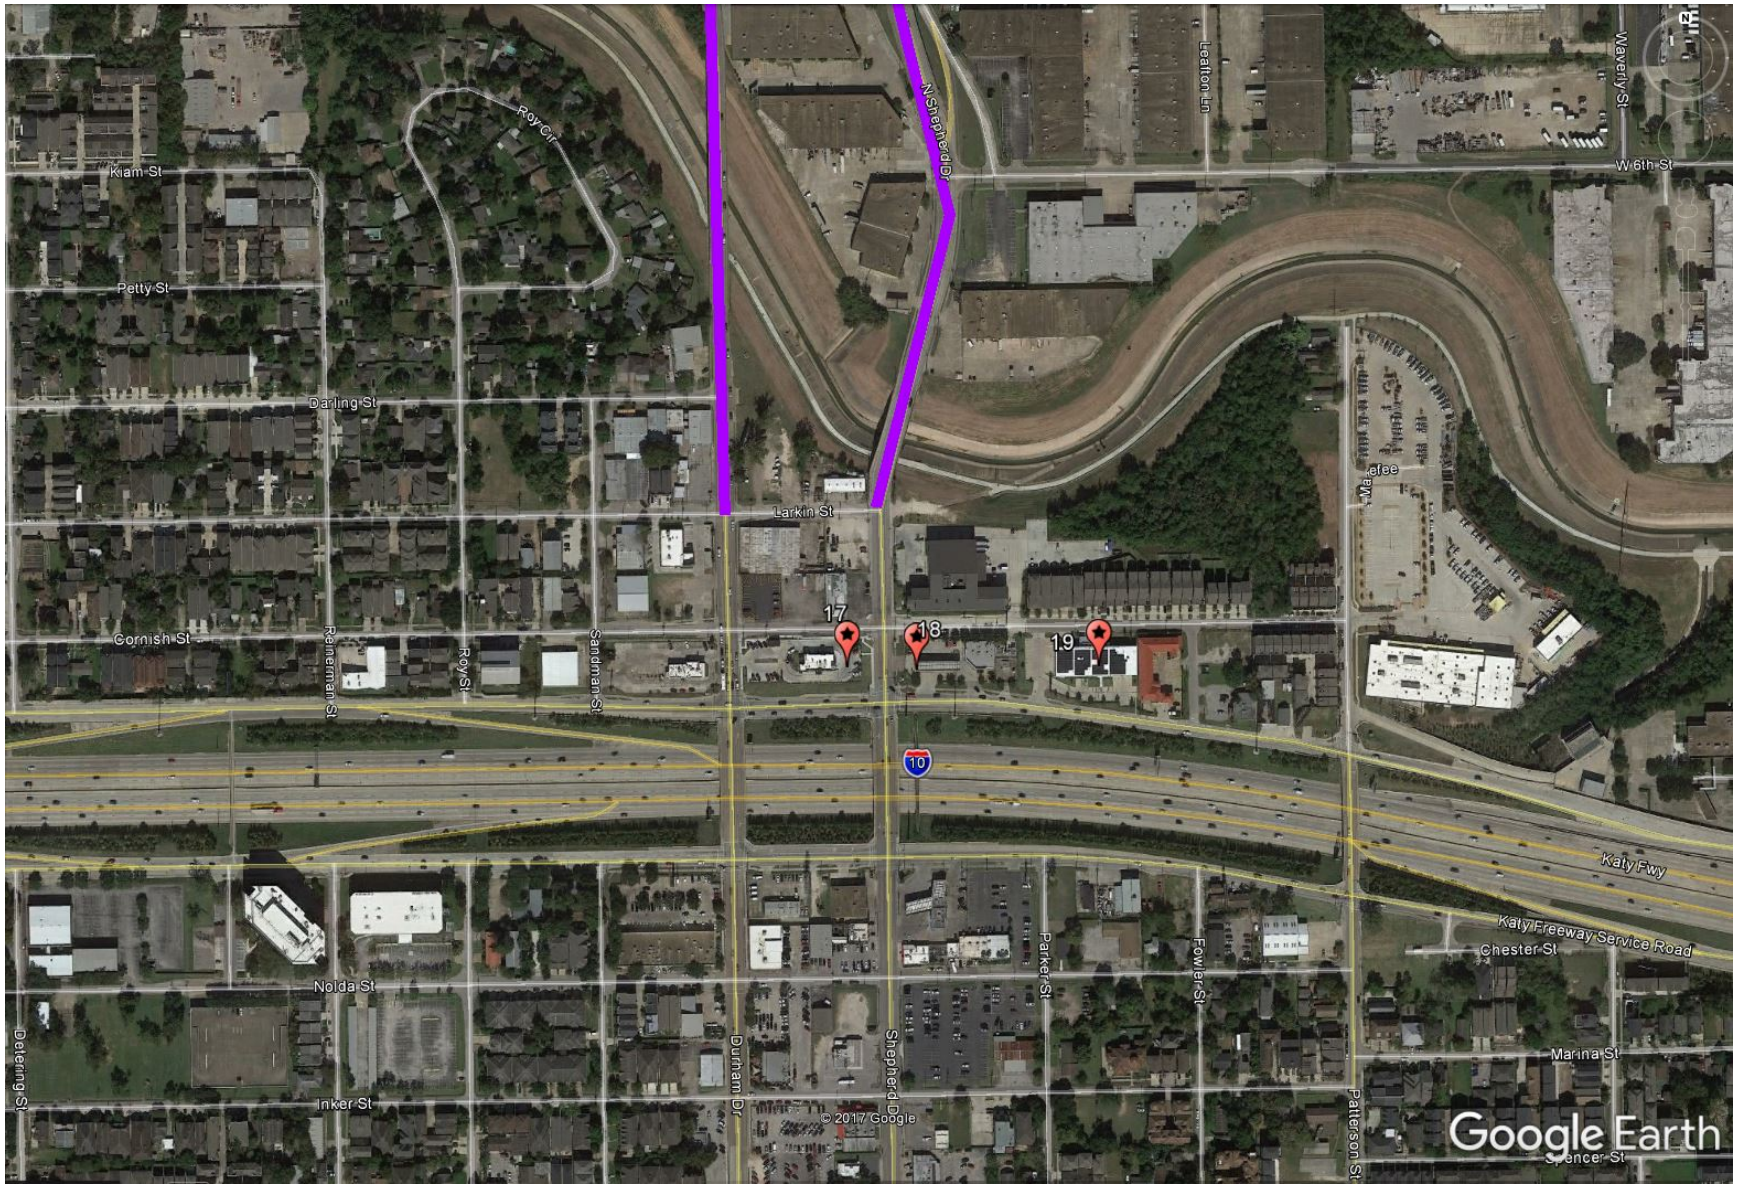

Figure 19 LPST Sites #17-19

Underground Storage Tanks (UST)
This database contains information on underground storage tanks (USTs) in the state. There are 54 USTs registered within 0.25 mile of the project corridor. This database is for tracking purposes; sites with known releases are identified in other databases and discussed in those sections of this report.

Aboveground Storage Tanks (AST)
This database contains information on aboveground storage tanks (ASTs) in the state. There are 4 ASTs registered within 0.25 mile of the project corridor. This database is for tracking purposes; sites with known releases are identified in other databases and discussed in those sections of this report.

Sites with Controls/Activity and Use Limitations (AUL)
This database includes Voluntary Cleanup Program (VCP) or Innocent Owner/Operator Program (IOP) sites that have been remediated and have had institutional or engineering controls placed on them. ICs are administrative restrictions, such as legal controls, that help minimize the potential for human exposure to known contamination by ensuring appropriate land or resource use. ECs are physical methods or modifications put into place on a site to reduce or eliminate the possibility of human exposure to known contamination.

There is one site in the vicinity of the project area listed as an AUL: 2120 North Shepherd Drive (VCP 2552), adjacent to the project area. This site has an administrative control in the form of a Certificate of Completion, but no contamination was left in place at the site; it was remediated to residential standards and has no restrictions or continued monitoring. The site is discussed in more detail in that section of this report.

Voluntary Cleanup Program (VCP)
TCEQ and the Railroad Commission both maintain Voluntary Cleanup Programs. TCEQ's database contains sites from both the VCP and IOP. The VCP records contain information on contaminated sites that private parties have cleaned up through assistance from the state in the form of administrative, technical, and legal incentives. The IOP records are sites that have received certificates from the state acknowledging that their property is contaminated as a result of a release or migration of contaminants from a source or sources not located on the property, and they did not cause or contribute to the source or sources of contamination. Note that a property owner is not required to do any remediation of contamination in order to receive an IOC; remediation work is done by the responsible party and may be ongoing even after a certificate is issued.

The Railroad Commission's Voluntary Cleanup Program provides an incentive to remediate oil- and gas-related pollution by participants that did not cause or contribute to the contamination.

There is one VCP site within 500 feet of the project corridor: the 2120 Shepherd Site (VCP 2552).[15] Soil and groundwater were contaminated with volatile organic compounds (VOCs), heavy metals, pesticides, and total petroleum hydrocarbons (TPH). The site received a Certificate of Completion under residential land use standards in 2016 and is protective for construction workers. Excavation for project work in this area is expected to be less than five feet; therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition. The site was redeveloped with

[15] Please note that the EDR has incorrectly mapped this site at 2120 North Shepherd rather than 2120 Shepherd. TCEQ records confirm that LPST 119249 (Johnstone Supply Warehouse) moved into the VCP and pursued closure as VCP 2552 (2120 Shepherd Site).

new (2014) construction for Johnstone (a photo of the building at the time of the field visit is available in the LPST section of this report).

Dry Cleaner Registration Database

Five dry cleaner sites were identified within 500 feet of the project corridor, detailed in Table 5 below. TCEQ's Central Registry was consulted for the most up-to-date information on each site.

Dry Cleaner Sites

SITE	DISTANCE FROM PROJECT CORRIDOR	IDENTIFICATION NUMBER	STATUS
Claytons Cleaners 730 West 19th Street	217.49 feet	DCR 10437	This site had a facility registration in 2003 and a drop station registration in 2005. Both registrations are listed as inactive in TCEQ's Central Registry. The site also had an IHW registration as a generator of non-industrial waste. This registration is inactive in TCEQ's Central Registry. No violations were identified in the EDR report.
Texas Dry Clean 722 West 19th Street	215.60 feet	DCR 15499	This site has been registered as a drop station since 2012; it serves as a location for items to be dropped off, but no actual dry cleaning or chemical use takes place at the site.
Dry Clean Super Center 1223 West 11th Street	93.27 feet	DCR 11109 IHW 86082 EPA ID TXR000031351	This site has been registered as a dry cleaning facility since 2003. The IHW registration is for a storage container for perc sludge generated during dry cleaning operations and filters that are recycled off-site. No violations are listed in TCEQ's Central Registry or EPA's RCRAInfo database.
Merchant Park Nail & Tan 918 North Durham Drive	Adjacent	DCR 12166	This site was registered as a drop station in 2003. No violations were identified.
Fashion Touch 946 North Shepherd Drive	92.68 feet	DCR10284 IHW 85350 EPA ID TXR000024679	This site was registered as a dry cleaning facility in 2003. The IHW registration for the site was associated with Joey's Engines and the cleaning of automobile engines with a heated water-based material.

	This registration is inactive. The EPA ID is also inactive. No violations were identified.

Table 5 (EDR Report, December 18, 2017.)

No violations were identified in the EDR report or TCEQ or EPA databases; therefore, none of the dry cleaner sites are expected to be impacted by project work.

Notice of Violations Listing (ENF)
This database includes sites with administrative orders issued to municipal solid waste, petroleum storage tank, and multi-media sites. There are eight sites listed in the vicinity of the project area.

Sites with air permitting violations are not expected to impact project work. One site, Mobil Oil Corp, has a violation in relation to waste permitting. This site is discussed in detail in the LPST section of this report as the Phillips 66 site at 2802 North Shepherd.

ENF Sites

SITE	DISTANCE FROM PROJECT CORRIDOR	ID NUMBER	STATUS
Mobil Oil Corp 12-LR3 2802 North Shepherd	Adjacent	RN100648211	The site received a written violation (moderate) in relation to waste for failure to comply in 2001. The status of the action is resolved. The site is also discussed in detail in LPST section. The site has been redeveloped as a strip mall with a fast food restaurant and commercial/retail businesses.
Goodyear Motors 2716 North Shepherd Drive	Adjacent	RN102543089	The site received a written violation (moderate) in relation to air for failure to comply in 2002. The status of the action is active.
Gilmore Auto Sales 2221 North Durham Drive	Adjacent	RN100858455	The site received a verbal violation (moderate) in relation to air for failure to comply in 1999. The status of the action is active.
Orlando Motor Company 2203 North Shepherd Drive	Adjacent	RN100899707	The site received a written violation (moderate) in relation to air for failure to comply in 2001. The status of the action is active.
Clark Motors II 2200 North Shepherd Drive	Adjacent	RN102596467	The site received a written violation (moderate) in relation to air for failure to comply in 2001. The status of the action is active.

Carriage House Motors 1718 North Shepherd Drive	Adjacent	RN100898519	The site received a written violation (minor) in relation to air for failure to comply in 2001. The status of the action is active.
Milton Orellana Motors 1507 North Durham Drive	Adjacent	RN100864842	The site received a verbal violation (moderate) in relation to air for failure to comply in 1999. The status of the action is active.
Continental Auto Sales 1501 West 15th Street	Adjacent	RN102543519	The site received a verbal violation (moderate) in relation to air for failure to comply in 1999. The status of the action is active.

Table 6 (EDR Report, December 18, 2017.)

Industrial Hazardous Waste (IHW)
This is a database reported to TCEQ tracking waste handlers, generators, and shippers in Texas. There are 39 sites within 0.25 mile of the project area. This database is for tracking purposes; sites with known releases are identified in other databases and discussed in those sections of this report.

Current Emissions Inventory Data (AIRS)
The database lists by company, along with their actual emissions, the TCEQ air accounts that emit EPA criteria pollutants. Project work is not expected to impact or be impacted by the emissions at these sites.

Municipal Settings Designations (MSD)
An MSD is an official state designation given to a property within a municipality or its extraterritorial jurisdiction certifying that groundwater at the property is not used as potable water and is prohibited from future use as potable water because it is contaminated in excess of the applicable protective concentration levels. The prohibition must be in the form of a city ordinance or a restrictive covenant that is enforceable by the city and filed in the property records. Three MSDs have been designated within 0.5 mile of the project area (see figures below).

An MSD was issued in 2014 for the Block 39 site at 502 West 25th Street (see Figure 20). The delineated boundaries of the MSD are Lawrence Street, West 25th Street, Nicholson Street, and West 24th Street (one block/more than 500 feet from North Shepherd Drive). The top of the affected groundwater bearing unit is 14 feet below ground surface.[16] The site was closed through the Voluntary Cleanup Program in July 2017. Excavation for utility work in this area is expected to be from five to a maximum of 12 feet. Due to the distance to the delineated boundaries of the MSD and the site's closed status, project work is not expected to impact this site.

An MSD was issued in 2017 for the National Flame and Forge site at 349 West 24th Street. The delineated boundaries of the MSD are Ashland Street, West 25th Street, Rutland Street, and West 24th Street (three blocks/over 2,000 feet from North Shepherd Drive). Excavation for utility work in this area is expected to be from five to a maximum of 12 feet. The top of the affected groundwater bearing unit is 28 feet below ground surface. Based on the distance to the MSD boundaries and expected depth of excavation, project work is not expected to be impacted by this site.

[16] Information on MSDs in this section was taken from the TCEQ's database (https://www.tceq.texas.gov/remediation/msd.html), City of Houston's MSD website (https://www.publicworks.houstontx.gov/pds/municipal-settings-designation.html), and City of Houston Public Works GIMS Application Portal (http://www.gims.houstontx.gov/PortalWS/MainPortal.aspx).

An MSD was issued for Central Industrial Park at 600-720 West 6th Street in 2015 (see Figure 21). The delineated boundaries of the MSD are between West 6th Street and White Oak Bayou, from just west of Waverly to where West 6th dead ends (over 1,000 feet from North Shepherd Drive). The top of the affected groundwater bearing unit is at 20 feet below surface. The site was deemed to need no further action from TCEQ's Corrective Action Program in 2015. Excavation for utility work in this area is expected to be from five to a maximum of 12 feet. Due to the distance to the delineated boundaries of the MSD, expected depth of excavation, and the site's closed status, project work is not expected to impact this site.

Figure 20 MSDs, Block 39 and National Flame and Forge (http://www.gims.houstontx.gov/PortalWS/MainPortal.aspx, accessed January 2, 2018.)

There is an additional MSD with an ordinance approved by the City of Houston that has not been approved by TCEQ. The western boundary of the MSD is Shepherd Drive. According to the MSD application (see Appendix D), surface soils were impacted by arsenic, barium, cadmium, lead, mercury and silver, and shallow groundwater is impacted by antimony, arsenic, barium, cadmium, chromium, and lead.

Concentrations of metals in surface soil did not exceed TCEQ's direct exposure Total Soil Combined Protective Concentration Limits (PCL) at any sampling locations. The highest concentrations of contaminants in groundwater have been identified in monitoring wells mid-site (500 or more feet from Shepherd Drive); this is the presumed source area. The dominant direction of groundwater flow is away from the project area.

Excavation for utility work in this area is expected to be less than five feet. This MSD is considered a Recognized Environmental Condition but is not anticipated to be impacted by project work. Photos of conditions in the area of the MSD boundaries are provided in Figures 22 and 23.

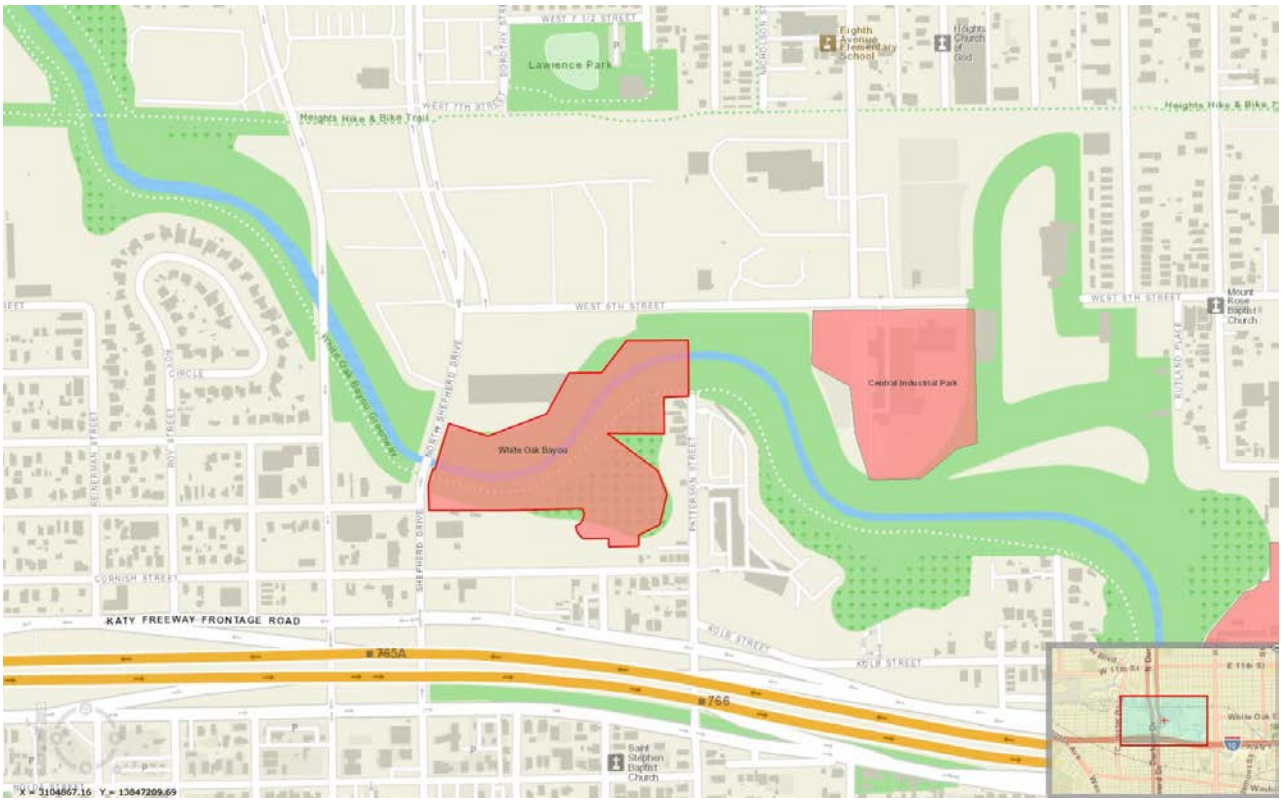

Figure 21 MSDs, Central Industrial Park and White Oak Bayou (http://www.gims.houstontx.gov/PortalWS/MainPortal.aspx, accessed January 2, 2018.)

Figure 22 White Oak Bayou at Larkin looking north

Figure 23 White Oak Bayou at West 6th looking south

Tier 2 Chemical Inventory Reports
This database is a listing of facilities which store or manufacture hazardous materials and submit a chemical inventory report. There are two sites in the vicinity of the project area. This database is for tracking purposes; sites with known releases are identified in other databases and discussed in those sections of this report.

Asbestos Notification Listing
This is a listing of asbestos notification site locations. Because the project will not involve the demolition of any structures, project work is not expected to impact or be impacted by these sites.

Affected Property Assessment Report Site Listing
This is a listing of sites that have submitted an Affected Property Assessment Report (APAR) regarding contamination to TCEQ. There is one site in the vicinity of the project area: Central Industrial Park at 600-720 West 6th Street. As discussed in the previous MSD section, this site has an MSD covering eight acres and the top of the affected groundwater bearing unit is at 20 feet below surface. The site was closed in 2015.

The site is approximately 0.4 mile east of the project corridor. Due to distance, site closure, and depth to groundwater, project work is not expected to be impacted by this site.

Industrial Hazardous Waste Corrective Action Sites (IHWCA)
These sites are the state's listing of registered hazardous waste generators or handlers that have conducted or are currently conducting corrective action/remediation activities. There is one IHWCA site within 500 feet of the project corridor: ABC Auto Parts at 2120 Shepherd Drive (IHWCA T3083). This site is also listed as Johnstone Supply Warehouse (LPST 119249) and the 2120 Shepherd Site (VCP 2552) and is discussed in those sections of this report.

A Response Action Completion Report was submitted and approved by TCEQ in 2013 and the IHWCA file was closed. TCEQ Central Registry was unable to locate any documentation on this site. Because it was given a "T" designation (rather than a standard CA program ID) and the only document submitted to close out the site was a Response Action Completion Report, it is likely that the IHWCA incident at the site was a single event separate from larger VCP actions and/or contamination was immediately remediated or below protective concentration limits. IHWCA T3083 was closed in 2013. The VCP site at this location was closed in 2017 and it is assumed that all contamination at this location was addressed prior to issuing the Certificate of Completion. Excavation in the area for project work is expected to be less than five feet. Therefore, project work is not anticipated to be impacted by this site and it is considered a Historical Recognized Environmental Condition. The site was redeveloped with new (2014) construction for Johnstone.

Groundwater Contamination Cases (GCC)
Texas Water Code, Section 26.406 requires an annual report to describe the status of groundwater monitoring activities conducted or required by each agency at regulated facilities or associated with regulated activities. The report is required to contain a description of each case of groundwater contamination documented during the previous calendar year. Also to be included is a description of each case of contamination documented during previous periods for which voluntary clean up action was incomplete at the time the preceding report was issued. The report is required to indicate the status of enforcement action for each listed case.

Any sites with known groundwater contamination that are within 500 feet of the project corridor are discussed in the appropriate sections of this report (LPST, IHWCA, etc.).

HISTORICAL RECORDS REVIEW

Fire Insurance Maps

Certified Sanborn Maps were obtained through EDR for the years 1925, 1955, and 1969 (see Appendix E). Due to the size of the project corridor, only properties adjacent to the corridor roadways were reviewed. A summary of map findings is provided in Table 7 below. Sites considered potentially "high risk" (dry cleaners, gas stations, industrial uses, etc.) are noted in bold italic print and their current uses are provided. These high-risk sites are outlined in red on the Sanborn maps in Appendix E. Maps below indicate the locations of high risk sites in the project corridor.

Fire Insurance Maps

LOCATION	PAST USES	CURRENT USES[17]
1969 **North Shepherd Drive**		
Map Sheet 755		
Between IH 610 and West 28th Avenue	***Filling station (1)*** Parking	Filling station is now strip mall development (insurance sales, Wing Stop, Sprint store)
Between West 28th Avenue and unnamed street/alley	Restaurant Parking ***Auto repair (2)*** Illegible labels	Auto repair shop is still used for auto repair
Between unnamed street/alley and West 27th Avenue	Store ***Tire sales and service (3)***	Tire sales and service shop is now a vacant property
Between West 27th Avenue and unnamed street/alley	***Tire yard and storage (4)*** Store Illegible labels	Tire yard and storage area is now used for auto sales
Between unnamed street/alley and West 26th Avenue	Store Parking Box piles	
Map Sheet 733		
Between West 26th Avenue and unnamed street/alley	Nursery Office Storage	

[17] Current uses for historic file review determined by on-line survey of Google Earth's most currently available aerial and street view data. Sites were double checked in the field as time allowed.

	Dwelling	
Between unnamed street/alley and West 25th Avenue	Store ***Auto sales (5)*** Illegible labels	Auto sales site is now vacant property
Between West 25th Avenue and unnamed street/alley	***Auto laundry (6)*** Dwelling Illegible labels	The auto laundry was used for auto sales but is now closed
Between unnamed street/alley and West 24th Avenue	Piano sales ***Paint spraying (7)*** Other stores Restaurant Parking Garage	The paint spray site has been redeveloped with new commercial/retail strip-style development but is not yet open
Between West 24th Avenue and West 23rd Avenue	Department store Parking	
Between West 23rd Avenue and West 22nd Avenue	Parking garage ***Auto sales (8)*** Office Illegible labels	Auto sales site is still used for auto sales/service
Between West 22nd Avenue and unnamed street/alley	Store Parking Illegible labels	
Between unnamed street/alley and West 21st Avenue	Trailer renting File storage?	
Between West 21st Street and unnamed street/alley	***Filling station (9)*** Illegible labels	Filling station was used for auto sales but is now closed
Between unnamed street/alley and West 20th Avenue	Store Storage yard ***Auto sales (10)*** Hydrant	Site of auto sales is now a vacant lot
Map Sheet 729		
Between West 20th Avenue and unnamed street/alley	***Auto wash (11)***	Auto wash is still used as a car wash
Between unnamed street/alley and West 19th Avenue	Parking	
Between West 19th Avenue and unnamed street/alley	Parking	
Between unnamed street/alley and West 18th Avenue	Dwellings	
Between West 18th Avenue and unnamed street/alley	Office Dwelling Garage ***Auto sales (12) – large lot crosses over alley for full block***	Auto sales site still used for auto sales

Between unnamed street/alley and West 17th Avenue	***Auto sales (12) – large lot crosses over alley for full block***	Auto sales site still used for auto sales
Between West 17th Avenue and unnamed street/alley	No information	
Between unnamed street/alley and West 16th Avenue	Office Hydrant Illegible label	
Between West 16th Avenue and West 15th Avenue	Dwellings with garages (some labeled as asbestos-clad) Parking	
Between West 15th Avenue and end of Map Sheet 729	***Poultry processing (13)*** Dwellings with garages Parking and storage Office Painting or printing? (illegible label)	Poultry processing facility is now La Espiga de Oro tortilla factory and commercial building
Map Sheet 726		
Between top of Map Sheet 726 and West 14th Avenue	Dwellings with garages Furniture store Illegible labels	
Between West 14th Avenue and West 13th Avenue	Parking Dwellings with garages Furniture store Other stores Illegible labels	
Between West 13th Avenue and West 12th Avenue	William Graston Love Elementary School (with parking and ball fields) Love Park Recreation Building Hydrant	
Between West 12th Avenue and West 11th Avenue	Dwellings with garages Office Parking ***Filling station (14)***	Filling station site is now a dry cleaner
Map Sheet 723		
Between West 11th Avenue and West 10th Avenue	***Filling station (15)*** Parking Store Dwellings with garages Illegible labels	Filling station site is now a Mattress Firm store
Between West 10th Avenue and end of Map Sheet 723	***Tire sales and auto services (18)*** Parking ***Auto sales and services (19)*** Dwellings with garages Fence Bakery	Tire sales and auto services site is now a laundromat Auto sales and services site is still used for auto sales

	Fidelity Warehouse Demolition sales	
Map Sheet 718		
Between top of map sheet 718 and West 7th Avenue	Fidelity Warehouse Fence	
Between West 7th Avenue and West 6th Avenue	Shepherd Gardens Apartments with parking and laundry (all buildings asbestos-clad) Hydrant	
Between West 6th Avenue and Larkin Avenue	Store Parking Maintenance building Hydrant White Oak Bayou	
Between Larkin Avenue and Cornish Street	***Auto wrecking (21)*** ***Auto parts warehouse and repair***	Site is now Johnstone Warehouse Supply

1969
North Durham Drive

Map Sheet 752

Between MKT Railroad tracks and White Oak Bayou	Durham is a concrete viaduct – no roadway present	
Between White Oak Bayou and Darling Avenue	Durham is a concrete viaduct – no roadway present Dwellings with garages	
Between Darling Avenue and Larkin Avenue	***Oil company and filling station (22)*** ***Auto wrecking (24)*** Dwellings	Oil company and filling station site is now Yuppie Dog (grooming, boarding, day care) Auto wrecking site is now a vacant grassy area
Between Larkin Avenue and Cornish Avenue	Dwelling Parking ***Used auto and parts sales and junk yard (23)*** Upholstery	Site is now used for U-Haul parking, auto repair, and as a parking lot

1955
North Shepherd Drive

Merchants Park Shopping Center (Shepherd and 11th)	Department store Clothing stores Restaurants Hardware and garden supply stores	Texaco station is now a Kroger gas station Newman Cleaners site is now part of a big box development (most likely

	Furniture store Supermarket ***Smith Brothers Texaco Service Station (16)*** ***Newman Cleaners (dry cleaning solvent tank labeled) (17)*** Parking Residential buildings	the current location of Kroger grocery store)

1925
Lowell (now Shepherd)

Map Sheet 729

Between West 20th Avenue and West 15th Avenue	All structures on Lowell appear to be dwellings (some labels are illegible)	

Map Sheet 718

Between West 7th Avenue and West 6th Avenue	***Swift & Co. Refinery (oil and sulfuric acid storage tanks, earth reservoir) (20)***	Site is now vacant and for sale. Site is identified here but is not adjacent to the corridor. It is over 1,000 feet east of Shephard.
Between West 6th Avenue and Larkin	White Oak Bayou

City Directory Report

City Directories were available for the general area for the years 1908 to 2014; data for the project corridors were available for various years from 1931 to 2014. The table below describes sites that were identified that are likely to have handled, stored, or disposed of hazardous materials (dry cleaners, gas stations/mechanics, print shops, and photo developers). It also provides the current use of the sites. Maps below indicate the locations of high risk sites in the project corridor.[18] Because City Directories are copyright protected, copies are not included as an appendix to this report.

City Directory Report		
LOCATION	**BUSINESS**	**CURRENT USE[19]**
2014 **North Durham Drive**		
1504 North Durham Drive (19)	3 20 Auto Sales & Finance	Still used for auto sales
1603 North Durham Drive (11)	Guero Deluxe Car Wash	Balls Out Burgers
1701 North Durham Drive (4)	Russ Automotive	Still Russ Automotive (auto service)
2014 **North Shepherd Drive**		
1433 North Shepherd Drive (24)	Longhorn Motor Company	Heights Bier Garten
1511 North Shepherd Drive (21)	Zelaya Auto Sales	Still Zelaya Auto Sales
1544 North Shepherd Drive	National Convenience Stores Inc.	Convenience store with Valero gas station
1601 North Shepherd Drive (12)	Jag Motors Lee Service Center	Still Lee Service Center (auto repair)
1607 North Shepherd Drive (9)	Auto Expertees	Still Auto Expertees (mechanic)
1718 North Shepherd Drive (3)	Top Motors	Cars in lot but building appears vacant
2010 **North Durham Drive**		
1535 North Durham Drive (13)	C&W Truck & Auto Sales	Vacant (lot cleared)
1603 North Durham Drive	Sabinas Cars Trucks	Vacant (Guero Deluxe Car Wash in 2014)

[18] The map is labeled with the most recent incarnation of the property. Previous uses are referenced in the table.

[19] Current uses for historic file review determined by on-line survey of Google Earth's most currently available aerial and street view data. Sites were double checked in the field as time allowed.

1701 North Durham Drive	Russ Automotive	No change

2010
North Shepherd Drive

1433 North Shepherd Drive	Longhorn Motor Company	No change between 2010 and 2014
1511 North Shepherd Drive	Zelaya Auto Sales	No change between 2010 and 2014
1544 North Shepherd Drive	National Convenience Stores Inc.	No change between 2010 and 2014
1607 North Shepherd Drive	Jag Motors	Jag Motors was listed at 1601 North Shepherd in 2014 and Auto Expertees was at 1607. Currently Auto Expertees.
1620 North Shepherd Drive (8)	Ene Motor Company Inc.	Lot empty expect for small portable building
1701 North Shepherd Drive (5)	USA Vehicle Corporation	Strip development with USA Auto Brokers and pawn shop
1718 North Shepherd Drive	Top Motors	No change between 2010 and 2014

2005
North Durham Drive

1511 North Durham Drive (18)	Heggy Trucking	Appears to be old residential building now being used as commercial property
1537 North Durham Drive	Ice Auto Visionz	Appears to be same cleared lot as C&W Truck & Auto Sales at 1535 North Durham
1620 North Durham Drive (6)	Orbita Auto Sales	Currently Invest Tex Credit Union (construction appears recent)
1701 North Durham Drive	Russ Automotive	No change between 2005 and 2010

2005
North Shepherd Drive

1433 North Shepherd Drive	Longhorn Motors	No change between 2005 and 2010
1500 North Shepherd Drive (22)	Clark Motors Ltd.	La Espiga de Oro tortilla factory and commercial building
1511 North Shepherd Drive	Zelaya Auto Sales	No change between 2005 and 2010
1544 North Shepherd Drive	National Convenience Stores Inc.	No change between 2005 and 2010
1619 North Shepherd Drive (7)	USA Auto Brokers	Still auto dealership

1620 North Shepherd Drive	Orlando Motor Company	Same site as Ene Motor Company (2010). Now vacant lot.
1718 North Shepherd Drive	Top Motors	No change between 2005 and 2010

2000
North Durham Drive

1504 North Durham Drive	Zelaya Auto Sales	Location of 3 20 Auto Sales in 2014 listing. Still used for auto sales.
1511 North Durham Drive	Heggy Trucking	No change between 2000 and 2005
1537 North Durham Drive	Durham Tire & Wheel	Site of Ice Auto Visionz in 2005. Cleared lot.
1701 North Durham Drive	Russ Automotive	No change between 2000 and 2005

2000
North Shepherd Drive

1433 North Shepherd Drive	Longhorn Motor Company	No change between 2000 and 2005
1500 North Shepherd Drive	Clark Motors Inc.	No change between 2000 and 2005
1511 North Shepherd Drive	Auto Center	Site of Zelaya Auto Sales in 2005
1533 North Shepherd Drive	Astro Cars	Auto dealer
1544 North Shepherd Drive	National Convenience Stores Inc.	No change between 2000 and 2005
1619 North Shepherd Drive	USA Auto Brokers	No change between 2000 and 2005
1620 North Shepherd Drive	Orlando Motor Company	No change between 2000 and 2005

1995
North Durham Drive

1504 North Durham Drive	Zelaya Auto Sales	No change between 1995 and 2000
1527 North Durham Drive (15)	Magnificent Autos	Appears to be same cleared lot as C&W Truck & Auto Sales at 1535 North Durham
1535 North Durham Drive	C&W Truck & Auto Sales	Same as 2010 listing
1537 North Durham Drive	Durham Tire & Wheel	Same listing as in 2000
1603 North Durham Drive	Automart Top Flite Auto Sales	Listed as Sabinas Cars Trucks in 2010

1995
North Shepherd Drive

1433 North Shepherd Drive	Longhorn Motor Company	No change between 1995 and 2000
1500 North Shepherd Drive	Safeway Motors	Listed as Clark Motors in 2000
1511 North Shepherd Drive	Auto Center	No change between 1995 and 2000
1533 North Shepherd Drive (17)	Astro Cars	No change between 1995 and 2000
1544 North Shepherd Drive (16)	National Convenience Stores Inc.	No change between 1995 and 2000
1601 North Shepherd Drive	Luciano Motors Inc.	Listed as Lee Service Center in 2014. Still currently Lee Service Center.
1619 North Shepherd Drive	USA Auto Brokers	No change between 1995 and 2000
1620 North Shepherd Drive	Orlando Motor Company	No change between 1995 and 2000

1992
North Durham Drive

1527 North Durham Drive	A&R Trucking	Listed as Magnificent Autos in 1995
1537 North Durham Drive	Durham Tire & Wheel	No change between 1992 and 1995
1603 North Durham Drive	Top Flite Auto Sales	No change between 1992 and 1995

1992
North Shepherd Drive

1500 North Shepherd Drive	Safeway Motors	No change between 1992 and 1995
1533 North Shepherd Drive	Jones Marcus Auto Inc. Ram Recovery	Listed as Astro Cars in 1995
1601 North Shepherd Drive	Luciano Motors Inc.	No change between 1992 and 1995
1619 North Shepherd Drive	Guaranteed Auto Brokers USA Auto Brokers	No change between 1992 and 1995

1987
North Durham Drive

1527 North Durham Drive	A&R Trucking	No change between 1987 and 1992

1987
North Shepherd Drive

1500 North Shepherd Drive	Safeway Motors	No change between 1987 and 1992
1601 North Shepherd Drive	Luciano Motors Inc.	No change between 1987 and 1992
1701 North Shepherd Drive	Johns Leather Cleaners	Currently Russ Automotive
1718 North Shepherd Drive	Standard Auto Sales Stanleys Auto Sales	Listed as Top Motors in 2014. Currently vacant.

1982
North Shepherd Drive[20]

1718 North Shepherd Drive	Stanleys Auto Sales	No change between 1982 and 1987

1977[21]
North Shepherd Drive

1601 North Shepherd Drive	Nix Motor Co.	Listed as Luciano Motors in 1987

1972
North Durham Drive

1816 North Durham Drive (2)	Heights Auto Supply	Site is now occupied by a pawn shop
1815 North Durham Drive (1)	Walding Oil Co. gas station	Site was occupied by tire shop and car wash that is now closed At the time of the field visit, the building was undergoing demolition

1972
North Shepherd Drive

1425 North Shepherd Drive (25)	South Texas Motors	Vacant lot
1501 North Shepherd Drive	Northwest Auto Sales	Part of the same large lot where Zelaya Auto Sales at 1511 North Shepherd is located
1601 North Shepherd Drive	Nix Motor Company	Site of Lee Service Center
1604 North Shepherd Drive (10)	Nunn Motors	Eagle Hand Wash and Detail
1607 North Shepherd Drive	Empire General Auto Repair	Site of Auto Expertees
1619 North Shepherd Drive	Jones' Service Station	Site of USA Auto Brokers

[20] No applicable listings for North Durham Drive in 1982.
[21] No applicable listings for North Durham Drive in 1977.

1967[22]
North Durham Drive

1531 North Durham Drive (14)	Robbins Motor Co.	Appears to be same cleared lot as C&W Truck & Auto Sales at 1535 North Durham and Magnificent Autos at 1527 North Durham

1967
North Shepherd Drive

1501 North Shepherd Drive	Northwest Auto Sales	No change between 1967 and 1972
1601 North Shepherd Drive	Gulf Motor Co. Use Cars	Site of Lee Service Center
1605 North Shepherd Drive	Empire Motor Exchange	Appears to be part of the large lot that is currently Auto Expertees
1616 North Shepherd Drive	Al Parker Buick Co.	Appears to be part of lot with Ene Motor Co.

1962
North Shepherd Drive

1501 North Shepherd Drive	Northwest Auto Sales	No change between 1962 and 1967
1601 North Shepherd Drive	Brosh Motor Co.	Site of Lee Service Center
1605 North Shepherd Drive	Empire Motor Exchange	No change between 1962 and 1967

1957
North Shepherd Drive

1440 North Shepherd Drive (23)	Fourteenth Avenue Cleaners & Dyers	Appears to be part of La Espiga de Oro tortilla factory and commercial building
1601 North Shepherd Drive	Brosh Motor Co.	No change between 1957 and 1962
1604 North Shepherd Drive	Harold Service Center	Current site of Eagle Hand Wash and Car Detail
1605 North Shepherd Drive	We-Wash-It Laundromat	Listed as Empire Motor Exchange in 1962
1607 North Shepherd Drive	Empire Motor Exchange	Empire Motor Exchange was listed at 1605 North Shepherd in 1962. Auto Expertees is currently located at 1607 North Shepherd.
1619 North Shepherd Drive	Maynard's Service Station	Currently site of USA Auto Brokers

[22] 1967 is the last year that City Directory information was available for North Durham Drive.

1625 North Shepherd Drive	Milner Chas Welding	Appears to be part of the site with USA Auto Brokers
1705 North Shepherd Drive	Village Washeteria	Appears to be part of the lot with USA Vehicle Corporation at 1701 North Shepherd
1951		
North Shepherd Drive		
1506 North Shepherd Drive (20)	Automatic Laundry Shop Washeteria	Currently a self-storage facility
1946		
North Shepherd Drive		
1439 North Shepherd Drive	Dobkins Welding Works	Appears to be on the same site as the Longhorn Motor Company at 1433 North Shepherd
1604 North Shepherd Drive	Mitchell Service Station	Listed as Harold Service Station in 1957
1619 North Shepherd Drive	Harris & Aycock Service Station	Listed as Maynard's Service Station in 1957
1941[23]		
North Shepherd Drive		
1503 North Shepherd Drive	Dunn's Cleaners	Appears to be part of the lot with Zalaya Auto Sales
1619 North Shepherd Drive	George Lalley Filling Station	Listed as Harris & Aycock Service Station in 1946

Table 8 (City Directory Image Report, EDR. December 20, 2017.)

[23] City Directory information was available for the project area for the years 1936 and 1931, but there were no at-risk sites identified.

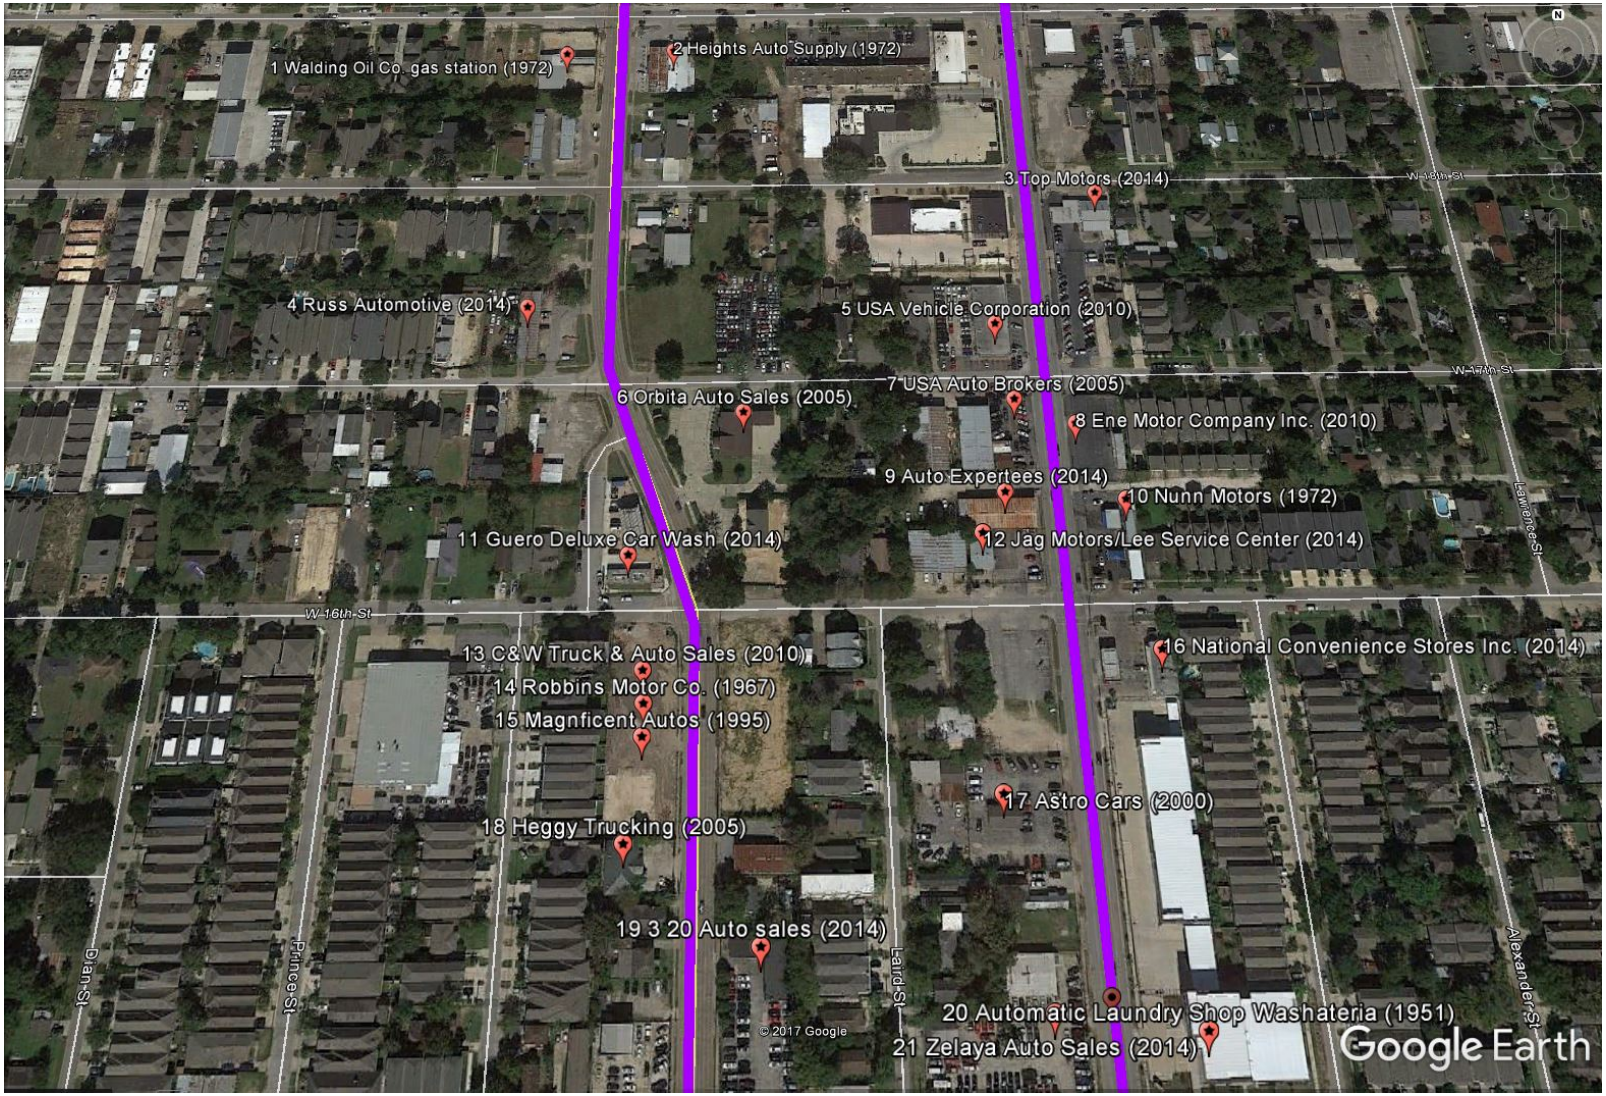

Figure 32 Historic City Directory properties, north [City Directory Image Report, EDR (December 20, 2017) and Google Earth, December 21, 2017.]

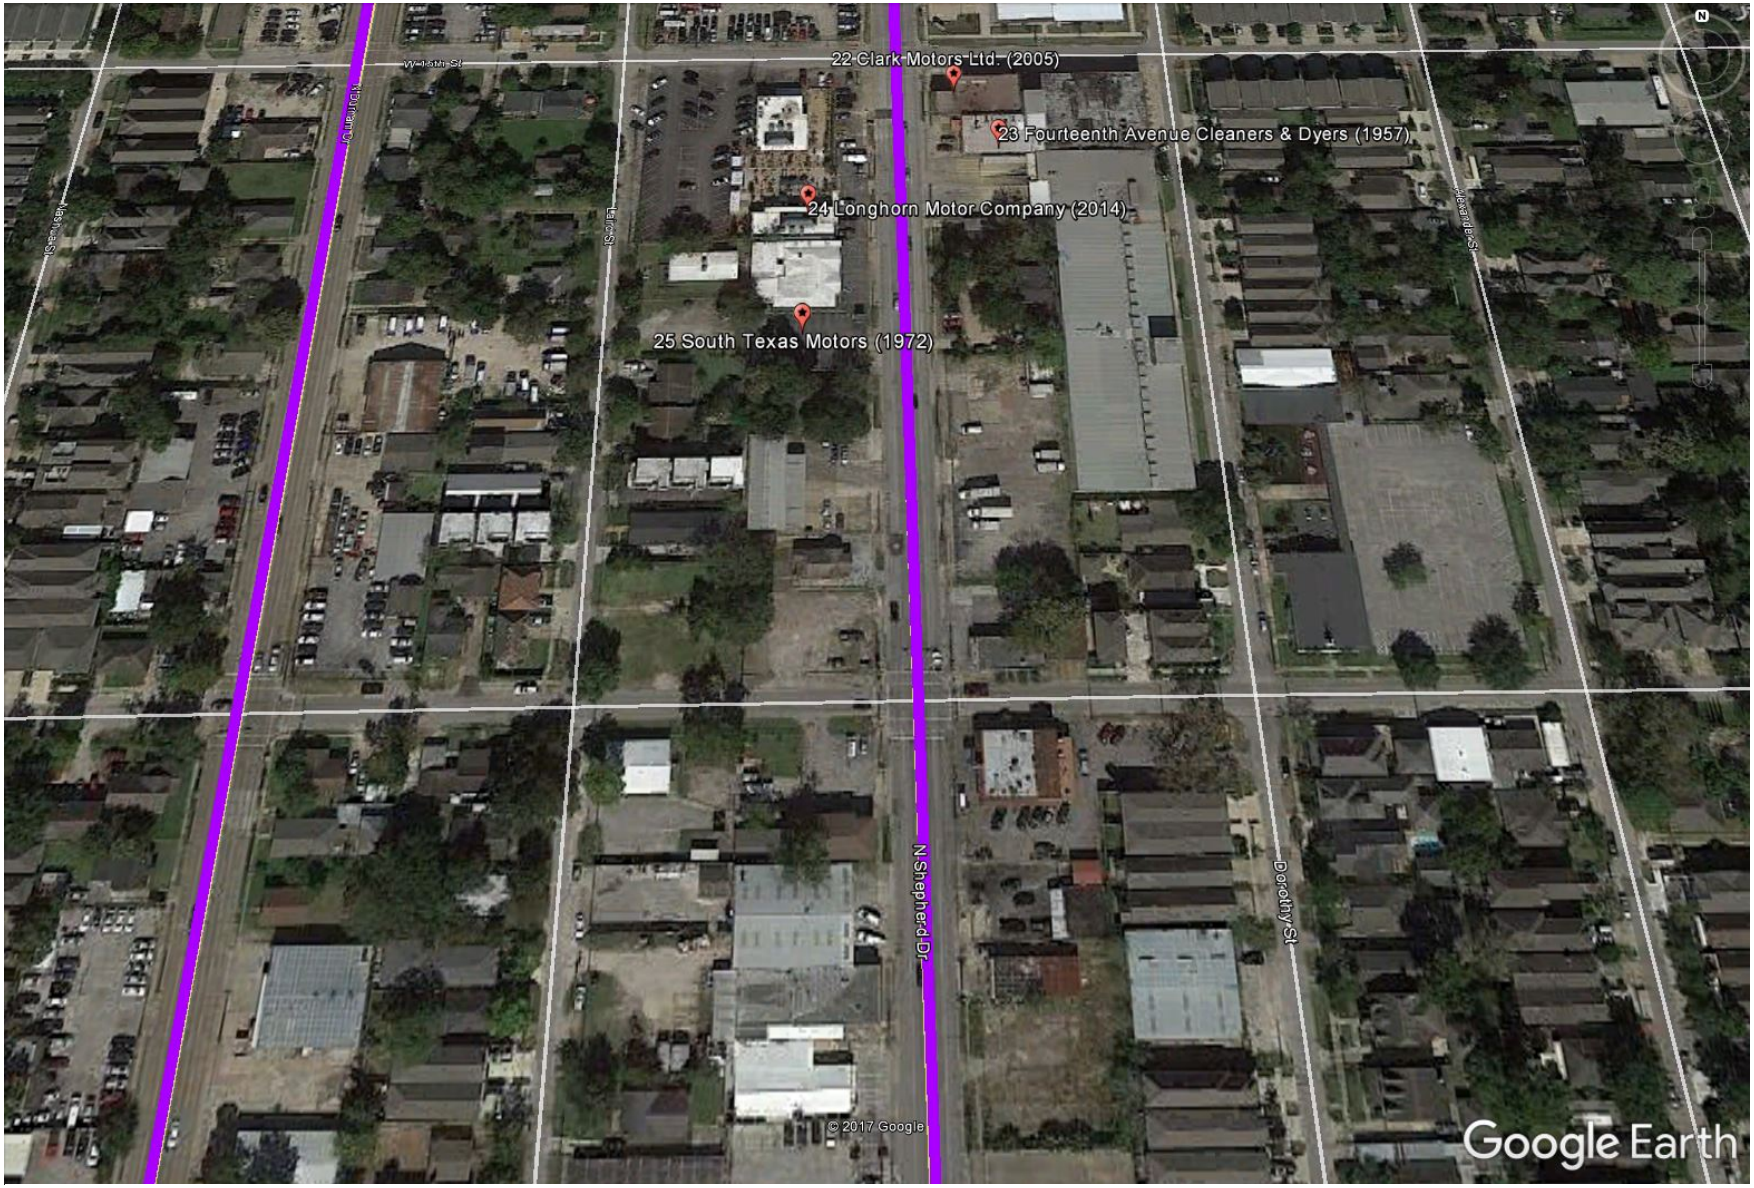

Figure 33 Historic City Directory properties, south [City Directory Image Report, EDR (December 20, 2017) and Google Earth, December 21, 2017.]

Historic Aerial Photographs

Historic aerial photographs were available for the following years: 2014, 2012, 2010, 2005, 1996, 1989, 1978, 1973, 1966, 1953, 1944, and 1938. Copies of the photos are included in Appendix F. The table below summarizes these photos.

Historic Aerial Photographs

YEAR	SUMMARY
2014 (south)	Residential development is dominant to the east and west of Shepherd and Durham. Larger scaled commercial development is visible between Shepherd and Durham and at the southern end of the project area. White Oak Bayou and the Katy Freeway are also visible at the southern end of the aerial photo. Location of Eureka Yard and adjacent tracks appears to be vacant/dirt.
2014 (north)	This area is largely residential. IH 610 is visible at the northern end of the project corridor.
2012 (south)	Conditions are similar to 2014.
2012 (north)	Conditions are similar to 2014.
2010 (south)	There is slightly more tree cover in the 2010 aerial photos, but conditions appear largely the same as 2012 and 2014.
2010 (north)	There is slightly more tree cover in the 2010 aerial photos, but conditions appear largely the same as 2012 and 2014.
2005 (south)	The 2005 aerials are darker and have tree cover, but conditions appear similar to 2010, 2012, and 2014.
2005 (north)	The 2005 aerials are darker and have tree cover, but conditions appear similar to 2010, 2012, and 2014.
1996 (south)	Other than an additional paved/developed area north of Eureka Yards that appears unpaved/grassed in 1996, conditions are similar to subsequent years.
1996 (north)	Conditions appear similar to subsequent years.
1989 (south)	Aerial photos from 1986 and earlier were in black and white, rather than color. Conditions in 1986 appear similar to subsequent years.
1989 (north)	A large parcel one block from IH 610 to the west of Durham that was later developed with a big box shopping center and parking lot is vacant and appears to be covered in grass. Otherwise, conditions appear similar to subsequent years.
1978 (south)	The grassed portion of the Eureka Yards area appears to be covered in light-colored dirt. The industrial area directly to the north of White Oak Bayou and east of Shepherd is very dark in the aerial photo but seems to have fewer buildings. Otherwise, conditions appear similar to subsequent years.
1978 (north)	The large parcel one block from IH 610 that was vacant in 1989 appears to be a residential neighborhood in 1978. Otherwise, conditions appear similar to subsequent years.
1973 (south)	There is more undeveloped land around Eureka Yards on both sides of White Oak Bayou, and the area that appeared covered with light dirt is covered with trees. The area between Durham and Shepherd both north and south of White Oak Bayou is cleared but largely undeveloped. The industrial area south

	of the MKT tracks and east of Shepherd is developed, but with more and smaller structures. The rest of the development in the area appears to be residential.
1973 (north)	Conditions appear similar to subsequent years.
1966 (south)	The undeveloped areas east of Durham and north of White Oak Bayou that appear covered with dirt in the 1973 aerials look to have tree cover in 1966. The Katy Freeway is under construction. Otherwise, conditions in the area look similar to subsequent years.
1966 (north)	Development is largely residential and similar to subsequent years.
1953 (south)	While the street grid is similar to subsequent years, development is much sparser, especially in the areas around White Oak Bayou and the MKT rail line. The development that is visible is almost all residential, with the exception of the industrial area east of Shepherd and south of the MKT line. Much of Durham is not present and it is not a continuous street. Construction has not begun on the Katy Freeway.
1953 (north)	IH 610 has not been constructed. The area to the northwest of what will be IH 610 in the future is undeveloped. The large parcel a block from IH 610 that was vacant in 1989 and residential in 1978 was cleared but vacant in 1953. Durham is not a continuous street.
1944 (south)	The majority of the area along White Oak Bayou is undeveloped and covered with trees. West 11th Street and the MKT tracks cross the bayou. There are a couple of blocks of residential development west of Shepherd and some of the industrial development south of the MKT line is present. The street that becomes part of Durham in the future does not begin until north of West 10th. Most development visible is residential.
1944 (north)	What is a residential area in the southwest corner of the 1953 aerial photo is vacant in 1944. Otherwise, conditions are similar to those in 1953.
1938 (south)	All of the area around White Oak Bayou depicted in the aerial photo is covered with trees. Otherwise, conditions are similar to those in 1944.
1938 (north)	Conditions are similar to those in 1944.

Table 9 (Aerial Photo Decade Package, EDR. December 18, 2017.)

Historic Topographic Maps

Historic topographic maps were obtained for the years 2013, 1995, 1982, 1967, 1955, 1946, 1922, and 1915. Copies of the maps are provided in Appendix G. The maps are summarized in Table 10.

Historic Topographic Maps

YEAR	SUMMARY
2013	The majority of the project area has little variation in topography/elevation, with the exception of the area around White Oak Bayou. The only structures of note are the Oriental Textile Mill and Eureka Yard. The textile mill, located at Lawrence and West 22nd Street (one block east of Shepherd), was one of the first industrial complexes in Houston. It is no longer active for manufacturing and has been historically landmarked. Eureka Yards, on Eureka Street west of TC Jester Boulevard (approximately 0.7 mile west of Durham), served the MKT rail line, but it is no longer active. The site is currently used for equipment storage. The tracks for the Houston and Belt Terminal Railroad, which run parallel to West 34th Street north of the project corridor, are visible.
1995	Railroad tracks are shown running down Nicholson Street (approximately 0.25 mile east of Shepherd, connecting to the MKT line and Eureka Yard. There are two water tanks adjacent to the tracks at 20th Street. There are several oil wells near the intersection of Bevis Street and East 18th Street (approximately 0.6 mile west of Durham). The overall street grid is generally the same as in 2013. The Houston and Belt Terminal tracks are visible.
1982	Tracks along Nicholson, water towers, oil wells, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown. The overall street grid is generally the same as 1995.
1967	The overall street grid is generally the same as 1982. Tanks and/or wells appear to be present in the vicinity of Eureka Yard and the development between Shepherd, White Oak Bayou, and the Katy Freeway. Tracks along Nicholson, water towers, oil wells, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown.
1955	IH 610 has not been developed. The overall street grid is generally the same as 1967, but the area west of White Oak Bayou to the north of the MKT tracks has not been as developed yet; West 11th appears to be the only major street in the area, with a couple of blocks developed to the north and south. Durham is not a continuous corridor from White Oak Bayou to where IH 610 is today. A ditch connecting to White Oak Bayou is visible just north of West 26th Avenue west of Shepherd. Oaks Water Tank is visible at the northern end of the alignment. Oil wells are visible in the undeveloped area west of White Oak Bayou (the Bevis/18th Street area in maps from subsequent years). Tracks along Nicholson, oil wells, water towers, MKT tracks, Houston Belt and Terminal tracks, and Eureka Yard are all shown.
1946	The Houston Belt Terminal line is the northern end of the project corridor. Roslyn Road is the major street at the northern end of the corridor. Other than the 11th Street Extension, the area west of White Oak Bayou is largely undeveloped. There is some development between Shepherd and White Oak Bayou from 16th to 25th. Durham is not a continuous corridor. The tracks along Nicholson, the MKT tracks, Houston Belt and Terminal tracks, and oil wells are shown. The location of Eureka Yards is labeled as Eureka Junction.

1922	Variations in topography are evident in the largely undeveloped area between Shepherd and the MKT rail line. Durham is not a continuous corridor. The street grid does not extend all the way north to Roslyn Road. Rail lines visible. The tracks along Nicholson, the MKT tracks, Eureka Junction, and Houston Belt and Terminal tracks (labeled Valley) are shown.
1915	There is little change from 1915 to 1922 on the topo map. Varying topography in the undeveloped area is evident. Durham is not a continuous corridor. Street grid does not extend to Roslyn Road. The tracks along Nicholson, the MKT tracks, Eureka Junction, and Houston Belt and Terminal tracks (labeled Valley) are shown.

Table 10 (Historical Topo Map Report, EDR. December 18, 2017.)

Property Usage History

In addition to the other records reviewed, the City of Houston requires that any sites within the IH 610 Loop "shall have property usage identified from the present, back a minimum of 100 years (where available), or to the property's obvious first development, whichever is earlier."[24] Table 11 provides information on any sites adjacent to the corridor that may be considered a risk. The maps below indicate the locations of the sites identified in Table 11. Copies of all Harris County Appraisal District (HCAD) records for properties along the project corridor are available in Appendix H.

HCAD Property Record Review

MAP #	ADDRESS	SUMMARY
1	733 North Loop West	A service station with mini-mart/convenience store was built in 1970 and remodeled in 2000. Two 12,000-gallon petroleum storage tanks (coated, single wall) were installed in 1970. An automatic car wash was built in 1984.
2	2721 North Shepherd Drive	Auto service garage built in 1960
3	642 West 28th Street	Single occupancy retail store built in 1945 Auto service garage built in 1965
4	2521 North Shepherd Drive	Used car lot built in 1950
5	2425 North Shepherd Drive	Auto service garage built in 1970
6	2440 North Shepherd Drive	Used car lot built in 1950
7	2401 North Shepherd Drive	Auto service garage built in 1950

[24] *City of Houston Department of Public Works & Engineering Geotechnical and Environmental Requirements Design Manual*, Chapter 11.

8	2319 North Shepherd Drive	Auto service garage built in 1950. HCAD records indicate another auto service garage built in 2009. Two metallic shell warehouses were installed on the site, one in 2004 and one in 2010.
9	2200 North Shepherd Drive	HCAD records indicate construction of two auto service garages, one in 1950 and one in 1960
10	2101 North Shepherd Drive	Used car lot built in 1945
11	2020 North Durham Drive	An auto service garage was built on the site in 2006. The site also has a medical office that was built in 1930 and remodeled in 2013.
12	2002 North Shepherd Drive	Used car lot built in 1950. At the time of the field visit, the site was undergoing demolition and new construction.
13	1918 North Shepherd Drive	Manual car wash built in 1970
14	1818 North Shepherd Drive	Auto service garage built 1984 and remodeled in 2016
15	801 West 18th Street	Manual car wash built in 1983
16	1718 North Shepherd Drive	Used car lot built in 1960. Additional office building constructed in 1970.
17	802 West 17th Street	Auto service garage built in 1975
18	1603 North Durham Drive	Used car lot (built in 1969, remodeled in 2012)
19	1607 North Shepherd Drive	Auto service garage built in 1968
20	1601 North Shepherd Drive	Used car lot built in 1981
21	1544 North Shepherd Drive	Service station built in 1983. One 12,000-gallon fiber glass single-walled petroleum storage tank is listed.
22	1501 West 15th Street	Used car lot built in 2009
23	1407 North Shepherd Drive	Auto service garage built in 1986
24	1340 North Shepherd Drive	Used car lot built in 1978
25	1309 North Durham Drive	A residence was constructed on this site in 1935. In 1984, it was converted to an auto service garage.
26	1311 North Shepherd Drive	Used car lot built in 1986
27	1423 West 13th Street	Used car lot built in 1985
28	1406 West 13th Street	Single family residence built in 1938. Site is currently a used car lot.

29	1201 North Shepherd Drive	Full service auto dealership built in 2013
30	1145 North Shepherd Drive	Site began as an auto service garage in 1969. In 2002, it became a full-service auto dealer with additional construction on site in 2014.
31	1132 North Shepherd Drive	Single family residence built in 1950. Remodeled in 1989 and is now a used car lot.
32	915 North Shepherd Drive	This shopping center was originally constructed in 1942. Retail additions were made in 1956, 1960, 1997, and 2010. Supermarket improvements were added in 1997 and 2009. A gas station was added to the site in 2009. The gas station has three steel double-walled 15,000 gallon petroleum storage tanks.
33	932 North Shepherd Drive	Auto service garage built in 1973
34	840 North Shepherd Drive	This site was originally developed as a retail store in 1960; the retail component was remodeled in 2012. The site added a full-service auto dealer in 1977, with additional components added in 1999. In 2016, and auto service garage was added. Since 2006, there has been a steel single-walled 6,000-gallon petroleum storage tank on site.

EDR Historic Auto Stations

EDR has created a database of sites based on the review of source categories that might, in EDR's opinion, include gas/service station establishments. The categories reviewed include, but are not limited to, gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records," or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns but may not show up in current government records searches.

Sites within 500 feet of the project corridor are identified in Table 12 and Figures 38 through 46.

Historic Auto Stations (EDR)

MAP #	SITE	DISTANCE FROM PROJECT CORRIDOR	KNOWN YEARS OF OPERATION	OTHER ENVIRONMENTAL RECORDS
1	Burns Mobil Station 2902 North Shepherd Drive	353.25 feet	1971	
2	Hall S Conoco Service Station 2905 North Shepherd Drive	151.41 feet	1944-1953	
3	Nick & Sons Texaco 801 North Loop West	174.46 feet	1988-2014	Also listed as two LPST sites and discussed in that section of this report
4	Allbritton Service Station 2845 North Shepherd Drive	Adjacent	1944-1953	
5	Walding Oil Company 2807 North Shepherd Drive	63.82 feet	1953-1980	Also listed as an LPST site and discussed in that section of this report
6	North Shepherd Mobil Station 2802 North Shepherd Drive	Adjacent	1975-1995	Also listed as an ENF and LPST site and discussed in those sections of this report The site has been redeveloped as a strip mall with a fast food restaurant and commercial/retail businesses
7	Gulf Service Station 733 West 28th Avenue	158.41 feet	1980	
8	Enterprise Transmission 2721 North Shepherd Drive	101.28 feet	1980-2008	Also listed in IHW, ECHO, FINDS, and RCRA databases – no violations identified in EDR report
9	MR Coy Jack Garage 640 West 28th Avenue	129.42 feet	1971-2009	

10	Garden Oaks Auto Service 2705 North Shepherd Drive	Adjacent	1953-1975	
11	K and G Automotive Truck Repr 619 West 27th Street	353.18 feet	1979-2014	
12	Truck Stop 2632 North Durham Drive	60.49 feet	1995-2013	
13	P & P Garage 2610 North Shepherd Drive	Adjacent	1940-1948	
14	North Shepherd Mobil Oil Center 2602 North Shepherd Drive	Adjacent	1968	
15	Hall LT 647 West 26th Avenue	131.11 feet	1930	
16	Barrett Auto Repair 621 West 26th Avenue	315.12 feet	1975-1980	
17	Walkers Garage 739 West 25th Avenue	105.51 feet	1948	
18	B and B Radiator Company 2421 North Shepherd Drive	Adjacent	1972-1975	Also listed at 2425 North Shepherd and tracked in IHW database – no violations identified in EDR report
19	J I Pritchett 2403 North Shepherd Drive	Adjacent	1935	
20	Reiff Johnny Auto Service 707 West 24th Avenue	100.52 feet	1953-1997	Corporate Auto Services is also listed at this address and is tracked in IHW, RCRA, FINDS, and ECHO databases – no violations identified in EDR report
21	Cain and Son Service Station 2401 North Shepherd Drive	61.07 feet	1940-2013	
22	Stelter Richd Auto Service 2319 North Shepherd Drive	100.98 feet	1953-2008	
23	Finley Everest R 700 West 23rd Avenue	Adjacent	1940	
24	Nowalk Benj D 2221 North Shepherd Drive	Adjacent	1944	
25	Bales Transmission 2222 North Shepherd Drive	Adjacent	1969-2009	Trans-Motive is also listed at this address and is tracked in IHW, RCRA, FINDS, and ECHO database – no violations identified in EDR report
26	Childs B E Service Station 2218 North Shepherd Drive	Adjacent	1962	
27	Seidl Service Station 2219 North Shepherd Drive	Adjacent	1948-1953	

28	Cascio S Joe Garage 2217 North Shepherd Drive	Adjacent	1953-1962	
29	Walco Service Station 2203 North Durham Drive	Adjacent	1991-1992	Stewarts Walco is also listed at this address and tracked in the UST database – no violations identified in EDR report
30	Eddies Body Shop 821 West 22nd Street	275.37 feet	1971	
31	Clemmons J C 801 West 22nd Avenue	Adjacent	1926	
32	Lonnie S Auto Service 808 West 22nd Avenue	192.67 feet	1971-1990	
33	Moyers and Yates Serv Ste 2121 North Shepherd Drive	80.44 feet	1953	
34	Danco Automotive 2101 North Shepherd Drive	61.27 feet	1953-1980	DHP Sales listed at this address is tracked in UST database – no violations identified in EDR report
35	D C Auto Electric Co. 2118 North Shepherd Drive	Adjacent	1953-1968	
36	Charlies Service Station 2102 North Shepherd Drive	Adjacent	1935-1980	
37	Hancock J C 2019 North Shepherd Drive	95.67 feet	1935-1940	
38	Foster Joseph T 2018 North Shepherd Drive	61.30 feet	1962-1972	McQuillan Surveying is listed at this address and is an LPST site (discussed in that section of this report) The site is currently vacant and for lease
39	Sharp Automotive 2017 North Durham Drive	Adjacent	1985-1987	
40	Heights Auto Parts and Service Station 813 East 20th Avenue	206.40 feet	1926-1930	
41	Schulz A H 805 East 20th Avenue	132.87 feet	1930	
42	Patterson J C 815 East 20th Avenue	215.64 feet	1926	
43	Dugan Geo Shell Service 2002 North Shepherd Drive	65.78 feet	1944-1962	At the time of the field visit, the site was undergoing demolition and new construction

				Abel Motors is listed at this address and is an LPST site (discussed in that section of this report)
44	North Shepherd Garage 1910 North Shepherd Drive	Adjacent	1935	
45	Shippey S E Service Station 1902 North Shepherd Drive	Adjacent	1953	
46	Freeman Ellis Park WH 647 West 19th Avenue	Adjacent	1930	
47	Thompson Troy Service Station North Shepherd corner of 19th Avenue W	Adjacent	1940	
48	Jorns Supply Station 648 West 19th Avenue	Adjacent	1935-1948	
49	Tune Up Plus 1818 North Shepherd Drive	82.41 feet	1986-2014	Also tracked in the UST database – no violations identified in the EDR report
50	Lemon Auto Service 620 West 19th Avenue	323.11 feet	1962	
51	Lang James 619 West 19th Avenue	426.12 feet	1935-1940	There is also a warehouse listed at this address that is in the UST database – no violations identified in the EDR report
52	Stallones W M 702 West 19th Avenue	88.72 feet	1935	
53	Mathes Mobil Service 1835 North Shepherd Drive	74.04 feet	1948-1977	Houston Alternator is listed at this address and is an LPST site (discussed in that section of this report) The site is now a strip mall with restaurants
54	Walding Oil Co. 1815 North Durham Drive	61.09 feet	1971-2012	Win Auto Sale is listed at this address and is an LPST site (discussed in that section of this report) At the time of the field visit, the business was closed and the building was undergoing demolition
55	Stipp John C 1816 North Shepherd Drive	Adjacent	1940	
56	Jorns Service Station 1814 North Shepherd Drive	Adjacent	1935	
57	Allbrook Service Station 1824 North Shepherd Drive	Adjacent	1940	

58	DC Auto Electric Co. 1819 North Shepherd Drive	Adjacent	1971	
59	Seditas Auto Service 746 West 18th Street	Adjacent	1980-2009	
60	Vogler Norbert C 1717 North Shepherd Drive	Adjacent	1940	
61	Heights Repair Shop 637 West 17th Avenue	149.47 feet	1953-1962	
62	Empire Motor Exchange Serv Sta 1619 North Shepherd Drive	Adjacent	1944-1986	Likely to be part of a single business operation on a large lot with Empire sites at 1605 and 1607 North Shepherd
63	Luke B R 1617 North Shepherd Drive	Adjacent	1935	
64	Empire Motor Exchange 1605 North Shepherd Drive	Adjacent	1962-1968	Likely to be part of a single business operation on a large lot with Empire sites at 1607 and 1619 North Shepherd
65	Empire General Auto Repair 1607 North Shepherd Drive	170.14 - 77.90 feet	1971-2014	Empire Motor Exchange is also listed at this address and is tracked in IHW, RCRA, FINDS, and ECHO database – no violations identified in EDR report Likely to be part of a single business operation on a large lot with Empire sites at 1605 and 1619 North Shepherd
66	Mitehells Service Station 1604 North Shepherd Drive	Adjacent	1935-1953	A former used car lot is listed at this address and is an LPST site (discussed in that section of this report) The site is now Eagle Hand Wash and Car Detail
67	Costal Gulf 1535 North Durham Drive	Adjacent	2005-2008	Champs Auto Sales is also listed at this address and is in the FINDS database – no violations identified in the EDR report
68	Valero Energy Station 1544 North Shepherd Drive	61.22 feet	2011	Corner Store 2591 is also listed at this address and is tracked in the UST database - no violations identified in the EDR report
69	SNS Shop 1511 North Shepherd Drive	Adjacent	1989-1993	
70	Coastal Transmission Inc. 1231 West 15th Street	Adjacent	1997-2000	
71	Klander Alvin 1510 North Shepherd Drive	Adjacent	1935	

72	Texas Motor Garage 1416 North Shepherd Drive	Adjacent	1962	
73	Mitchells Automotive Service 1404 North Shepherd Drive	Adjacent	1948	
74	Kim Bro Tone Up Co. 1327 Dorothy Street	181.39 feet	1975	Also site of Romair Rug Co. historic dry cleaner
75	Autos Venegas 1321 North Durham Drive	Adjacent	2006-2014	
76	Bowmans Service Station 1323 North Shepherd Drive	Adjacent	1935	
77	North Shepherd Drive Service Station 1321 North Shepherd Drive	Adjacent	1940	
78	Griffin Service Station 1301 North Shepherd Drive	75.85 feet	1935	
79	P and J Garage 1311 North Shepherd Drive	Adjacent	1948-1962	
80	Harris Joseph A 1306 North Shepherd Drive	Adjacent	1940	
81	Galena Pk Msnry Bp 1210 West 13th Street	212.87 feet	1992-1995	
82	A+ Transmission 1213 North Shepherd Drive	Adjacent	1994-2000	
83	Eleventh and Shepherd Gulf Service Station 1102 North Shepherd Drive	Adjacent	1962-1990	Chevron is also listed at this address and is tracked in the UST database - no violations identified in the EDR report
84	Quaglino Conoco Service Station 1101 North Shepherd Drive	61.29 feet	1962-1975	
85	National Cnvenience Stores, Inc. 1421 West 11th Street	204.81 feet	1996-2013	Valero Corner Store 2474 is listed at this address and is an LPST site (discussed in that section of this report) The site is now Title Max
86	National Cnvenience Stores, Inc. 1420 West 11th Street	243.19 feet	1989-1995	
87	Everitt J R Texaco Station 1049 North Shepherd Drive	Adjacent	1962-2008	Shepherd ET is listed at this address and is an LPST site (discussed in that section of this report) The site is now a Kroger gas station

88	Exxon Oil and Refining Co. Service Station 1048 North Shepherd Drive	Adjacent	1962-1986	Exxon RS 67233 is listed at this address and is an LPST site (discussed in that section of this report) This site is now a Mattress Firm Super Center
89	AAA Shamrock Inc. 1018 North Shepherd Drive	Adjacent	1987-1988	
90	Guss Mobile Station 1004 North Shepherd Drive	Adjacent	1962	Also listed as address of historic dry cleaner (Merchant Park Cleaners)
91	Liban Enterprise Inc. 1002 North Shepherd Drive	Adjacent	2014	
92	Exxon Corporation 1003 Nashua Street	244.79 feet	1998	
93	Meineke Discount Muffler Shop 932 North Shepherd Drive	60.86 feet	1975-2014	
94	Campo Juan M 817 North 7th Street	180.84 feet	1935	
95	Four Point Service Station 630 North Shepherd Drive	Adjacent	1948	
96	Gulf Coast Hose 600 North Shepherd Drive		2008-2010	Marvest, Inc. is also listed at this address and is tracked in RCRA, FINDS, and ECHO database – no violations identified in EDR report
97	Walco Service Station 2203 Durham Avenue	Adjacent	1968-2008	Kerr McGee 9031 is also listed at this address and is tracked in the UST database - no violations identified in the EDR report
98	City Auto Glass 4802 Larkin	Adjacent	1976-2014	
99	Forston Bros. Service Station 4803 Larkin	Adjacent	1930	
100	Mauke Bros. Service Station 4801 Larkin	Adjacent	1940	
101	Conrad Service Station 2117 Shepherd Drive	82.70 feet	1953-1962	
102	MC Whirter Geo M 2115 Shepherd Drive	95.77 feet	1944-1948	
103	Midas Muffler Shop 2101 Shepherd Drive	182.95 feet	1962-1997	
104	C and J Service Station 2120 Shepherd Drive	163.31 feet	1944-2013	The site was redeveloped with new (2014) construction for Johnstone

				Johnstone Supply Warehouse is listed at this address and is an LPST site (discussed in that section of this report) ABC Auto Parts is listed at this address and is an IHWCA site (discussed in that section of this report) A VCP site is listed at this address (discussed in that section of this report)
105	Walding Enterprises 2102 Shepherd Drive	182.73 feet	1953-1962	
106	ALS Texaco 2015 Shepherd Drive	319.26 feet	1972-2007	The site has been redeveloped with a Cane's restaurant Dons Texaco Inc. is listed at this address and is an LPST site (discussed in that section of this report)
107	Lampasas Service Station 2002 Shepherd Drive	381.12 feet	1940-1953	
108	Falcon Exxon 4710 Katy Freeway	415.25 feet	1973-1990	The site was redeveloped in 2012 and is now the Texas Orthopedic and Spinal Institute RAS 6 3889 is listed at this address and is an LPST site (discussed in that section of this report)

EDR Historic Dry Cleaners

EDR has searched selected national collections of business directories and listings of potential dry cleaner sites to create a database of historic sites. The categories reviewed include, but are not limited to, dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database is considered HRHR.

Sites within 500 feet of the project corridor are identified in Table 13 and Figures 47 through 51.

Historic Dry Cleaners (EDR)

MAP #	SITE	DISTANCE FROM PROJECT CORRIDOR	KNOWN YEARS OF OPERATION	OTHER ENVIRONMENTAL RECORDS
1	Garden Oak Cleaners 2915 North Shepherd Drive	167.25 feet	1948-1986	
2	Monarch Cleaning and Laundry 2815 Shepherd Drive	Adjacent	1948	
3	Mauler Cleaners and Laundry 2616 North Shepherd	78.41 feet	1962-1975	
4	Master Cleaners 2613 North Shepherd Drive	Adjacent	1948-1953	
5	Lily Cleaners 2429 North Shepherd Drive	Adjacent	1948	
6	Lily Cleaners 2427 North Shepherd Drive	Adjacent	1953	
7	Wasco May Laundry Coin-Op 2406 North Shepherd Drive	Adjacent	1975-1986	
8	Guess Cleaners 2021 North Durham Drive	60.47 feet	2006-2010	
9	Frank Dale F Carpet Service 710 West 21st Avenue	158.78 feet	1962	
10	Master Cleaners and Laundry 745 West 20th Avenue	124.37 feet	1968-1971	
11	Clayton Cleaners 730 West 19th Street	217.49 feet	1962-2005	This site is also listed in the IHW and Dry Cleaner databases. The site is registered as a drop station in the Dry Cleaner database, meaning no dry cleaning is done on site. It is listed as a non-industrial waste generator in the IHW database. There are no violations identified in the EDR report.

12	Texas Dry Clean 722 West 19th Street	215.60 feet	2014	The site is registered as a drop station in the Dry Cleaner database, meaning no dry cleaning is done on site.
13	Imperial Rug Cleaners 1711 North Shepherd Drive	63.65 feet	1948	
14	Orchid Cleaners 1709 North Shepherd Drive	Adjacent	1948-1962	
15	George Jas 2305 Nashua	61.99 feet	1926	
16	Serres Ed Place 1508 North Shepherd Drive	Adjacent	1948	
17	Automatic Laundry Shop 1506 North Shepherd Drive	Adjacent	1948-1953	
18	Fourteenth Avenue Cleaners 1402 North Shepherd Drive	Adjacent	1935-1940	
19	Fourteenth Avenue Cleaners 1400 North Shepherd Drive	62.84 feet	1948-1986	
20	Fourteenth Avenue Cleaners 1211 West 14th Avenue	97.60 feet	1930	
21	Romair Rug Co. 1327 Dorothy	181.39 feet	1940-1962	Also site of Kim Bro historic auto station
22	Sparkle Cleaners 1330 North Shepherd Drive	Adjacent	1953-1962	
23	Presto Cleaners 1423 West 13th Avenue	76.52 feet	1930	
24	Big Bills Washeteria 1311 West 11th Avenue	Adjacent	1975-1980	This site is also listed as an Autozone that is tracked in the FINDS database – no violations were listed in the EDR report
25	Dry Clean Super Center 1223 West 11th Street	93.27 feet	2014	This site is listed in the Dry cleaner, IHW, RCRA, FINDS, and ECHO databases. It is a CESQG. There is a violation identified in the EDR database. The site is discussed in the Dry Cleaner section of this report.
26	Space Cleaners 1011 Nashua Street	246.39 feet	1997-2003	
27	Piazzas Cleaners and Laundry 1011 North Shepherd Drive	Adjacent	1962	
28	Merchant Park Cleaners 1004 North Shepherd Drive	Adjacent	1968-1975	This site is also listed as the historic auto station site Guss Mobile Station
29	EKV Corporation 946 North Shepherd Drive	92.68 feet	2003-2009	This site is also listed as Joeys Engine and is tracked in the IHW, RCRA, FINDS, and

				ECHO databases – no violations were identified in the EDR report. The site is also listed as Fashion Touch in the Dry Cleaner database; it is discussed in more detail in that section of this report.
30	Presto Drapery Service Inc. 580 North Shepherd Drive	Adjacent	2005-2014	
31	Family Cleaners 502 North Shepherd Drive	Adjacent	1962

Summary of Historical Records Review

With as much accuracy as possible with the available data, the maps below depict the sites identified in all of the historic records searches in the project corridor. Any historic sites with current, definitive information on releases were identified previously in this section with a reference to the section of the report where conditions at the site are discussed in more detail.

There are over 200 historic high risk sites within 500 feet of the project corridor. Because of the large number of historic sites and the lack of any reported evidence of actual releases for most of the sites, intersections/blocks with high concentrations of sites are identified below as Historic Recognized Environmental Conditions (HREC areas):

- North Shepherd at West 28th
- North Shepherd between West 27th and West 26th/midblock
- North Shepherd between West 25th and West 24th/midblock
- North Shepherd and West 23rd
- North Shepherd between West 21st and West 20th/midblock
- North Durham between West 21st and West 20th/midblock
- North Shepherd and West 19th
- North Shepherd between West 18th and West 17th/midblock
- North Shepherd between West 17th and West 16th/midblock
- North Durham and West 16th
- North Shepherd between West 16th and West 15th/midblock
- North Shepherd between West 15th and West 14th/midblock
- North Shepherd between West 14th and West 13th/midblock
- North Shepherd and West 11th
- North Shepherd and West 10th
- North Shepherd and Larkin

These areas are depicted in maps and photos below. Individual sites previously discussed in this document are designated by the red pins. High concentration HREC areas that are being designated for the purposes of determining Phase II recommendations are identified with the yellow bullseyes.

SITE RECONNAISSANCE

Ms. Julie Arbeau of TGC visited the site corridor on January 13, 2018 and January 20, 2018.

METHODOLOGY AND LIMITING CONDITIONS

Because the project studied in this ESA consists of roadway and back-of-curb improvements, no existing structures are anticipated to be impacted; therefore, TGC did not perform inspections inside any properties in the project area. In addition, due to the size of the project area (over two miles in length), TGC conducted a driving survey of the corridor overall, and then performed more in-depth observation of properties known to have contamination, or presumed to have handled, stored, or disposed of hazardous materials. Photos of these properties are provided throughout the body of the report where relevant.

ON-SITE OBSERVATIONS

The table below summarizes observations made during the field inspection of the project corridor.

On-Site Observations		
		POTENTIAL REC?
Current and past use of property	The "property" is approximately two miles of Shepherd and Durham Drives from IH 610 to Larkin Street. Both roadways have two lanes for traffic heading north and south. There is roughly one block of development separating Durham on the west from Shepherd on the east. The project alignment crosses White Oak Bayou at the southern end. The oldest topo map examined was 1915. Shepherd Drive had already been developed at that time. Durham was present in 1915 but did not become the continuous corridor from White Oak Bayou to IH 610 that it is today until the late 1960s.	N
Current and past use of adjacent properties	There is a great variety of development along the corridor, but it is largely commercial abutting Shepherd and Durham, with residential development to the east and west. Eureka Yards, on Eureka Street west of TC Jester Boulevard (approximately 0.7 mile west of Durham), served the MKT rail line since at least 1915, but it is no longer active. Tracks for the Houston and Belt Terminal Railroad, which run parallel to West 34th Street north of the project corridor, were active in at least 1915, but are no longer in use. Tracks were also located along Nicholson Street as early as 1915 but are no longer in use. Until the 1950s, much of the area to the north and west of White Oak Bayou was undeveloped. IH 610 was not constructed until the 1960s.	Y

	There are many gas stations, car dealerships, mechanics, and dry cleaners in the area both currently and historically; there are potential RECs.	
Topographic and geologic setting	The project area is largely flat, other than some variation in elevation around White Oak Bayou.	N
Structures	Shepherd and Durham are paved roadways with curbs and sidewalks, as well as periodic traffic signals, gutters, driveway entrances, and utility poles.	N
Roadways	The project is Shepherd and Durham, paved roadways with curbs and sidewalks, as well as periodic traffic signals, gutters, driveway entrances, and utility poles. Major intersections include IH 610 and 11th Street. The project also crosses the Heights Hike and Bike Trail and White Oak Bayou.	N
Potable water supply	Several water supply wells were identified in the project corridor in the EDR report: • Durham between IH 610 and 28th Street – owned by City of Houston and Garden Oaks • Shepherd and IH 610 – owned by Chevron and associated with monitoring wells at the site • Shepherd and West 19th – owned by Nav Real Estate • Shepherd and West 16th – owned by HTK, Ltd. • Shepherd and West 11th – owned by Valero and associated with monitoring wells at the site • Durham and West 11th – owned by Exxon and associated with monitoring wells at the site • Shepherd and Larkin – owned by EPMA and associated with monitoring wells at the site These wells were not located during the field visit.	N
Sewage disposal system	Not applicable to the roadway. It is assumed that any adjacent properties are served by City of Houston utilities.	N
Hazardous substances and petroleum products	No hazardous substances or petroleum products were observed in the roadway or back of curb environment being used in ways other than intended.	N
Storage tanks	No storage tanks were observed in the roadway or back of curb environment other than those assumed to be present at gas stations.	N
Noxious odors	None observed.	N
Pools of liquids	Some standing water was observed in areas where the roadway was more damaged (North Shepherd at West 23rd) and at sites that were under construction (2002 North Shepherd, 1815 North Durham).	N
Drums	None observed.	N

PCBs	No leaking transformers were observed in the roadway or back of curb area.	N
Pits, ponds, or lagoons	None observed in roadway or back of curb area.	N
Stained soil or pavement	Nothing out of the ordinary was observed in roadway or back of curb area.	N
Stressed vegetation	Nothing out of the ordinary was observed in roadway or back of curb area.	N
Solid waste	None observed in roadway or back of curb area.	N
Wastewater	No wastewater discharge was observed in the roadway or back of curb area.	N
Septic systems	None observed in roadway or back of curb area.	N
Floor drains and sumps	None observed in roadway or back of curb area.	N
Unidentified substance containers	None observed in roadway or back of curb area.	N
Heating/cooling systems	Not applicable to roadway/sidewalk improvements project	N
Stains or corrosion	None observed in roadway or back of curb area.	N
Suspicious filled or graded areas	None observed in roadway or back of curb area.	N
Farm wastes, pesticides, or fertilizers	None observed in roadway or back of curb area.	N
Wastewater discharge	No wastewater discharge was observed in the roadway or back of curb area.	N
Wells	Water supply wells are discussed in the potable water supply section of this table. In addition, the EDR report identified an oil and gas well on Durham between Glen Oaks and Heights Hike & Bike Trail. Wells at the site were plugged in 2001 and 2007. The remnants of plugged monitoring wells were observed at some sites (identified in discussion of those specific sites in the document).	N
Other indicators of liquid or solid waste disposal	None observed in roadway or back of curb area.	N
Fuel sources	None observed in the roadway or back of curb project area. There are several gas stations in the corridor adjacent to the project area, which are discussed in the records review section of this document.	Y
Landfills	None observed in roadway or back of curb area.	N

Radon	Not applicable to roadway/sidewalk improvements project	N
Asbestos-containing materials	Not applicable to roadway/sidewalk improvements project	N
Lead-based paint	Not applicable to roadway/sidewalk improvements project	N
Other observations	No other observations of note.	N

INTERVIEWS

In addition to the questionnaire completed by Ms. Sherry Weesner of the Memorial Heights Redevelopment Authority, TGC attempted to interview property owners of sites in the corridor that may have used, stored, or disposed of hazardous materials. Summaries of the interviews are provided in the table below.

Interviews

LOCATION	PERSON INTERVIEWED	DATE	
Advance America 2802 North Shepherd Drive Former Phillips 66 LPST site	Ms. Lisa Contreras Assistant Manager	January 20, 2018	Ms. Contreras did not know of any environmental issues at the property or nearby properties.
AT&T 2802 North Shepherd Drive Former Phillips 66 LPST site	Manager	January 20, 2018	The store manager did not know of any environmental issues at the property or nearby properties. He believed the current use of the property was consistent with past uses.
Fiesta Mart 2807 North Shepherd Drive LPST site	Mr. Jesus R.	January 20, 2018	Mr. R. did not know of any environmental issues at the property or nearby properties.
Mattress Firm 1048 North Shepherd Drive Former Exxon LPST site	Ms. Tracy Ly Area Sales Manager	January 13, 2018	Ms. Ly was aware that the site had previously been a gas station. She did not know anything specific about the chemicals handled on site other than the standard fuel that would be present at any gas station. She was not aware of any other environmental issues at the property or nearby properties.
Balls Out Burger 1603 North Durham Drive Former Guerrero Car Wash LPST site	Mr. Paul Rickman General Manager	January 13, 2018	Mr. Rickman was aware that the site had been a car wash and gas station, as well as an insurance company. He was not aware of any other environmental issues at the property or nearby properties.

Sunrise Dental 2707 North Shepherd Drive Former Old Service Station LPST site	January 20, 2018	Attempted interview. Office was not open.
Strip mall 1835 North Shepherd Drive Former Houston Alternator LPST site	January 20, 2018	Attempted to interview people at different establishments. No one was willing to give an interview.
Eagle Hand Wash and Car Detail 1604 North Shepherd Drive Former Used Car Lot LPST site	January 20, 2018	No one was willing to answer questions at this location.
Heights Bier Garten 1433 North Shepherd Drive Former FV LPST site	January 20, 2018	No one was willing to answer questions at this location. People spoken to said they did not know anything.
Title Max 1421 West 11th Street Former Valero 2474 LPST site	January 20, 2018	Employees were busy with customers and were not willing to answer questions.
Tommie Vaughn Motors 914 North Shepherd Drive Former LPST site	January 20, 2018	Site was gated and could not be entered.
Johnstone 2120 Shepherd Drive VCP, LPST, and IHWCA site	January 20, 2018	Building was gated and could not be entered.
Texas Orthopedic and Spinal Institute 4710 Katy Freeway Former RAS 6 3889 LPST site	January 20, 2018	Offices were not open.
Offices 2200 Patterson Former landfill and auto site	January 20, 2018	Offices were not open.

In addition, several sites with reported past contamination were visited in the field and were undergoing demolition and/or new construction and property representatives were not easily accessible on site:

- Former McQuillan Surveying at 2018 North Shepherd Drive (LPST site)
- Former Abel Motors at 2002 North Shepherd Drive (LPST site)
- Former Win Auto Sales at 1815 North Durham Drive (LPST site)

DATA GAPS

It is beyond the scope of a Phase I ESA investigation to perform subsurface exploration or chemical screening of soil and groundwater at the subject property. No statement of scientific certainty can be made regarding subsurface conditions. The conclusions drawn in this report are not scientific certainties, but are probabilities based on professional judgment used to evaluate the available data. TGC cannot confirm that the project corridor or adjacent properties contain no hazardous waste, petroleum products, or other impairments beyond what was detected or observed during the ESA. There is always a possibility that contaminants exist on the subject property and/or may have migrated onto and around the subject property through surface water, air, or groundwater. The ability to address the environmental risk associated with transport of these media with certainty is beyond the scope of this investigation.

When in the field, several businesses were inaccessible, closed, no longer operating, or employees on site were not willing to answer questions.

Sites with potential for risk from the historic City Directories were identified to the best of the reviewer's ability based on the abbreviated names provided. The sites were mapped as accurately as possible, but numbering conventions have changed over time and some addresses were estimated based on available information.

In some instances, labeling on Sanborn maps was not legible. Sites were identified to the best of the ability of the reviewer.

TCEQ's Central Registry was unable to provide hard copies or electronic scanned version of hard copies of project files for two sites: RAS 6 3889 at 4710 Katy Freeway (LPST 93326) and ABC Auto Parts at 2120 Shepherd Drive (IHWCA T3083). Conclusions drawn regarding these sites were based on information available from the EDR report, TCEQ and EPA on line records, and field observations. Excavation in these areas for project work is expected to be less than five feet, so they are considered low risk.

These items constitute data gaps; however, they are minimal and do not pose RECs in and of themselves.

DEVIATIONS

This Phase I ESA has been performed without deviation from, and in accordance with, ASTM Practice E1527-13. No expressed or implied representation or warranty is included or intended in the report, other than that services were performed within the prescribed scope of work, up to professional industry standards.

ADDITIONAL SERVICES

The scope of services for this Phase I did not include the following non-ASTM items: radon, asbestos, lead-based paint, lead in drinking water, cultural and historic resources, industrial hygiene, health and safety, mold, indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment, biological agents, and regulatory compliance.

FINDINGS

Using ASTM guidance, three types of RECs were identified in relation to the subject corridor:

- Recognized Environmental Condition - there is the presence or likely presence of hazardous substances or petroleum products at the site.
- Controlled Recognized Environmental Condition - there is a reported release and the agency has closed a site, but contamination was left in place with an on-going control such as deed restriction, cap requiring regular maintenance, etc.
- Historical Recognized Environmental Condition - a site has reported a release but is closed by the agency and there is no on-going monitoring or controls.

RECS

Two RECs were identified in relation to the project corridor, summarized in the table below.

RECs

SITE	DISTANCE FROM PROJECT CORRIDOR	IDENTIFICATION NUMBER	STATUS
White Oak Bayou MSD	Adjacent	City of Houston #2013-059-FCD	This MSD has been approved by the City of Houston and is pending with TCEQ. The western boundary of the MSD is Shepherd Drive. Surface soils have been impacted by arsenic, barium, cadmium, lead, mercury and silver, and shallow groundwater has been impacted by antimony, arsenic, barium, cadmium, chromium, and lead. Concentrations of metals in surface soil did not exceed TCEQ's Total Soil Combined PCL at any sampling locations. The highest concentrations of contaminants in groundwater have been identified in monitoring wells mid-site and 500 or more feet from Shepherd Drive; this is the presumed source area. The dominant direction of groundwater flow is away from the project area. Excavation for utility work in this area is expected to be less than five feet. This MSD is considered a Recognized Environmental Condition but is not anticipated to be impacted by project work.
Abel Motors 2002 North Shepherd Drive	65.78 feet	LPST 119947	Ghost tanks were reported at this site in December 2015. The assessment is incomplete, but no apparent receptors have been impacted. Soil is contaminated with benzene, ethylbenzene, total xylenes, and MTBE. The site is still active in the LPST remediation program and is therefore considered a REC.

At the time of the field visit, the site was undergoing demolition and new construction.

CONTROLLED RECS

VCP 2552 was listed in the AUL section of the EDR report, but no contamination was left in place at the site. It was remediated to residential standards and has no physical controls or monitoring required. Therefore, the site is considered an HREC rather than a CREC.

HRECS

HRECs are sites that have been issued certificates from TCEQ indicating that the agency deems the conditions on the property to be protective of human health and the environment. Sites that have been issued VCP COCs without institutional or engineering controls, sites that have been issued IOCs, and sites that have been designated Closed by the LPST program are categorized as HRECs in this report. Table 14 below lists all of the HRECs identified in the vicinity of the project corridor.

HRECs			
SITE	**DISTANCE FROM PROJECT CORRIDOR**	**IDENTIFICATION NUMBER**	**STATUS**
2120 Shepherd Drive	163.31 feet	VCP 2552 LPST 119249 IHWCA T3083	The site was redeveloped with new (2014) construction for Johnstone. Soil and groundwater were contaminated with VOCs, heavy metals, pesticides, and TPH. The site received a Certificate of Completion under residential land use standards in 2016 and is protective for construction workers. Excavation in this area will be less than five feet. Project work is not anticipated to be impacted by this site and it is considered an HREC.
Shell Texaco 801 North Loop	174.46 feet	LPST 117756 LPST 98541	TCEQ determined during remediation work in 2010 that concentrations of contaminants in soil and groundwater at the site are protective of construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Fiesta Mart 2807 North Shepherd Drive	63.82 feet	LPST 109139	TCEQ determined that concentrations of contaminants are protective of construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
North Shepherd Phillips 66 2802 North Shepherd Drive	Adjacent	LPST 091026	The site has been redeveloped as a strip mall with a fast food restaurant and commercial/retail businesses. TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Old Service Station 2707 North Shepherd Drive	Adjacent	LPST 106628	The site has been redeveloped with a Sunrise Dental office. Final concurrence was issued and the remediation actions were closed out in 1996; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
McQuillan Surveying 2018 North Shepherd Drive	61.30 feet	LPST 111825	The site is currently vacant and for lease.

			TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Win Auto Sale 1815 North Durham Drive	61.09 feet	LPST 114439	At the time of the field visit, the business was closed and the building was undergoing demolition. TCEQ determined that the soil and groundwater pathways were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Houston Alternator 1835 North Shepherd Drive	74.04 feet	LPST 119652	The site is now a strip mall with restaurants. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Former Guerrero Car Wash 1603 North Durham Drive	Adjacent	LPST 120006	The site is now Balls Out Burgers. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Former Used Car Lot 1604 North Shepherd Drive	Adjacent	LPST 119056	The site is now Eagle Hand Wash and Car Detail. Final concurrence was issued and the remediation actions were closed out in 2013; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
FV 1433 North Shepherd Drive	Adjacent	LPST 100344	The site is now the Heights Bier Garten. Final concurrence was issued by TCEQ and the remediation actions were closed out in 1992; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Former Tommie Vaughn Motors Ford 1145 North Shepherd Drive	240.12 feet	LPST 95686	The site is still a Ford dealership. TCEQ determined that concentrations of contaminants were below Plan A Category I target levels; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Valero Corner Store 2474 1421 West 11th Street	204.81 feet	LPST 118887	The site is now Title Max. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.

Shepherd ET 1049 North Shepherd Drive	Adjacent	LPST 107211 LPST 112625	The site is now a Kroger gas station. TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Exxon RS 67233 1048 North Shepherd Drive	Adjacent	LPST 108256	This site is now a Mattress Firm Super Center. The vertical extent of contamination was defined; there were no apparent threats or impacts to receptors. Final concurrence was issued and the remediation actions were closed out in 1996; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Tommie Vaughn Motors Ford 914 North Shepherd Drive	Adjacent	LPST 114431	TCEQ determined that conditions were protective for construction workers; therefore, project work is not anticipated to be impacted by this site and it is considered an HREC.
Dons Texaco Inc. 2015 Shepherd Drive	319.26 feet	LPST 115032	The site has been redeveloped with a Cane's restaurant. TCEQ determined that maximum soil concentrations do not exceed health-based target levels and groundwater concentrations do not exceed construction worker target levels. Excavation in this area is expected to be less than five feet. Project work is not anticipated to be impacted by this site and it is considered an HREC.
RAS 6 3889 4710 Katy Freeway	415.24 feet	LPST 93326	The site was redeveloped in 2012 and is now the Texas Orthopedic and Spinal Institute. Groundwater was impacted at the site, but off-site migration was unlikely. Final concurrence was issued and the site was closed out in 1992. TCEQ Central Files was unable to find any documentation on this site, but their online tracking indicates that monitoring took place at the site prior to its closure in 1992. Due to evidence of monitoring prior to closure, the amount of time since site closure, the site's current use as office space, and project excavation of less than five feet, project work is not anticipated to be impacted by this site and it is considered an HREC.

Table 14

All of these sites have been closed by TCEQ. TCEQ has concurred, based on submitted laboratory testing, that conditions are protective of, at a minimum, typical construction worker exposure. Because of this evidence, Phase II sampling is not recommended for these specific HREC sites; many of these sites are adjacent/in the immediate vicinity of HREC areas identified in the following section for consideration of Phase II sampling.

Additional City of Houston Requirements for HRECs

The City of Houston requires further investigation of HRECs: "a historical site (gasoline, filling, and service stations, and dry cleaners) not currently listed in the database shall be considered for ESA II provided it is located adjacent to the alignment/parcel."[25]

Over 200 historic high risk sites have been identified within 500 feet of the project corridor. Because of the large number of historic sites and the lack of any reported evidence of actual releases, intersections/blocks with high concentrations of sites were identified as HREC areas. These areas, based on available City Directories, Sanborn Maps, historic aerial photos and topographic maps, and EDR historic auto station and dry cleaner listings, are:

- North Shepherd at West 28th
- North Shepherd between West 27th and West 26th/midblock
- North Shepherd between West 25th and West 24th/midblock
- North Shepherd and West 23rd
- North Shepherd between West 21st and West 20th/midblock
- North Durham between West 21st and West 20th/midblock
- North Shepherd and West 19th
- North Shepherd between West 18th and West 17th/midblock
- North Shepherd between West 17th and West 16th/midblock
- North Durham and West 16th
- North Shepherd between West 16th and West 15th/midblock
- North Shepherd between West 15th and West 14th/midblock
- North Shepherd between West 14th and West 13th/midblock
- North Shepherd and West 11th
- North Shepherd and West 10th
- North Shepherd and Larkin

DE MINIMIS CONDITIONS

De minimis staining, cracking, and puddles in the roadway and back of curb environment from vehicular and pedestrian use were noted in the corridor.

OTHER ENVIRONMENTAL CONDITIONS

Vapor migration in the subsurface is described in ASTM Guide 2600; however, nothing in this practice should be construed to require application of the Guide E2600 standard to achieve compliance with All Appropriate Inquiries. Because the project entails roadway and back of curb improvements and does not involve any enclosed structures, vapor migration is not applicable.

[25] *City of Houston Department of Public Works & Engineering Geotechnical and Environmental Requirements Design Manual*, Chapter 11.

OPINION

Typical excavation for utilities along the entire corridor is expected to be five to 12 feet. South of White Oak Bayou, there will be no excavation over five feet. Excavation is anticipated to be up to 20 feet in the areas around 15th and 17th Streets.

In addition to sites with confirmed contamination, the City of Houston guidance recognizes unreported sites with potential risk listed in historic City Directories as HRECs. When these sites are located adjacent to the project corridor, Phase II sampling is recommended per the City of Houston's Design Manual.

In TGC's opinion, based on anticipated excavation greater than five feet along the entire corridor north of White Oak Bayou and actual or potential contamination identified through environmental records research, the highest risk areas are the following locations (see Figures 72 through 75):

- North Shepherd at West 28th
- North Shepherd between West 27th and West 26th/midblock
- North Shepherd between West 25th and West 24th/midblock
- North Shepherd and West 23rd
- North Shepherd between West 21st and West 20th/midblock and Abel Motors (2002 North Shepherd)
- North Durham between West 21st and West 20th/midblock
- North Shepherd and West 19th
- North Shepherd and West 18th
- North Shepherd and West 17th
- North Durham and West 17th
- North Shepherd between West 17th and West 16th/midblock
- North Durham and West 16th
- North Shepherd between West 16th and West 15th/midblock
- North Shepherd and West 15th
- North Durham and West 15th
- North Shepherd between West 15th and West 14th/midblock
- North Shepherd between West 14th and West 13th/midblock
- North Shepherd and West 11th
- North Shepherd and West 10th

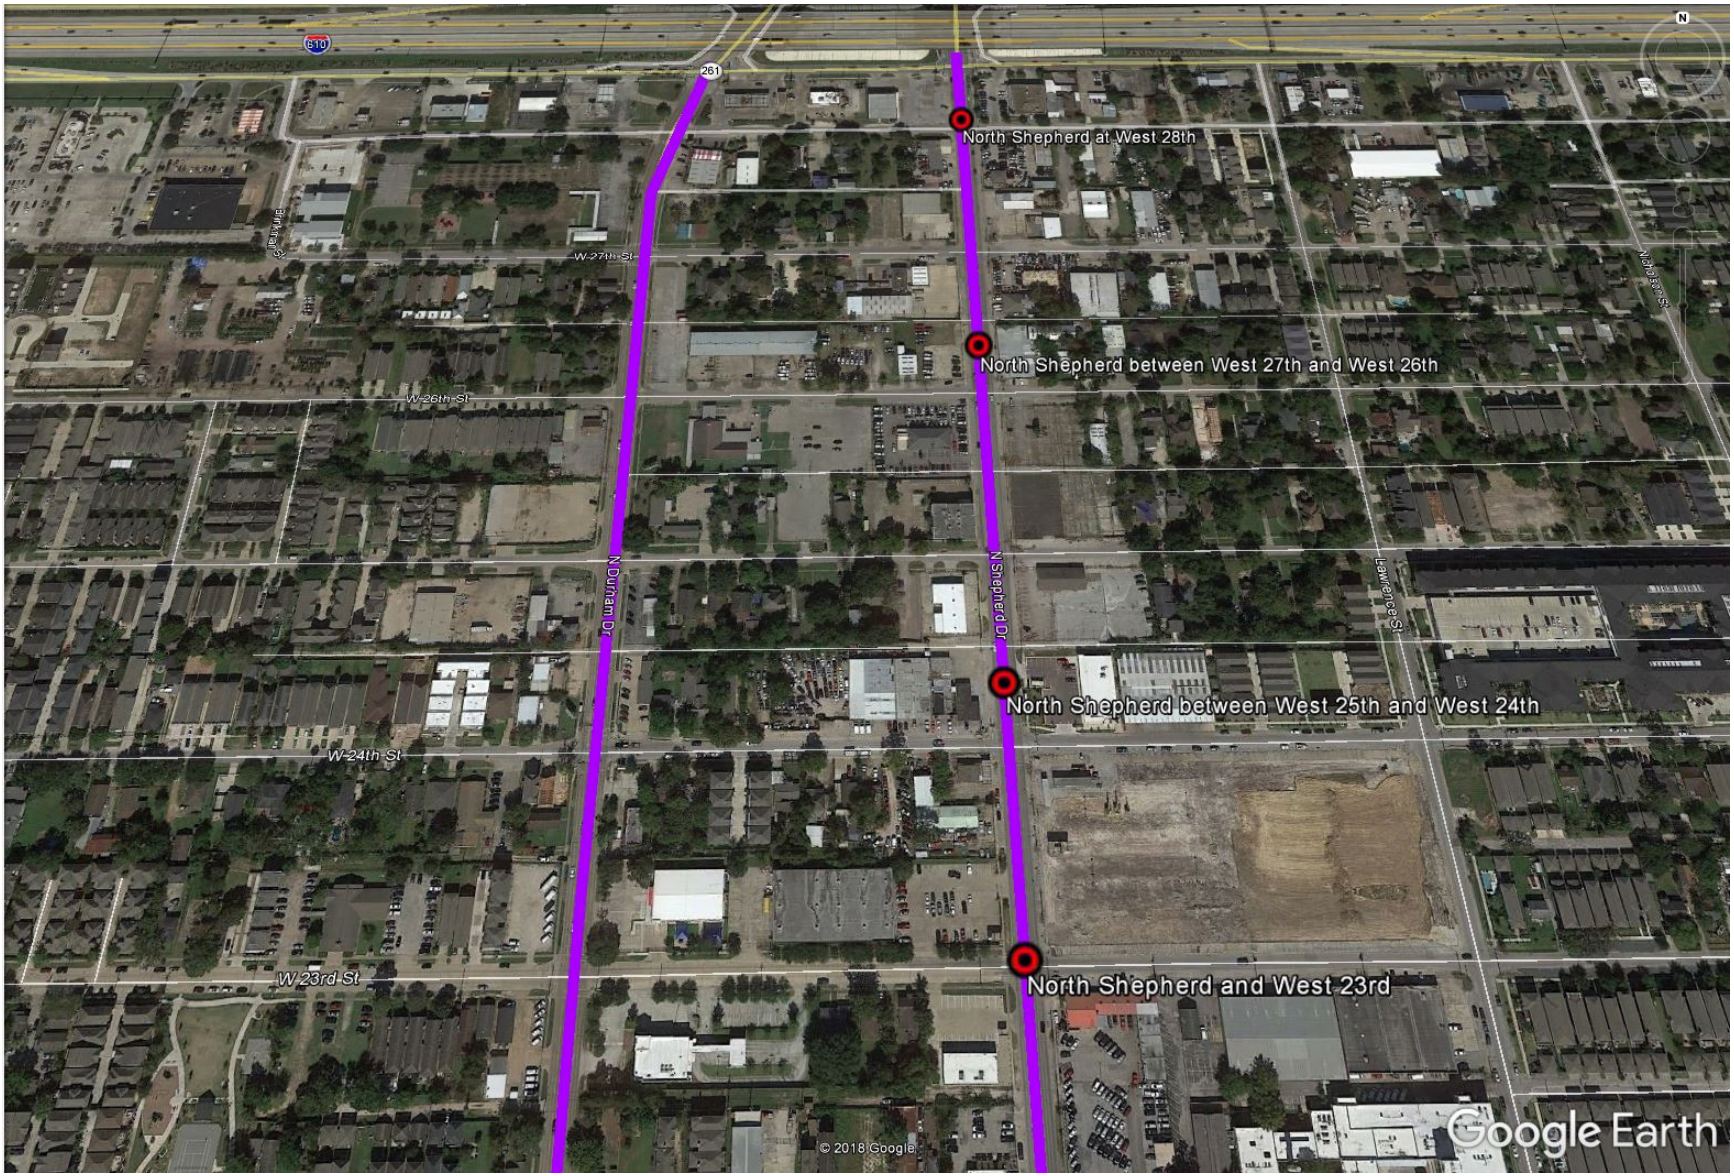

Figure 72 Potential boring locations, IH 610 to West 23rd Street

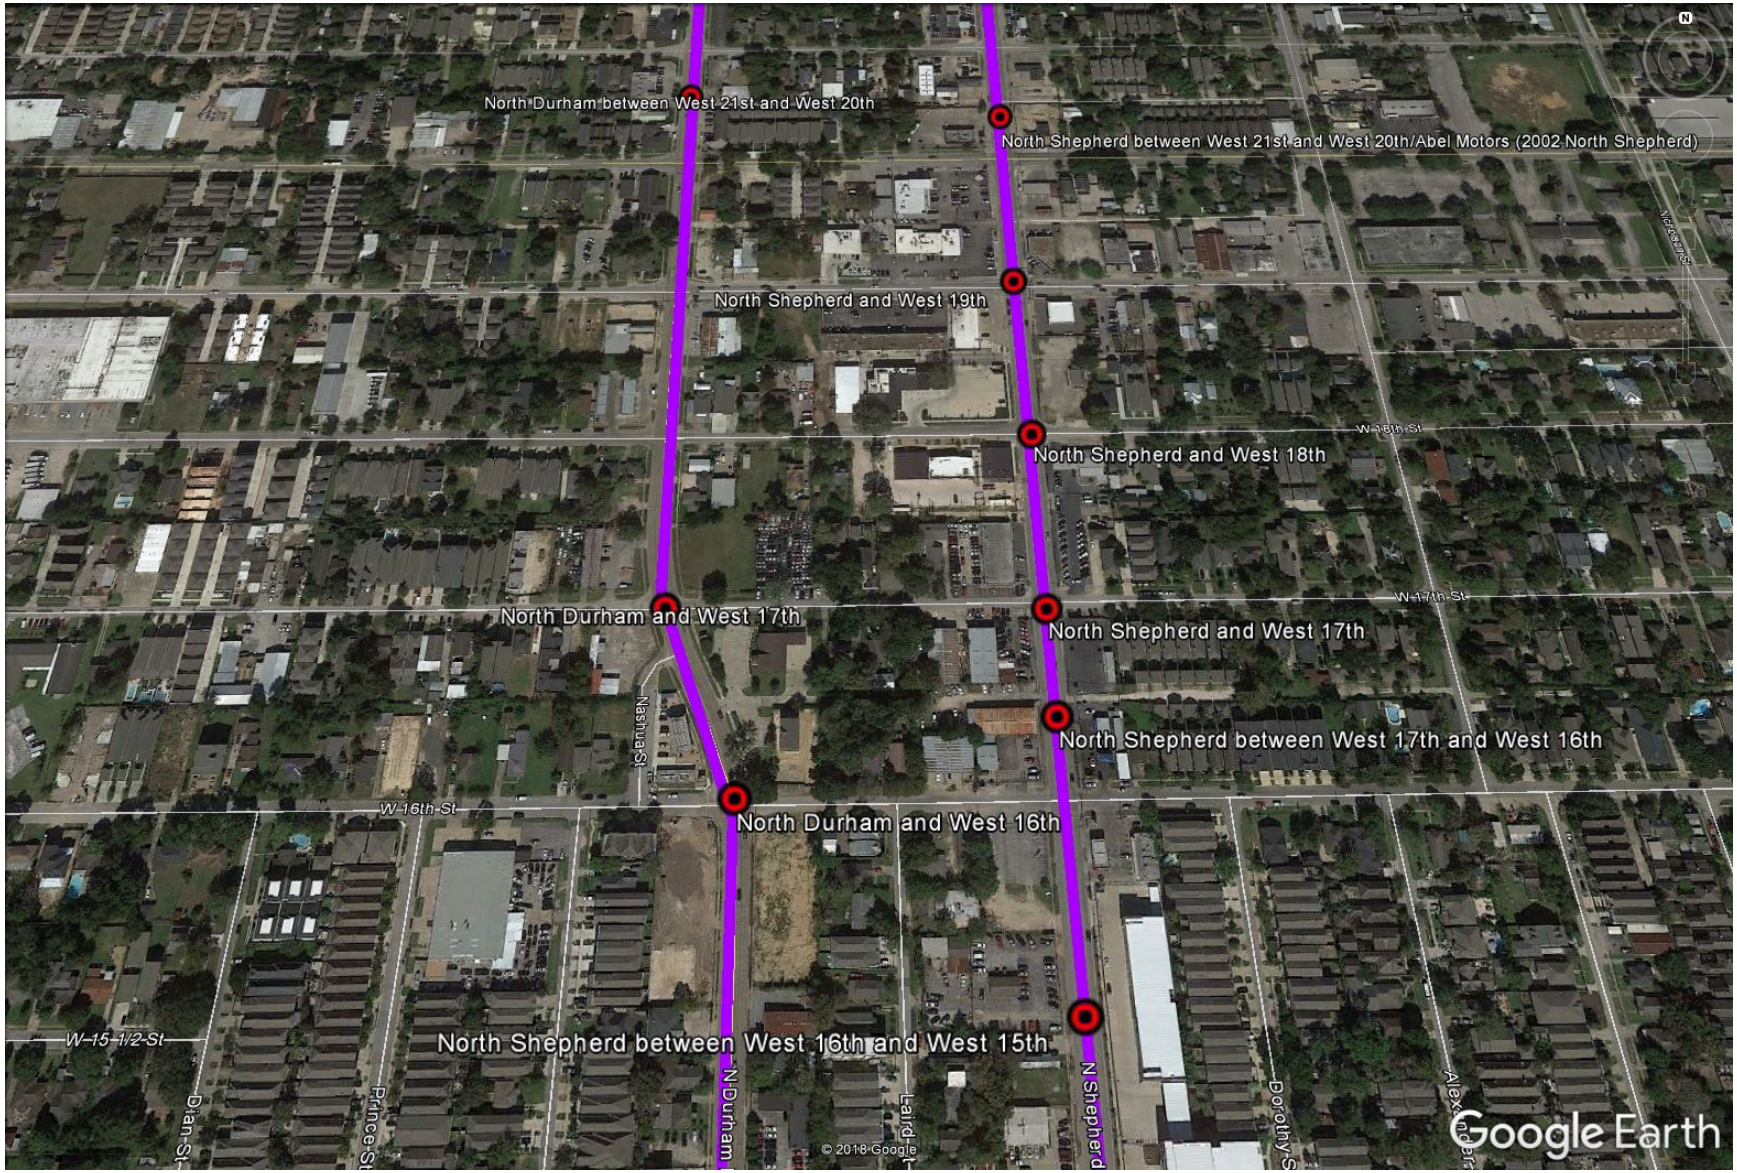

Figure 73 Potential boring locations, West 23rd Street to West 15th Street

Figure 75 Potential boring locations, West 12th Street to West 9th Street

CONCLUSION

TGC has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 and City of Houston requirements for Shepherd and Durham Drives between IH 610 and Larkin Street. Any exceptions to, or deletions from, this practice are described in the *Deviations* section of this report. This assessment has revealed no evidence of Recognized Environmental Conditions in connection with the project except for the following:

- White Oak Bayou MSD, North Shepherd Drive and White Oak Bayou
- Abel Motors, 2002 North Shepherd Drive

HRECs in the project corridor are:

- 2120 Shepherd Drive
- Shell/Texaco, 801 North Loop
- Fiesta Mart, 2807 North Shepherd Drive
- North Shepherd Phillips 66, 2802 North Shepherd Drive
- Old Service Station, 2707 North Shepherd Drive
- McQuillan Surveying, 2018 North Shepherd Drive
- Win Auto Sale, 1815 North Durham Drive
- Houston Alternator, 1835 North Shepherd Drive
- Former Guerrero Car Wash, 1603 North Durham Drive
- Former Used Car Lot, 1604 North Shepherd Drive
- FV, 1433 North Shepherd Drive
- Former Tommie Vaughn Motors Ford, 1145 North Shepherd Drive
- Valero Corner Store 2474, 1421 West 11th Street
- Shepherd ET, 1049 North Shepherd Drive
- Exxon RS 67233, 1048 North Shepherd Drive
- Tommie Vaughn Motors Ford, 914 North Shepherd Drive
- Dons Texaco Inc., 2015 Shepherd Drive
- RAS 6 3889, 4710 Katy Freeway

There are over 200 historic high risk sites within 500 feet of the project corridor that could be considered additional City of Houston HRECs. Because of the large number of historic sites and the lack of any reported evidence of actual releases, intersections/blocks with high concentrations of sites were identified as HREC areas. These areas, based on available City Directories, Sanborn Maps, historic aerial photos and topographic maps, and EDR historic auto station and dry cleaner listings, are:

- North Shepherd at West 28th
- North Shepherd between West 27th and West 26th/midblock
- North Shepherd between West 25th and West 24th/midblock
- North Shepherd and West 23rd
- North Shepherd between West 21st and West 20th/midblock
- North Durham between West 21st and West 20th/midblock
- North Shepherd and West 19th
- North Shepherd and West 18th
- North Shepherd and West 17th

- North Durham and West 17th
- North Shepherd between West 17th and West 16th/midblock
- North Durham and West 16th
- North Shepherd between West 16th and West 15th/midblock
- North Shepherd and West 15th
- North Durham and West 15th
- North Shepherd between West 15th and West 14th/midblock
- North Shepherd between West 14th and West 13th/midblock
- North Shepherd and West 11th
- North Shepherd and West 10th
- North Shepherd and Larkin

The City of Houston reviewed the Draft Phase I ESA for the project and designated both corridors as Potentially Petroleum Contaminated Areas (PPCA) and concluded that "conducting a subsurface assessment (Phase II ESA) for all identified REC sites may be cost prohibitive" (see Appendix I).[26] Based on the City's determination, a traditional Phase II ESA is not recommended.

The City of Houston has specific requirements for construction within PPCAs, including having the PPCA designation included on constructions plans, stockpiling soil, proper soil disposal, etc. The City of Houston Department of Public Works Guide Specifications Sections 02105 (Chemical Sampling and Analysis) and 02120 (Off-Site Transportation and Disposal) provide key guidance for construction within PPCAs.

RECOMMENDATION

Because the City of Houston has determined that the corridors are PPCAs, a traditional Phase II ESA is not recommended. As mentioned in the previous section, the contractor working on the project must adhere to the City's Department of Public Works Guide Specifications during construction.

[26] Letter from Maher Tanbouz, P.E., Supervising Engineer to Patricia K. Campbell, P.E., Supervising Engineer, City of Houston Public Works (March 27, 2018).

ENVIRONMENTAL PROFESSIONAL STATEMENT

I declare that, to the best of my professional knowledge and belief, I meet the definition of environmental professionals as defined in §312.10 of 40 CFR § 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Stephanie Kirschner, AICP, Project Manager and Environmental Specialist

DISCLAIMER

This report was prepared exclusively for the reliance of Jones and Carter and the Memorial Heights Redevelopment Authority/Tax Increment Reinvestment Zone #5. It contains information obtained from a variety of public sources and interviews. TGC makes no representation or warranty regarding the accuracy, reliability, quality, or completeness of said information. TGC conducted this assessment with the diligence utilized by similar firms performing similar work. Extraordinary verification was not performed. In no event is TGC liable for special, incidental, consequential or exemplary damages.

QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONAL

Stephanie Kirschner, AICP, Project Manager

- BA in Geology and MUP in Urban Planning.
- American Society for Testing and Materials Technical Training Course (2016).
- Six years as an environmental planner, including work on federal and state environmental approvals for transportation projects.
- Three years as an environmental scientist, including experience conducting Environmental Site Assessments.
- One year as a Project Manager for Texas Commission on Environmental Quality (TCEQ) Remediation Division reviewing Phase Is, Phase IIs, and additional state-required documentation for Corrective Action and Voluntary Clean-Up Program sites.

APPENDIX A

ALL APPROPRIATE INQUIRIES QUESTIONNAIRE

Environmental Site Assessment - All Appropriate Inquiries User Questionnaire ASTM 1527

Subject Property Name: Shepherd / Durham Corridors (Approximately LP 610 to White Oak Bayou)

Subject Property Address: Various

1. Are you aware of any environmental cleanup liens or efforts at the Subject Property that are filed or recorded under federal, tribal, state, or local law?

   Yes / No / Unknown

   If yes, please attach a copy.

   Comments: None known at this point in time.

2. Are you aware of any Activity and Use Limitations, such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

   Yes / No / Unknown

   If yes, please attach a copy.

   Comments: None known at this point in time.

3. As the user of this ESA, do you have any specialized knowledge or experience related to the Subject Property or nearby properties? For example:
   - Is the business you currently operate on the Subject Property consistent with its past uses? Is it consistent with surrounding uses?
   - Do you have any knowledge about chemicals that may have been used at adjacent properties?
   - Do you have any documentation for the Subject Property that would be relevant to this Phase I ESA (past Phase Is, Phase II subsurface investigations, tank removal reports, asbestos and/or lead sampling or abatement reports, remedial reports)?

   Yes / No / Unknown

   If yes, please attach a copy.

   Comments: As this ESA is for a corridor and not a specific property, we do not have enough specific knowledge regarding the entire corridor to provide additional information at this time.

4. Does the purchase price being paid for this Subject Property reasonably reflect the fair market value of the Subject Property?

   Yes / No / Unknown / Not Applicable

   If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the Subject Property?

   Yes / No / Not Applicable

(over)

Comments: Certain portions of individual parcels may be obtained in order to acquire sufficient right of way to complete the ultimately desired project. Those exact limits are not yet known. All acquisitions will be consistent with the Uniform Act requirements which ensure that all acquisitions are made in a manner in which fair market value is paid via a summary and review appraisal.

5. Are you aware of commonly known or reasonably ascertainable information about the Subject Property that would help the environmental professional to identify conditions indicative of release or threatened releases? For example:
    - Do you know the past use of the Subject Property?
    - Do you know of specific chemicals that are or were once present at the Subject Property?
    - Do you know of any spills or chemical releases that have occurred at the Subject Property?
    - Do you know of any environmental cleanups that have occurred at the Subject Property?

    Yes / No

    Comments: The Goodman Corporation (TGC) prepared a desktop environmental review in 2016 that reviewed hazardous materials at that time. That information was made available to the Memorial Heights Redevelopment Authority. The same firm (TGC) is preparing the ESA and has access to all of that data and information.

6. Based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of releases at the property?

    Yes / No

    Comments: None known at this time.

EXECUTIVE SUMMARY

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL RECORDS

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/11/2017 has revealed that there is 1 SEMS-ARCHIVE site within the searched area.

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 09/13/2017 has revealed that there is 1 RCRA-LQG site within the searched area.

EXECUTIVE SUMMARY

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 09/13/2017 has revealed that there are 4 RCRA-CESQG sites within the searched area.

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/13/2017 has revealed that there are 25 RCRA NonGen / NLR sites within the searched area.

TOMMIE VAUGHN MOTORS	***1145 N SHEPHERD***	***45***	***437***

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 07/23/2017 has revealed that there are 39 FINDS sites within the searched area.

STATE AND LOCAL RECORDS

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Texas Commission on Environmental Quality's permitted Solid Waste Facilities list.

A review of the SWF/LF list, as provided by EDR, and dated 10/27/2017 has revealed that there are 2

SWF/LF sites within the searched area.

EXECUTIVE SUMMARY

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Texas Commission on Environmental Quality's Petroleum Storage Tank Database.

A review of the UST list, as provided by EDR, and dated 07/03/2017 has revealed that there are 54 UST sites within the searched area.

GCC: Texas Water Code, Section 26.406 requires the annual report to describe the current status of groundwater monitoring activities conducted or required by each agency at regulated facilities or associated with regulated activities. The report is required to contain a description of each case of groundwater contamination documented during the previous calendar year. Also to be included, is a description of each case of contamination documented during previous periods for which voluntary clean up action was incomplete at the time the preceding report was issued. The report is also required to indicate the status of enforcement action for each listed case.

A review of the GCC list, as provided by EDR, and dated 12/31/2016 has revealed that there are 14 GCC sites within the searched area.

EXECUTIVE SUMMARY

EDR PROPRIETARY RECORDS

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 118 EDR Hist Auto sites within the searched area.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 36 EDR Hist Cleaner sites within the searched area.

. Waste name: Not Defined

. Waste code: D002
. Waste name: CORROSIVE WASTE

Violation Status: No violations found

FINDS:

Registry ID: 110005068354

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Classification: Not a generator, verified

. Waste code: U120
. Waste name: FLUORANTHENE

. Waste code: U165
. Waste name: NAPHTHALENE

Violation Status: No violations found

FINDS:

Registry ID: 110064118164

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Status: No violations found

FINDS:

Registry ID: 110005023349

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110005012841

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

ORPHARM INC (Continued) **1000876942**

corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Registry ID: 110005133612

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Registry ID: 110034435724

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations,

CROWLEY SIGN & GRAPHICS (Continued) **1011346605**

authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Environmental Interest/Information System

GOODYEAR TIRE & RUBBER COMPANY (Continued) **1000194733**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

HOUSTON, TX 77008

FINDS:

Registry ID: 110035114514

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110005180044

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110041740266

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110005111976

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110005023376

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 10/10/2017
Date Data Arrived at EDR: 11/03/2017
Date Made Active in Reports: 12/15/2017
Number of Days to Update: 42

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 10/10/2017
Date Data Arrived at EDR: 11/03/2017
Date Made Active in Reports: 12/15/2017

Data Release Frequency: Quarterly

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994
Date Made Active in Reports: 03/30/1994

Next Scheduled EDR Contact: 11/28/2011
Data Release Frequency: No Update Planned

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 07/11/2017
Date Data Arrived at EDR: 07/21/2017
Date Made Active in Reports: 10/06/2017
Number of Days to Update: 77

Source: EPA
Telephone: 800-424-9346
Last EDR Contact: 11/03/2017
Next Scheduled EDR Contact: 01/29/2018
Data Release Frequency: Quarterly

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Data Release Frequency: Quarterly

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 08/21/2017

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List
The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

STATE AND LOCAL RECORDS

SHWS: State Superfund Registry

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 09/30/2017

GCC: Groundwater Contamination Cases
Texas Water Code, Section 26.406 requires the annual report to describe the current status of groundwater monitoring activities conducted or required by each agency at regulated facilities or associated with regulated activities. The report is required to contain a description of each case of groundwater contamination documented during the previous calendar year. Also to be included, is a description of each case of contamination documented during previous periods for which voluntary clean up action was incomplete at the time the preceding report was issued. The report is also required to indicate the status of enforcement action for each listed case.

EDR PROPRIETARY RECORDS

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.
Daycare Centers: Child Care Facility List
Source: Department of Protective & Regulatory Services
Telephone: 512-438-3269

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Texas General Land Office
Telephone: 512-463-0745

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey
